**DIRECTIONS FOR USE**

Not for aquatic use in Washington. Product can be used for aquatic application in other states. Consult the relevant aquatic herbicides for recommendations on use rates.

**PHT Latron B-1956** is a water-dispersible, resin-based nonionic surfactant (not a water-soluble detergent-type wetting agent) that resists rewetting and removal by rain. PHT Latron B-1956 is effective as a spreading, depositing and sticking agent to improve the performance of insecticides, miticides, fungicides, defoliants and herbicides. PHT Latron B-1956 is beneficial when used on smooth and waxy or fuzzy (hairy) foliage and fruit. PHT Latron B-1956 will also improve spray coverage on fruit or foliage that is covered by dust or honey dew, webbed by spider mites or infected with powdery mildew, and on hard-to-wet insects such as mealy bugs and scales. On weeds and brush PHT Latron B-1956 will assist in the spray deposit/penetration.

Growers are urged to closely observe the pattern of spray deposition during spraying and after sprays have dried. If the pattern is blotchy and uneven, more PHT Latron B-1956 is needed. If the spray is running to lower leaf margins, “eyebrow,” or collecting in drop spots on fruit, the amount of PHT Latron B-1956 should be reduced.

**DOSEAGE:** Recommendations for use of PHT Latron B-1956 depend on the crop, the pest, the kind of spray equipment, volume, pressure and droplet size of the spray and the pesticide of mixture being used. As a general guide, 1 to 2 ounces are used on moderately easy-to-wet plants, 2 to 4 ounces on hard-to-wet plants, and 4 to 8 ounces on very hard-to-wet plants per 100 gallons of dilute full-volume spray. As sprays are concentrated to 2X, 10X, or 20X, the amount of PHT Latron B-1956 should be increased in about the same proportion as the pesticide. The chart below will serve as a general guide for some of the common types of spray application.

**MISCELLANEOUS USES:** To improve the wetting properties of insecticidal sprays on livestock, especially in hard water areas, use 1 to 2 ounces of PHT Latron B-1956 per 100 gallons of spray.

**COMPATIBILITY:** PHT Latron B-1956 can be used with wettable powder, emulsifiable concentrate or solution formulations of most pesticides now on the market.

**STORAGE AND DISPOSAL**

**STORAGE:** Store away from excessive heat (e.g. steam pipes, radiators), from sources of ignition and reactive materials. Keep from freezing.

**SPILLS AND LEAKS:** Eliminate all ignition sources. Wear respirator suitable for vapor concentration encountered (MSHA/NIOSH-approved or equivalent). Wear protective clothing. Dike and contain spill with inert material (e.g. sand, earth). Transfer liquid to containers for recovery or disposal and solid diking material to separate containers for disposal.

Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

**IN CASE OF FIRE:** Use water spray, dry chemical or CO2. Wear respirator, self-contained breathing apparatus (pressure-demand, MSHA-NIOSH-approved or equivalent) and full protective gear. Use water spray to cool containers.

**CONTAINER DISPOSAL:** Empty containers may contain product residue (vapor/liquid) and can be hazardous. Observe all label precautions. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

**TERMS AND CONDITIONS OF USE**

If terms of the following Warranty Disclaimer and Inherent Risks of Use are not acceptable, return unopened package at once to the seller for a full refund of purchase price paid. Otherwise, use by the buyer or any other user constitutes acceptance of the terms under Warranty Disclaimer and Inherent Risks of Use.

**DISCLAIMER OF WARRANTIES:** J.R. Simplot Company warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with label directions under normal conditions of use. To the extent consistent with applicable law J.R. SIMPLOT COMPANY MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. Handling, storage and use of the product by Buyer or User are beyond the control of J.R. Simplot Company and Seller. To the extent consistent with applicable law such as crop injury, ineffectiveness or other unintended consequences resulting from, but not limited to, weather or soil conditions, presence of other materials, disease, pest, drift to other crops or property or failure to follow label directions will be assumed by the Buyer or User. To the extent consistent with applicable law, in no case will J.R. Simplot Company or Seller be held liable for consequential, special or indirect damages resulting from the handling, storage or use of this product.

**NET CONTENTS:** 5 Gallons / 18.9 Liters

**PRODUCED FOR:** J. R. SIMPLOT COMPANY
