One application protects plants up to 2 weeks

Corry's Slug & Snail Killer
1lb. treats 5,000 sq. ft.

**GENERAL INFORMATION (WHY SLUG AND SNAIL BAIT IS EFFECTIVE)**

The product has a non-toxic mode of action and can be used in areas where pet and wildlife protection is a concern. When slugs and snails ingest the bait, they stop feeding and crawl back to their shelter where they eventually die. It remains effective under varying weather and environmental conditions.

The bait is ingested by slugs and snails when they travel from their hiding places to plants. Ingestion, even in small amounts, will cause them to cease feeding. This physiological effect of the bait gives immediate protection to the plants even though the slugs and Snails may remain in the area. After eating the bait, the slugs and snails cease feeding, become less mobile, and begin to die within three to six days. Dead slugs and snails may not be visible as they often crawl away to secluded places to die. Plant protection will be observed in the decrease in plant damage.

This product is effective against a wide variety of slugs and snails and will give protection to home lawns, gardens, greenhouses, outdoor ornamentals, vegetable gardens, fruits, berries, citrus, and plants. The bait can be scattered on the lawn or on the soil around any vegetable plants, flowers or fruit trees or bushes to be protected.

**PRECAUTIONARY STATEMENTS**

Hazards to Humans and Domestic Animals:

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using the toilet.

Environmental Hazards: To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent rain off to water bodies or drainage systems.

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For use around vegetables, fruits, including citrus, berries, herbs, outdoor ornamentals, greenhouses, and lawns.

**STORAGE AND DISPOSAL**

- Store in a cool, dry place. Do not store where water can come into contact with the container.
- Keep out of reach of children. Do not reuse or refill this container. Place in trash or offer for recycling, if available, by a recycler certified to handle it under local, state, or federal laws.

**WARRANTY**

The manufacturer warrants to the original purchaser that the product, while new and unused, is suitable for its intended use. This warranty is in lieu of any other express or implied warranties and shall not extend beyond the expiration date. Expiration date is 1 year from the date of purchase.

**HOW TO APPLY:**

Scatter the slug and snail bait granules on the soil around or near the plants to be protected. Use the included measuring scoop to apply bait. Do not use kitchen utensils for food uses after pesticide use. Do not place in piles.

Reapply as the bait is consumed or every two weeks. Apply more heavily if the infestation is severe, if the area is heavily watered or after long periods of heavy rain.

A plastic scoop with measuring lines is included with the product. Use this scoop to measure and apply the bait. Use 0.5 teaspoons per sq. yd. Place the scoop back in the container after the application.

**WHERE TO APPLY:**

Treat all likely areas of infestation, especially around the base of plants, between rows and around the perimeter of garden plots where pests travel into plant areas from daytime refuges. Slugs/snails favor damp places around vegetable plants such as beans, tomatoes, lettuce, cabbage, celery, and squash. Other favorite areas are flower gardens, rockeries, hedges, dichondra lawns, citrus groves, ivy patches, and other ground cover where they obtain shelter by day.

**AMOUNT TO APPLY:**

0.11 - 0.44 lbs/1000 sq. ft. or 0.5 teaspoons/sq. yd.

**FIRST AID**

If in eyes: Hold eye open and irrigate gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 3 minutes; then continue rinsing eye. Call a poison control center or doctor for treatment. For emergency information on handling this product call 1-800-389-3708.

**Hotline Number**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information on handling this product call 1-800-389-3708.
