FIRST AID (continued)

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish. Drift and runoff from treated areas may be hazardous to aquatic organisms in treated areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not water the treated area to the point of run-off. Do not make applications during rain. All outdoor applications must be limited to spot or crack-and-crevise treatments only, except for the following permitted uses:
1) Treatment to soil or vegetation around structures;
2) Applications to lawns, turf, and other vegetation;
3) Applications to building foundations, up to a maximum height of 3 feet. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches, and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevise applications only.

This product kills troublesome outdoor insects which destroy lawns, roses, flowers, trees and shrubs: Ants, Bagworms, Aphids, Armyworms, Cockroaches, Inchworms, Spider mites, Beetles, Fleas, Cicadas, Thrips, Cutworms, Sod webworms, Leaf rollers, Whiteflies, Moths.

Also kills Brown dog ticks, Budworms, Citrus black flies, Crickets, Earwigs, Elm saw worms, Fall cankerworms, Grasshoppers, Japanese beetles, Leaf-miners, Lone star ticks, Mealworms, Millipedes, Mole crickets, Mosquitoes, Scales, Sawbugs (Pillbugs), Tent caterpillars, Ticks including Deer tick (which may carry Lyme disease), and many others.

HOSE END SPRAYER: Easy to use. For application to lawns, outdoor ornamentals, outside surfaces of buildings, and other outdoor residential areas.

32 ounces treat up to 5,300 square feet. Snap off tab on top of sprayer before first use.
1. Make sure knob Control lever is in the OFF position. Shake well and attach to hose.
2. Turn water on at faucet, aim nozzle toward lawn and turn knob Control lever to ON to begin spraying.
3. When finished, turn Control lever to OFF position. Turn faucet to OFF position. Discharge residual water pressure by turning ON and OFF again. Store out of reach of children. Do not spray animals. People and pets should not be allowed in treated areas until spray has dried.

### TREATMENT AREAS | PESTS | REMARKS
--- | --- | ---
Other Outdoor areas (Continued) | Tent caterpillars | Application should be made when caterpillars are young and tents are first noticed. For best results, apply in the late afternoon or evening, when caterpillars have returned to their tents. Wet tents with spray on all sides. A few caterpillars may be seen escaping from the tent, however, they should die within several hours.

### TREATMENT AREAS | PESTS | REMARKS
--- | --- | ---
Best, Bermuda, Illigrass, Dichtandra, Fescue, Irish moss, Mertensia, St. Augustine | Armyworms, Brown dog ticks, Dibema, Chinch bugs, Chortematia, Analis, Japanese beetle grubs, Mosquitoes, Soil nematodes, Ticks, including Deer tick (which carry Lyme disease), Ants (including foraging Fire ants), Crickets, Grasshoppers | Thoroughly wet down grass a few hours before applying. Lawn should be no taller than 3 inches at time of application. Slightly more water may be used as long as the amount of product per area is as listed. For heavy infestations, repeat application after 2 weeks.

---

### TREES & SHRUBS

| TREATMENT AREAS | PESTS | REMARKS |
--- | --- | ---
Arizona cypress,acre, Bower, Cherry,Non-bearing citrus, Cotoneaster, Elm, English ivy, Euonymus, Weeping fig, Ficus, Honeysuckle, Lilac, Mock-orange, Oak, Palm, Podocarpus, Pine, Poinsettia, Tulip Poplar, Rhododendron, Taxus | Aphids, Bagworms, Cicadas, Exposed thrips, Fall cankerworms, Inchworms, Leafminers, Leafrollers, Mealybugs, Spider mites, Whitelies | Apply as a thorough spray, wetting leaves and branches to the dripping point. Try to penetrate dense foliage. Spray in the late afternoon or evening, when the temperature ranges from 50°F to 75°F and when there is little or no wind. Spray at the first sign of insects. Repeat as necessary; use intervals of 4-8 days. Application can be made up to the day of collection. |

| PESTS | REMARKS |
--- | ---
Cherry, Honeysuckle | Fall webworms |
Comifers | Budworms |
Elm | Elm leaf beetles, Elm spanworms, Fall webworms |
Douglas & Grand fir | Tussock moth |
Non-bearing citrus | Citrus black flies |
Oak | Oakworms |
Pine | Pine beetles, Pine moths, Pine needleminers, Needle scales |

---

### ROSES & FLOWERS

| TREATMENT AREAS | PESTS | REMARKS |
--- | --- | ---
Ageratum, Aster, Bees, Begonia, Coleus, Common ivy, blackberry, Exacum, Gladiolus, Goldfish, Hypoestes, Ivy, Lilac, Marigold, Mock-orange, Nannyberry, Orchid, Parrot, Pea shrub, Pekonia, Poinsettia, Rhododendron, Rose, Snapdragon, Zinnia | Aphids, Bagworms, Cicadas, Exposed thrips, Fall cankerworms, Fall webworms, Inchworms, Leafminers, Leaf rollers, Mealybugs, Spider mites, Whitelies | Apply as a thorough spray, wetting the plants to the dripping point. Try to hit underside of leaves and penetrate dense foliage. Sprays in the later afternoon or evening, when the temperature ranges from 50°F to 75°F and when there is little or no wind. Spray at the first sign of insects. Repeat as necessary; use intervals of 4-8 days. Application can be made up to the day of collection. |
STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in a cool, dry area away from heat or open flame. PESTICIDE DISPOSAL: If partly filled – Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. CONTAINER DISPOSAL: If empty – Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.
