Tips for Lawn Care Success:

- **Feed regularly for your best lawn.** Regular feedings of Scotts® turf builder® will help build a strong, green lawn. Scotts Turf Builder® provides the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought, and family activity.
- **Mow your lawn high.** Mowing high allows the grass to develop a deep root system and helps your lawn use water more effectively.
- **Leave the grass clippings on your lawn.** This recycles the plant nutrients back into the soil.
- **Conservate water.** Your lawn will begin to wilt when water is needed. As much as possible, take advantage of nature's sprinkler and rely on the rain to water your lawn.

Plan your feeding schedule. Choose the right product for your lawn.

**To prevent crabgrass:**
- Scotts® Super Turf Builder<sup>®</sup> with HALT® Crabgrass Preventer

**To kill weeds:**
- Scotts® Super Turf Builder<sup>®</sup> with Weed and Feed

**To kill bugs:**
- Scotts® Super Turf Builder<sup>®</sup> with WinterGuard<sup>®</sup>

---

**Quick Greening and Extended Long Lasting Feeding**

More essential nutrients!

The special formula in Super Turf Builder<sup>®</sup> WinterGuard<sup>®</sup> Fall Weed and Feed gives your lawn more essential nutrients than Turf Builder<sup>®</sup> Fall Weed and Feed for your best lawn ever.

**Well-fed lawns are more efficient at using available water.**

Feeding with Scotts® helps grow a thick lawn with more roots to better absorb water and nutrients than un-fed lawns. This helps protect your lawn against heat, drought and other stresses.

---

**Application Directions for Use**

- As a solution of fertilizer to help the plant grow in a more consistent with its flowering.
- It is applied in 1 pound of 2-4-0 fertilizer per 1000 square feet of area.

**Use before application:**
- The maximum number of broadcast applications per treatment in one season.
- The general recommendation of 30 days between applications to be used.

**To prevent crabgrass:**
- Scotts® Super Turf Builder<sup>®</sup> WinterGuard<sup>®</sup> Fall Weed and Feed helps you get a thinner, startier lawn with increased root development. Apply it 3-4 weeks before the last mowing of the season to prevent crabgrass from developing. Scotts® Turf Builder<sup>®</sup> Weed and Feed is a fertilizer that helps to provide green grass this spring.
- Scotts® Turf Builder<sup>®</sup> WinterGuard<sup>®</sup> prevents the grass from developing seed heads and increases the yield of grass. The product is designed to help prevent crabgrass from developing. Scotts® Turf Builder<sup>®</sup> Weed and Feed is applied in the spring or fall to help prevent crabgrass from developing.

**To kill weeds:**
- Scotts® Super Turf Builder<sup>®</sup> with Weed and Feed provides a complete weed control program. It reduces the number of weeds in your lawn and keeps it looking green. This product is designed to help prevent crabgrass from developing. Scotts® Super Turf Builder<sup>®</sup> with Weed and Feed is applied in the spring or fall to help prevent crabgrass from developing.

**To kill bugs:**
- Scotts® Super Turf Builder<sup>®</sup> with WinterGuard<sup>®</sup> provides a complete insect control program. It reduces the number of insects in your lawn and keeps it looking green. This product is designed to help prevent crabgrass from developing. Scotts® Super Turf Builder<sup>®</sup> with WinterGuard<sup>®</sup> is applied in the spring or fall to help prevent crabgrass from developing.

---

**Important Watering Tips**

**Watering or Rain**

- Do not water your lawn for 24 hours after application. Water will wash the weed control off the weeds’ leaves and reduce the effectiveness of this product. This product should not be applied if it may be expected within the next 24 hours.

---

**Riego o lluvia**

- No riego o lluvia debe ser aplicado 24 horas después de la aplicación. El agua que cae durante el tiempo de la aplicación puede reducir la eficacia del producto. Se debe evitar el uso de este producto en condiciones lluviosas o de alto riesgo de lluvia.

---

**Important Irrigation Tips**

**Irrigación**

- **Quick soluble variants:**
  - The quick soluble variants are easy to apply and can be used in a variety of conditions. They are designed to provide quick results without the need for additional water.
  - Scotts® Turf Builder<sup>®</sup> WinterGuard<sup>®</sup> is a quick soluble variant that provides a complete weed control program. It reduces the number of weeds in your lawn and keeps it looking green. This product is designed to help prevent crabgrass from developing. Scotts® Super Turf Builder<sup>®</sup> with Weed and Feed is a fertilizer that helps to provide green grass this spring.

First Aid & Environmental Information

KEEP OUT OF REACH OF CHILDREN

Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear long-sleeved shirt, long pants, shoes, and socks. Wash hands and exposed skin with soap and water after handling. Prolonged or frequent repeated skin contact may cause allergic reactions in some individuals.

First Aid

If IN EYES: Hold open eye and rinse slowly and gently with water for 15-30 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth or mouth-to-nose, if possible.

Environment/Disposal

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Environmental Hazards: 2,4-D is toxic to fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present, or to intersecting areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Miconop-p may adversely affect target plants. Do not contaminate water when disposing of equipment washwater or waste. 2,4-D has properties and characteristics associated with chemicals affected in groundwater. The use of 2,4-D in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a citizen or well may result in contamination of drinking water or groundwater.

Storage and Disposal

Do not contaminate feed or foodstuffs.

Storage: Store in a cool, dry place. Reseal opened bag by folding top down and securing.

Disposal: CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. IF EMPTY: Place in trash or offer for recycling if available.

EPA Reg No. 538-283
