FOR DOGS

FRONTLINE TRITAK

When applied as directed, FRONTLINE TRITAK penetrates deep into the haircoat to eliminate adult and developing fleas, ticks, and lice. It offers broad-spectrum, rapid action against adult and developing fleas, ticks, and lice.

HOW TO USE

1. Apply the product directly on the skin of the dog, avoiding the hair on the skin.
2. Use the applicator to apply the solution to the skin of the dog.
3. Allow the solution to dry on the skin.

STORAGE AND DISPOSAL

STORE OUT OF REACH OF CHILDREN. Store in a cool, dry place. Dispose of the product in a safe manner to prevent harm to the environment.

PERFORMANCE

The product's performance may vary depending on factors such as the dog's age, health, and environment. Always consult the product label for specific instructions.

PRECAUTIONARY STATEMENTS

WASHING PAPERS: Wash the dog's bedding to prevent reinfestation. Pregnant or nursing dogs may experience temporary skin irritation. Remove the dog from the treated area for a few days to allow the skin to return to normal.

READ THE LABEL: Before using, read the label carefully to ensure proper use.

FEDERAL LAW PROHIBITS DISPOSAL IN WASTEWATER. Do not contaminate water sources with the product or its packaging.

SAFETY Precaution: Wash your hands after handling the product.

EMERGENCY OVERDOSE: If swallowed, do not induce vomiting. Seek medical attention immediately.

NOTES: This product is not effective against ticks that are not attached to the dog's skin.

IMPORTANT: This product is not intended for use on cats or other animals. Do not use on kittens or puppies younger than 9 weeks of age.

DIRECTIONS FOR USE

A. Application of the product is recommended at the following intervals: DO NOT ALTER THE INSTRUCTION FOR ANY REASON, OR USE IN ANY OTHER ANIMALS.

1. Apply the product directly on the skin of the dog, avoiding the hair on the skin.
2. Use the applicator to apply the solution to the skin of the dog.
3. Allow the solution to dry on the skin.
