PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Harmful if swallowed, absorbed through the skin, or inhaled. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.

PHYSICAL AND CHEMICAL HAZARDS: Do not mix with any other chemicals. Do not use in pools where minerals present a problem.

STORAGE AND DISPOSAL:
Residential: Keep this product in original, tightly closed container in an area inaccessible to children and persons unfamiliar with its use. Nonrefillable container. Do not reuse or refill this container. If Empty: Offer for recycling or wrap securely in several layers of newspaper and discard in trash. If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Commercial: Do not contaminate food or feed by storage or disposal.

Pesticide Storage: Keep this product in original, tightly closed container in an area inaccessible to children and persons unfamiliar with its use.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste facility.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then, offer for recycling if available. If not, dispose of container in a sanitary landfill.

This product under field conditions has shown to be effective in controlling mustard and black algae. The triethanolamine complex used in this product prevents the precipitation of the copper with the carbonates or bicarbonates in water.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is made especially to control algae growth in all types of swimming pools. Its long-lasting action will control existing algae. Subsequent doses will control recontamination by algae. Treated water can be used immediately ...no waiting.

This product comes concentrated. Dilute with at least nine parts of water before applying. Pour the required amount of this product into plastic watering can, fill with water and sprinkle around edge of pool. Apply initial treatment to a freshly filled pool or at first visible signs of algae growth. This product is not compatible with non-chlorine pools/Baquacil pools.

DILUTION CHART FOR SWIMMING POOLS (WINTER MAINTENANCE)

<table>
<thead>
<tr>
<th>Pool Capacity</th>
<th>Initial Treatment</th>
<th>Dose</th>
</tr>
</thead>
<tbody>
<tr>
<td>5,000 gal.</td>
<td>2 fl. oz.</td>
<td>1 fl. oz.</td>
</tr>
<tr>
<td>10,000 gal.</td>
<td>4 fl. oz.</td>
<td>2 fl. oz.</td>
</tr>
<tr>
<td>20,000 gal.</td>
<td>8 fl. oz.</td>
<td>4 fl. oz.</td>
</tr>
<tr>
<td>40,000 gal.</td>
<td>16 fl. oz.</td>
<td>8 fl. oz.</td>
</tr>
</tbody>
</table>

WINTER DIRECTIONS: Use 4 fl. oz. for 10,000 (8 fl. oz. for 20,000 gallons; 16 fl. oz. for 40,000 gallons) of pool water. Pour the required amount into a plastic watering can, fill with water, and sprinkle the diluted product around the edge of the pool. For best results, the mixture should be distributed equally around the edge of the pool.

Add this product to your pool prior to closing. During the winter season check pool periodically for visible signs of algae and reapply this product if necessary.
