Keep out of reach of children.

WARNING

Follow directions carefully. See back panel for precautionary statements.

FOR INTERIOR USE

1 GALLON (3.78L)
**JOMAX® Virus and Mold Killer Interior Concentrate** is a disinfectant, fungicide, virucide, bactericide, mildewcide and mildewstat. It also provides exceptional cleaning and deodorizing. JOMAX provides broad-spectrum efficiency and economy for commercial, institutional and industrial disinfection. JOMAX Virus and Mold Killer Interior Concentrate's ability to **OXIDIZE MALODORS** offers a definite plus to its disinfecting activity. JOMAX Virus and Mold Killer Interior Concentrate has been designed for use in hospitals, medical and dental offices, nursing homes, industrial and institutional facilities. JOMAX Virus and Mold Killer Interior Concentrate is for use on hard, non-porous surfaces such as appliances, basins, bathroom fixtures, bathtubs, cabinets, chairs, countertops, examining tables, floors, sinks, tables, toilets, utensils and walls and other hard, non-porous surfaces made of fiberglass, Formica, glass, ceramic, metal, plastic and steel.

**MOLD AND MILDEW CONTROL, (For Hospitals, Institutions, and Homes)**

**DIRECTIONS FOR USE**

1. **For sprayer applications, use a coarse spray device.**
2. **Mix 1 part of the concentrate JOMAX with 3 parts water.**
3. **Apply the product onto the surface with a commercial low-pressure sprayer 6 to 8 inches from the surface or utilizing a wet mop, sponge, wire or other suitable applicating device.**

**Note:** Where mist or vapors may be generated, proper ventilation must be provided in accordance with good ventilation practices. In the absence of proper environmental controls, a NIOSH/NIOSH jointly approved respirator is advised.

4. **Make sure the treated area is thoroughly wet for at least 10 minutes and allow to air dry.**
5. **Repeat every 7 days or more frequently if growth reoccurs.**

**SEE INSIDE FLAP FOR CONTAINED DIRECTIONS AND PRECAUTIONARY STATEMENTS**

**Hospitals, Medical Dental Offices, Nursing Homes**

**Disinfection & Virucidal (against HIV-1, Herpes Simplex and Influenza):** Use undiluted ( neat). Apply undiluted JOMAX Virus and Mold Killer Interior Concentrate to hard, non-porous surfaces, thoroughly wetting surfaces with a cloth, mop, sponge or sprayer, or by immersion. Treated surfaces must remain wet for 10 minutes. Wipe dry with a cloth, sponge or mop or allow to air dry. For heavily soiled surfaces, a pre-cleaning is recommended.

**Rinse all surfaces that come in contact with foods such as countertops, appliances, tables and countertops with potable water before reuse.** Do not use on an insensitive, glassware and dishes.

**For sprayer applications, use a coarse spray device.** Spray 6 to 8 inches from the surface rub with a brush, sponge or cloth. Do not breathe spray. This product is not to be used as a terminal sterilant/high-level disinfec tant on any surface or instrument that (1) is introduced directly into the sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi critical medical devices prior to sterilization or high-level disinfection.

**Special Instructions for Cleaning Carpet Odor:** This product may be used in industrial and institutional areas such as homes, motels, hotel chains, nursing homes, schools and hospitals. For use on wet cleanable synthetic fibers. Do not use on wool. Vacuum carpet thoroughly prior to cleaning. Test fabric for color fastness.

**Carpet Deodorizer:** For home, institutional, industrial and hospital use. This product cleans and deodorizes the carpet. It can be used in industrial and institutional areas such as homes, motels, hotel chains, nursing homes and hospitals. Vacuum carpet thoroughly before application. Follow the injection and/or extraction procedures as specified for any conventional steam cleaning equipment you are using. For rotary floor machines, spray on carpet at a rate of 300-500 sq ft per gallon. After using the product, set carpet pile in one direction with a stiff brush. Place aluminum foil under the legs of furniture while carpet is drying. Over wetting can cause carpet to shrink. Manufacturer assumes no responsibility for over-wetting misuse.

**Water/Smoke Damage Restoration (Cleaning and De-odorizing Only):** Effective against odor for home, institutional, industrial and hospital use. This product is particularly suitable for use in water damage restoration situations involving odor on the following porous and semi-porous materials: carpets, carpet cushion, sub-floors, dry-wall, trim frame lumber, tackless strip and paneling. Saturate affected materials with enough product to remain wet for at least 10 minutes. Use proper ventilation.

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATING AGAINST HIV OR SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS that involve healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects soiled with blood or body fluids can be associated with the transmission of HIV-1. JOMAX Virus and Mold Killer Interior Concentrate destroys HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood or other body fluids in 30 seconds contact.**
ENVIRONMENTAL HAZARDS: Do not apply to sewer systems without previously notifying the permitting authority. For guidance contact your State Water Board or the permitting authority has been notified in writing with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other bodies of water unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other bodies of water unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.

PRECAUTIONARY STATEMENTS:

Hazard to Human & Domestic Animals

WARNING: Causes substantial, but temporary eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protective eyewear (goggles or face shield), long-sleeved shirt and long pants, socks and rubber footwear and rubber gloves. Wash thoroughly with soap and water after handling and before eating, smoking, chewing gum, or using tobacco.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

For 24 hour emergency information on this product, call the National Pesticides Information Center: 1-800-858-7378

(6:30 AM to 4:30 PM Pacific Time[PT]), seven days a week.

During other times call the Poison Control Center: 1-800-222-1222.

For transportation emergencies, call Chemtrac at 1-800-424-0300 (US, Canada, Puerto Rico, Virgin Islands) 1-703-527-3897 (All Other Areas).

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PESTICIDE STORAGE: Store in the original container in a dry, temperature controlled area. Do not store in a manner where cross-contamination with other pesticides, fertilizers, food or feed could occur. If spilled during storage or handling, container and spillage and dispose of in accordance with the Pesticide Disposal Instructions listed below.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

NON-REFILLABLE CONTAINER: Nonrefillable container. Do not reuse or refill this container.

CONTAINER DISPOSAL: Triple rinse (or equivalent) promptly after emptying, then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or incinerator or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

FIRST AID

In eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

HOLD: Call a poison control center or doctor for treatment advice.

If skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If ingested: Move person to fresh air. If person is not breathing, call 911 or other emergency service, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Eye wash: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

INSTRUCCIONES DE USO

Contrate con la etiqueta con los nombres federales sobre el uso de este producto de una manera diferente de la indicada en la etiqueta.

Para el control de moho y hongos: Deseche 1 parte de Concentrado de Interiores para el Exterminio de Moho y Virus JOMAX en una cubeta limpia y apague 3 partes de agua.

Para Superficies Contaminadas con Moho y Hongos

1. Retire la acumulación de moho y hongos, la suciedad y los desechos sueltos de las zonas en las que se aplicará el tratamiento.
2. Muela 1 parte del concentrado JOMAX con 3 partes de agua.
3. Aplique el producto en la superficie con un rociador comercial de baja presión a una distancia de 6 a 8 pulgadas de la superficie o utilice un trapedor mojado, esponja, trapo o otro elemento idóneo de aplicación.
4. Lave en las zonas en las que no se pueden producir espuma o vapor; déje lo por un tiempo (grietas, fisuras, grietas, etc.)
5. Reste el procedimiento cada 3 días o con mayor frecuencia si aparecen nuevas colonias de moho o hongos.
Hospital, consultorios médicos y odontológicos, hogares de ancianos, hospitales, hotel, establecimientos de alimentos, supermercados, instituciones educativas, casas, moteles, albergues, escuelas, hospitales, zonas industriales e institucionales tales como casas, moteles, cadenas de hoteles, hospitales,资产负债表

1. **Hidratación**: Utilice Fluidos Corporales Comunes de Vida Normal antes y después de la manipulación para mantener la hidratación.

2. **Alimentos**: Utilice alimentos comunes de manera normal.

3. **Equipo**: Utilice equipos de protección personal adecuados antes de la manipulación.

4. **Limpieza**: Limpie la superficie con agua y jabón o solución desinfectante.

5. **Desinfección**: Utilice un desinfectante adecuado para eliminar los virus y bacterias.

6. **Eliminación**: Elimine los residuos de acuerdo con las regulaciones locales.

**Advertencias**:

- **Peligros para Humanos y Animales Domésticos**
- **Advertencia**: Precaución para el uso de los desinfectantes en entornos domésticos.

**Peligros Ambientales**:

- **Agentes Peligrosos**: Peligrosos para el medio ambiente y la salud.
- **Eliminación de Residuos**: Elimine correctamente los residuos de acuerdo con las regulaciones locales.

**Control de la Distribución de Alimentos**:

- **Alimentos Febriles**: Evite el contacto con alimentos de origen animal durante la manipulación.

**Eliminación de Productos Infestados**:

- **Eliminación de Comida**: Elimine la comida y otros materiales infestados.

**Primeros Auxilios**:

- **Primeros Auxilios para Personas**: Utilice primeros auxilios adecuados.

**Eliminación de Material Infestado**:

- **Eliminación de Material Infestado**: Elimine el material infestado adecuadamente.

**Eliminación de los Contaminantes**:

- **Eliminación de Contaminantes**: Elimine los contaminantes adecuadamente.

**Eliminación de Suelos**:

- **Eliminación de Suelos**: Elimine los suelos adecuadamente.

**Eliminación de Muebles**:

- **Eliminación de Muebles**: Elimine los muebles adecuadamente.

**Eliminación de Muebles de Oficina**:

- **Eliminación de Muebles de Oficina**: Elimine los muebles de oficina adecuadamente.
