**KIXYT™**

**High Surfactant Oil Concentrate**

**PRINCIPAL FUNCTIONING AGENTS**
Methylated vegetable oil, polyoxyethylene sorbitan fatty acid esters, alcohol ethoxylate .......................... 98.5%
Constituents Ineffective as Spray Adjuvant ....................... 1.5%
TOTAL ................................. 100.0%

All ingredients are approved for use under 40 CFR 180.
Surfactant content: 38.5%
Oil content: 60%

Net Contents: 2 x 2.5 & 250 gL IBC

**KEEP OUT OF REACH OF CHILDREN**

**PRECAUTIONARY STATEMENTS**
Before using this product, read the entire label, including the conditions of sale.

**CAUTION**

If swallowed, immediately take steps to get medical help. Call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or other adjuvants (COC, HSOC, MSO, NIS).

10. Finish filling to desired spray volume level and continue agitation.

**STORAGE AND DISPOSAL**
Protect product from freezing. If product freezes, warm to room temperature and agitate before use. Keep containers sealed when not in use. Store in original container only. Do not reuse empty container. CONTAINER DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

**CONDITIONS OF SALE**
Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. If the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the purchase price paid by the user or buyer for the quantity of product involved.

**MIXING**
In the absence of specific mixing instructions found on the pesticide label, fill the spray tank with at least 50% of the desired finished carrier volume. When premixing in a mixing vessel or inductor, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:

1. Compatibility agent and/or anti-foam, if needed.
2. AMS, dry formulations (WP, DF, WDG, SP), and dry drift retardants.
3. Dry soluble and suspension fertilizers / micronutrients.
4. Liquid drift retardants and flowable formulations (F & FL).
5. Liquid concentrates, suspension and microencapsulated (LC, SC, ME).
6. Emulsifiable concentrates (E, EL or EC).
7. Solutions and soluble liquids (S or SL).
8. Liquid micronutrients and fertilizers.
9. Water conditioners and other adjuvants (COC, HSOC, MSO, NIS).
10. Finish filling to desired spray volume level and continue agitation.

**GENERAL INFORMATION**
KIXYT is a low-use-rate methylated seed oil concentrate that enhances pesticide performance when compared to ordinary methylated seed oils or crop oil concentrates. KIXYT combines the cuticle penetration properties of a premium quality methylated seed oil with a proprietary surfactant system to deliver higher levels of biological performance at lower use rates than traditional oil-based adjuvants.

**DIRECTIONS FOR USE**
The addition of adjuvants to some pesticides and/or fertilizers and their tank mixes may cause phytotoxicity to the foliage and/or fruit of desirable crops. The applicator or crops advisor must have experience with the pesticide combination, including KIXYT, or must have conducted a phytotoxicity test prior to use.

**SHAKE WELL BEFORE USING**

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND, RIGHTS-OF-WAY AND OTHER APPROPRIATE USES. NOT FOR AQUATIC USE.

**USE RATES**
Kixyt may be used at 50–75% (2–3 quarts per 100 hundred gal. of spray solution) the recommended use rate of conventionally formulated methylated seed oils. Kixyt should be applied at no less than 10–16 ounces per acre.
