POOline Jumbo Tabs

ACTIVE INGREDIENT:
Tri-chloro-s-Triazinethione* 99.0%
INERT INGREDIENTS: 1.0%
TOTAL: 100.0%

*Provides 90% Available Chlorine

KEEP OUT OF REACH OF CHILDREN

DANGER

FLOATING CHLORINATOR: Load floating chlorinator with prescribed dosage as instructed on that chlorinator. Allow chlorinator to fill freely in pool. Increase chlorination for larger dosage or to securing chlorinator in an area of less application.

SKINNED METHOD: Empty the skimmer of all chemicals and/or debris. Please dispose of skimmer in sewer bay. Length of chlorination cycle will influence the rate at which the tablets disperse.

IN-LINE EROSION CHLORINATOR: Load prescribed dosage into chlorinator according to instructions supplied with the chlorinator. Adjust the chlorinator control valves to always maintain the desired chlorination residual.

Note: The fill rate of additional tablets is in the acid side and will tend to reduce the pH and alkalinity of pool water. Proper pH must be maintained at 7.2-7.6. Through periodic additions of sodium carbonate or sodium bicarbonate, tablets weights 2000 grams (7.0 ounces)
POOL GALLON CALIBRATOR
(all dimensions in feet)
Square Rectangle: Length x Width x Average Depth x 7.5= Gallons
Round or Oval:
Length x Width x Average Depth x 15= Gallons

STORAGE AND DISPOSAL:
Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Keep this product in a tightly closed container, when not in use. Store in a cool, well ventilated area away from heat or open flame. Place polyethylene liner under each container securely closed, tightly closed. In case of decomposition or spill isolate container in open area if possible and flush with large amounts of water to dissolve all material before discarding in regular trash.

For Household/Residential Products:
For rigid nonrefillable container 50 lbs or less.
CONTAINER HANDLING: Nonrefillable container.
Do not re-use or refill this container.

PECHE DISPOSAL:
Pesticide needles are extremely hazardous. Improper disposal of excess pesticides, spills, mixing, or storing is a violation of Federal law. If these waste disposal procedures are not adhered to, you are exposing yourself to danger.

DOE POLICY: Pesticide damage may contaminate the use of garbage disposers.

SEE PRECAUTIONS ON BACK PANEL BEFORE OPENING CONTAINER.

E.P.A. EST No. 89366-CHN-001

NET CONTENTS: 50 lbs (22.7 kg)

Batch Code/Lot No.

Drain for 10 seconds after the flow begins to slow. Repeat this procedure two more times. (For Commercial/Industrial/ Institutional Products)

CONTAINER HANDLING: Nonrefillable rigid container. Do not reuse or refill this container.
Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to slow. Fill the container 4/5 full with water and recap. Shake for 10 seconds. Pour into application equipment or a mix tank or store mixture for later use or disposal. Drain for 10 seconds after the flow begins to slow. Repeat this procedure two more times.

For Refillable Container:
CONTAINER HANDLING: Nonrefillable container. Refill this container with this product only. Do not re-use this container for any other purpose.

Drain the container before final disposal. The remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate rigorously or mix container with the pump for 2 minutes. Pour mixture into application equipment or rinse container. Before disposing of rinsing procedure two more times.
