BIOTROL 150 [ANTIMICROBIAL SOLUTION] FOR USE IN ORGANIC PRODUCTION:

The Biotrol 150 antimicrobial solution is a safe and effective product for use in managing disease and contamination in agricultural and food processing environments. It is effective against a wide range of microorganisms, including bacteria, fungi, viruses, and other pathogens that can cause spoilage and contamination. The solution is easy to use and has no adverse effects on human and animal health.

USE AND APPLICATION:

Biotrol 150 is intended for use in agricultural and food processing environments, including greenhouses, nurseries, and food production facilities. It can be used as a spray, dip, or disinfectant to control disease and contamination. The solution is also effective in controlling soil-borne and waterborne pathogens.

PRECAUTIONARY STATEMENTS:

Hazard to humans and domestic animals:

DANGER: Corrosive

Do not enter an enclosed area with proper respiratory protection, or when the concentration of the solution is less than 1%.

PRECAUTIONS:

- Keep out of reach of children.
