KEMTEK
pool & spa care

1" Chlorinating Tablets
CHLORINATING SANITIZER AND ALGAECIDE

Chlorinates up to One Week
UV Resistant
For Floaters & Feeders
Slow Dissolving
Salt System Compatible

KEEP OUT OF REACH OF CHILDREN
DANGER
See back panel for other precautions

ACTIVE INGREDIENT:
Trichloro-s-triazinetrione 95.0%
OTHER INGREDIENTS.............5.0%
TOTAL..................................100.0%
(85% Available Chlorine)
NET WT. 9 Lbs. (4.08 Kg.)

FIRST AID: Call a poison control center (1-800-222-1222) or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going to treatment. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. IF INHALED: Move person to fresh air. If person is not breathing, call FFR or an ambulance. Then give artificial respiration preferably mouth-to-mouth, if possible. IF SWALLOWED: Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. NOTE TO PHYSICIAN: Probable mucous membrane irritation may contraindicate the use of gastric lavage.

MAINTAINING YOUR POOL IS AS EASY AS

1 balance
2 chlorinate
3 shock

7616-76_KEM-TEK pool & spa care Chlorinating Tablets_20121003_2.pdf
DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.
KEM-TEK POOL & SPA CARE 1" CHLORINATING TABLETS are slow dissolving, concentrated tablets for use in erosion type feeders.
1. Remove everything from feeder and rinse thoroughly with fresh water. Never mix KEM-TEK POOL & SPA CARE
1" CHLORINATING TABLETS with any other sticks, tablets or any other chemicals.
2. Fill the feeder with tablets.
3. Adjust the feed rate so as to maintain a chlorine residual of 1.0–1.5 ppm.
4. Check the pH of the pool water daily, adding Sodium Bisulfate (dry pool acid) or Sodium Carbonate (soda ash) and/or
KEM-TEK POOL & SPA CARE pH MINUS or KEM-TEK POOL & SPA CARE pH PLUS or equivalent products as necessary to
maintain pH in 7.2–7.6 range.
5. If the pool is not stabilized with KEM-TEK POOL & SPA CARE STABILIZER CONDITIONER or equivalent, add stabilizer to a
concentration of 30 ppm. Consult the label on KEM-TEK POOL & SPA CARE STABILIZER CONDITIONER or equivalent
product for exact instructions.
POOL STARTUP AND HEAVY BATHER LOAD: At the start of the swimming season, in filled pools, upon filling a pool, and
after heavy swimmer load, super chlorination (shocking) is necessary. Super chlorination is the addition of two or three
times the normal amount of chlorine to oxidize and remove unwanted organic and inorganic material. The end result is
the establishment of a chlorine residual of 1.0 – 1.5 ppm. For super chlorination, use a liquid or granular agent, such as
Sodium Hypochlorite, Calcium Hypochlorite or Sodium Dichloro-s-triazinetrione, which will dispense chlorine rapidly.
Consult the label on Sodium Hypochlorite, Calcium Hypochlorite or Sodium Dichloro-s-triazinetrione for super
chlorination instructions. Do not use the pool during super chlorination until the chlorine residual is less than 3 ppm.
Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any
other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic
matter or any other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and
possible generation of fire and explosion.

NOTE: Do not allow direct contact of this product on the following pool surfaces: vinyl, metallic, fiberglass, painted or colored plaster.
Product will bleach color out.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.
STORAGE: Keep product in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from
heat or open flame or in case of decomposition, isolate container in open area if possible, and flood with large amounts of
water.
CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. IF EMPTY: Place in trash
collection or offer for recycling if available. IF PARTLY FILLED: Call your local solid waste agency for disposal instructions.
Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
DANGER. CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal
if inhaled. Do not breathe dust or spray mist. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on
skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash
thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the
Toilet. Remove contaminated clothing and wash clothing before reuse.
ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.
PHYSICAL OR CHEMICAL HAZARD:
STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE OR EQUALLY TOXIC GASES. CONTACT WITH
WATER SLOWLY LIBERATES IRITATING AND TOXIC HAZARDOUS CHLORINE CONTAINING GASES. DECOMPOSES AT 460° F
TO 480° F WITH LIBERATION OF HARMFUL GASES. IN CASE OF FIRE, if possible isolate container in open air or well
ventilated area. Flood with large volume of water.
IN CASE OF CONTAMINATION OR DECOMPOSITION, do not reseat container.
