**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **GENERAL PRECAUTIONS AND RESTRICTIONS:**

**FOR INDUSTRIAL USE:**

**DILUTE BEFORE USING**

Do not apply this product in a way that will contact workers or other person, either directly or through drift. Only protected handlers may be in or on the area during application.

Wear synthetic rubber gloves or plastic coated gloves in handling solutions and freshly treated lumber. Treat sawdust and other wood chips should be disposed of properly and should not be used as mulch in areas where it will come into contact with useful growing plants. Care should be taken to prevent drip or spray from contacting ornamental shrubs, trees, grass, and other desirable vegetation.

**GENERAL INFORMATION**

**Description:** Workhorse® III Sapstain and Mold Control Product is a liquid concentrate containing an effective combination of fungicides for the control of sapstain and surface staining fungi that cause discoloration and staining of freshly sawn lumber. Workhorse® III Sapstain and Mold Control Product is an aqueous solution which may be applied to dimensional lumber, logs, plywood and particle board to prevent surface mold growth.

**Dilution Ratio:** Workhorse® III Sapstain and Mold Control Product is dilutable with water. For lumber in dip systems, use 1 gallon of concentrate per 50 gallons to 200 gallons of water to protect against staining organisms (at 200:1 dilution, fungal resistance is up to 3 months on softwoods). For sprayers systems use 1 gallon of concentrate per 5 to 25 gallons of water. Contact KOP-COAT, Inc. for recommendations and further information.

Application instructions: Flood spar or drip freshly sawn lumber to be treated in Workhorse® III Sapstain and Mold Control Product solution within 24 hours after cutting. A dip of 15 seconds or more is sufficient. If treated within 24 hours, stain may occur.

Lumber should be totally immersed or sprayed to ensure treatment. Tanks should be covered with a roof to prevent the addition of rain water and consequent dilution of the solution. Vats and spray equipment should be cleaned regularly to remove deposits. Avoid exposure to direct sunlight, and other extreme conditions. Carefully treated lumber should not be exposed to water. Store in protected areas in air and stack properly for best results.

Clean Up: Use water to clean immersion tanks, spray equipment and surrounding areas. Soapy water may be required to remove Workhorse® III Sapstain and Mold Control Product from floors and equipment.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal. Instructions: Store in a closed, properly labeled container under cool, dry, and well-ventilated conditions. When not in use, disposing of tank contents into application equipment or at a landfill. Fill the container 3/4 full with water. Replace and tighten closures. Top container on its side and roll it back and forth until at least one complete revolution for 30 seconds. Stand the container with its side up and roll it back and forth several times. Turn the container over on its side and roll it back and forth several times. Empty the container into application equipment or at a landfill or store for later use or disposal. Reapply this procedure two more times. Then offer for recycling if available.

**KOP-COAT Workhorse® III Sapstain and Mold Control Product**

US Patent Number 6,375,727 and 7,056,919. Additional Patents Pending

Aids in the control of blue stain, mold and decay of freshly cut lumber, dry lumber and other wood products when properly used. Effective on softwoods including Douglas Fir, White Fir, Spruce, Hemlock, the Pines including both the Southern and Western Yellow Pines, Eastern and Western White Pines and many of the hardwoods. **KEEP OUT OF REACH OF CHILDREN**

**DANGER**

Read Warnings on side panel before buying or using. If any mixture are not acceptable, return at once unopened.

**FIRST AID**

- If In Eyes:
  - Hold eyes open and rinse slowly with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.
  - Call poison control center or doctor for treatment advice.

- If on Skin or on Clothing:
  - Take off contaminated clothing.
  - Rinse skin immediately with plenty of water for 15 to 20 minutes.
  - Call poison control center or doctor for treatment advice.

- Swallowed:
  - Have person sit a glass of water if able to swallow.
  - Do not induce vomiting unless told to do so by a poison control center or doctor.
  - Do not give anything by mouth to an unconscious person.

- If Inhaled:
  - Move person to fresh air.
  - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.
  - Call a poison control center or doctor for further treatment advice.

**NOTICE TO PHYSICIAN**

- Probable mucouosal damage may contaminate the use of gastric lavage. Consult eyes and skin

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER**

CORROSIVE. Causes skin burns. Causes irreversible eye damage. Harmful if absorbed through skin. Harmful if inhaled. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid breathing spray mist. Wear protective eyewear (goggles or face shield), covered with over long-sleeved shirt and long pants: scubs, chemical-resistant coveralls, and chemical-resistant gloves. Wash thoroughly with soap and water after handling and before eating, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Apparatus and other handles should wear:

1. Coated over long-sleeved shirt and long pants.
2. Chemical-resistant footwear plus socks.
3. Goggles or safety glasses with face shield.
4. Chemical-resistant gloves (such as barrier laminate, nitrile rubber, neoprene rubber and silicon).
5. Respirator with an organic vapor-resisting cartridge with a pffntet approved for pesticides (MHANOGI approved profile TC-250) or as a canister approved for pesticides (MHANOGI approved profile TC-140) or a NIOSH approved respirator with an organic vapor (OV) cartridge or canister with a P1, P2, or P95 filter.

**USER SAFETY REQUIREMENTS**

- Follow manufacturer instructions for dispensing/ handling PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.
- Discard clothing and other absorbent materials that have been drenched or heavily contaminate with this product's concentrate. Do not reuse them.

**USER SAFETY RECOMMENDATIONS**

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing and PPE immediately if pesticide gets inside. Thoroughly wash and put on clean clothing.
- Remove personal protective equipment immediately after handling the product. Wash outside of gloves before removing. As soon as possible wash thoroughly.

**ENVIRONMENTAL HAZARDS**

The pesticide is toxic to form fumes. Do not apply directly to water. Do not contaminate water when disposing equipment waste. Do not discharge effluent containing this product into lakes, streams, ponds, ditches, oceans, or other water bodies unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of Environmental Protection Agency.

**PHYSICAL OR CHEMICAL HAZARDS**

- Do not use, pour, spill, or store near heat or open flame.

**IN CASE OF FIRE**

Use water spray or fog, foam, dry chemical or carbon dioxide to extinguish fire.

**LIMIT OF WARRANTY AND LIABILITY**

We warrant this material to comply with our own specifications and to be of good merchantable quality and such as will regularly pass in the trade for goods within the description, and further warrant such goods to be fit for the normal purposes for which goods are used. We assume no responsibility that the goods conveyed in this contract are fit for any particular purpose for which they are being bought outside of the general purposes of goods of the description.
