KEMTEK pool & spa care

1" Chlorinating Tablets
CHLORINATING SANITIZER AND ALGAECIDE

Chlorinates up to One Week
UV Resistant
For Floaters & Feeders
Slow Dissolving
Salt System Compatible

KEEP OUT OF REACH OF CHILDREN
DANGER
See back panel for other precautions
ACTIVE INGREDIENT:
Trichloro-s-triazinetrione . . . . . . . .95.0%
OTHER INGREDIENTS . . . . . . . . . . . . . . . . . . . . .5.0%
TOTAL . . . . . . . . . . . . . . . . . . . . . . . . . . .100.0%
(85% Available Chlorine)
NET WT 24 LBS (384 OZ)

FIRST AID: Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. IF ON SKIN CLOTHING: Take off contaminated clothing. Wash skin immediately with plenty of water for 15-20 minutes. IF INHALED: Move person to fresh air. IF person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth, if possible. IF SWALLOWED: Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

MAINTAINING YOUR POOL IS AS EASY AS
1
balance
2
chlorinate
3
shock
DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

KEM-TEK POOL & SPA CARE T™ CHLORINATING TABLETS are slow dissolving, concentrated tablets for use in erosion type feeders.

1. Remove everything from feeder and clean thoroughly with fresh water. Never mix KEM-TEK POOL & SPA CARE T™ CHLORINATING TABLETS with any other sticks, tablets or any other chemicals. 2. Fill the feeder with tablets. 3. Adjust the feed rate so as to maintain a chlorine residual of 1.0–1.5 ppm. 4. Check the pH of the pool water daily, adding Sodium Bicarbonate (dry pool) and/or Sodium Carbonate (soda ash) and/or KEM-TEK POOL & SPA CARE pH PLUS to bring pH to 7.2–7.6. 5. If the pool is not stabilized with KEM-TEK POOL & SPA CARE STABILIZER CONDITIONER or equivalent, add stabilizer to a concentration of 20 ppm. Consult the label on KEM-TEK POOL & SPA CARE STABILIZER CONDITIONER or equivalent product for exact instructions.

POOL STARTUP AND HARRY WATER LOAD: All the shock of the swimming season, in filled pools, upon filling a pool, and after heavy swimmer load, super-chlorination (shocking) is necessary. Super-chlorination is the addition of two to three times the normal amount of chlorine to oxidize and remove unwanted organic and inorganic material. The end result is the establishment of a chlorine residual of 1.0–1.5 ppm. A liquid or granular chlorinating agent, including KEM-TEK POOL & SPA CARE CHLORINATING LIQUID, KEM-TEK POOL & SPA CARE SHOCK QUICK 12, KEM-TEK POOL & SPA CARE SHOCK QUICK 20 or KEM-TEK POOL & SPA CARE ALL-IN-ONE CHLORINATING GRAMULES, which will dissipate rapidly, must be used for super-chlorination. Consult the labels on KEM-TEK POOL & SPA CARE CHLORINATING LIQUID, KEM-TEK POOL & SPA CARE SHOCK QUICK 12, KEM-TEK POOL & SPA CARE SHOCK QUICK 20 or KEM-TEK POOL & SPA CARE ALL-IN-ONE CHLORINATING GRAMULES for super-chlorination instructions. Do not use pool during super-chlorination until the chlorine residual is less than 0.3 ppm.

Mix only with water, use clean dry utensils, do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Combination with moisture, organic matter or any other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion.

NOTE: Do not allow direct contact of this product on the following pool surfaces: vinyl, tile, fiberglass, painted or colored plaster. Product will bleach color out.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal. STORE & KEEP product in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame or in case of decomposition, solids container in open area if possible, and flood with large amounts of water. CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill container. IF SWALLOWED: Rinse out mouth. Offer plenty of water. Get medical help if symptoms orkinson. IF IN EYES: Rinse out immediately. If irritation persists, get medical help if necessary. IF INHALED: Move to fresh air. Get medical help if symptoms or kon. IF SKIN OR CLOTHING IS EXPOSED: Wash with soap and water. Get medical help if symptoms or conscious. IF FUMES ARE INHALED: Get medical help if symptoms or conscious. IF YOU INGESTED: sleep, liquid or solid material. Do not induce vomiting unless told to do so by medical person. Do not attempt to give anything by mouth to an unconscious person.

PRECAUTIONARY STATEMENTS

Harmful to Humans and Domestic Animals

DANGER. CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mist. Inhaling to nose and throat, harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.

PHYSICAL OR CHEMICAL HAZARD: STRONG CLEANING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE OR EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND TOXIC WASTEROCKS CHLORINE CONTAINING GASES, DECOMPOSES AT 120°F TO 160°F WITH LIBERATION OF HARMFUL GASES, IN CASE OF FIRE, IF POSSIBLE TOSCO CONTAINER IN OPEN AIR OR WELL-VENTILATED AREA. FLOOD WITH LARGE VOLUME OF WATER. IN CASE OF CONTAMINATION OR DECOMPOSITION, DO NOT REUSE CONTAINER.
