PROXEL® CMC-E
MICROBIOIC IN-CONTAINER AND INDUSTRIAL PRESERVATIVE

KEEP OUT OF REACH OF CHILDREN
DANGER

Active Ingredients:
- 5-Chloro-2-methyl-4-isothiazolin-3-one: 1.11%
- 2-methyl-4-isothiazolin-3-one: 0.39%
Other Ingredients: 98.50%

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. CORROSIVE.

Active Ingredients:
- 5-Chloro-2-methyl-4-isothiazolin-3-one: 1.11%
- 2-methyl-4-isothiazolin-3-one: 0.39%
Other Ingredients: 98.50%

ENVIRONMENTAL HAZARDS

For maintenance of a non-fouled system, use Proxel CMC-E at 108 - 133 fl. ounces (7.3 - 9.0 lbs) per 1000 gallons fluid every 8 weeks.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

For a noticeably fouled system use an initial dose of 133 - 224 fl. ounces (9.0 - 15.1 lbs) per 1000 gallons fluid followed by subsequent maintenance dosage. A higher dosage range and/or increased frequency of treatment may be required depending upon dilution of the preservative with makeup fluid, the nature and severity of contamination, level of control required, filtration effectiveness, system design, etc. Proxel CMC-E must be dispersed into the use-dilution of the hydraulic fluid using a metering pump and uniformly dispersed throughout the system.

INDUSTRIAL PROCESS WATER SYSTEMS

Proxel CMC-E is used as a preservative for the control of bacteria and fungi in pretreatment system and process waters used for washing metal or plastic parts and/or paint reduction. Add Proxel CMC-E to some other point in the system to ensure uniform mixing. Badly fouled systems must be precleaned before treatment begins.

INITIAL DOSE: When the system is noticeably fouled, add 2.46 to 7.46 lbs. (37 to 113 fl. ounces) of Proxel CMC-E to each 1000 gallons of water in the system. Repeat until control is achieved.

SUBSEQUENT DOSE: When microbial control is evident, add 1.25 to 1.86 lbs. (19 to 28 fl. ounces) of Proxel CMC-E to each 1000 gallons of water in the system. Repeat until control is achieved.

NOTE: Regardless of the manner of incorporation the total active ingredient level in the system must not exceed 35 ppm (equivalent to 2333 ppm Proxel CMC-E or 23 gallons per 10,000 gallons system fluid).

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Open pumping is prohibited. Store in original container in areas inaccessible to children.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray or mixture of rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Plastic containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. DO NOT cut or weld metal containers.

For maintenance of a non-fouled system, use Proxel CMC-E at 108 - 133 lbs (7.3 - 9.0 lbs) per 1000 gallons fluid every 8 weeks.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable by mouth-to-mouth if possible.

FIRST AID

NOTE TO PHYSICIAN:

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

Carcinogenicity: Proxel CMC-E is not classified as a known or suspected human carcinogen.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in manner inconsistent with its labeling. Proxel CMC-E is an in-container preservative for the control of bacteria and fungi in industrial and household consumer products including all purpose liquid cleaners; polishers and anti-damish products; air fresheners and carpet shampoos; presspots; liquid dishwashing detergents; automotive appearance products such as waxes, polishes, liquid anti-fog products, package utility products such as remoistened sponges and mops; paints and coatings.

EPA Reg No. 6836-259 Proxel CMC-E Est. No. 6836-IL-001 Net Wt. 440lbs.
