**POOLIFE™ EXCLUSIVE POOL CARE COLLECTION**

**ACTIVE INGREDIENTS**
- Trichloro-s-Triazinetrione ............. 93.5%
- Copper sulfate pentahydrate .......... 1.5%
- OTHER INGREDIENTS ................. 5.0%
- TOTAL .................................. 100.0%

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. Do not remove floater or other dispensing device from water for an extended period of time if it contains a tablet or tablet residue. Do not mix this product with a small amount of water. Only add directly to your pool. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled, or absorbed through the skin. Read all Precautionary Statements and First Aid statements before use. See back panel for Precautionary and First Aid statements.

**STABILIZED CHLORINATOR**
DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

METHOD OF APPLICATION: Use in a floating dispenser, automatic chlorinator, or feeder designed for this product, or place in skimmer. Use in a new chlorinating device or any device which has previously contained only this product or trichloro-s-triazinetrione. If placed in the skimmer, run the pump a minimum of eight hours daily. DO NOT use in floaters or feeders that have been used with other water treatment products. DO NOT throw tablets directly into pool. DO NOT permit tablets to contact plastic pool linings or metal objects. DO NOT use in any chlorinating device which has been used with other chlorinating compounds.

WATER BALANCE: Adjust and maintain pool water pH from 7.2 to 7.6, total alkalinity from 80 to 120 parts per million (ppm) and calcium hardness above 200 ppm. Test frequently using a poolife® test kit or test strips that measures all of the above ranges. Bring a pool water sample to your poolife® dealer frequently to test for water balance. Maintain free available chlorine between 1 - 4 ppm using a stabilized chlorine product.

OPENING YOUR POOL: Balance pool water, shock treat, and stabilize your pool using poolife® Exclusive Pool Care Collection Stabilizer & Conditioner Balancer and by following directions on that label. Then follow “ROUTINE CHLORINATION” directions.

ROUTINE CHLORINATION: Ensure that the skimmer basket or floater is free of any other chemicals, tablets, or residue. Place this product in the skimmer basket or floater. Use one tablet per 10,000 gallons of water. Do not add other chemicals to the skimmer or floater while this product is present. Run filter pump a minimum of 8 hours per day, otherwise vinyl liner damage may occur. If free available chlorine goes above 4 ppm, reduce skimmer flow rate or daily pump operation time. Reentry into treated swimming pool is prohibited above levels of 4 ppm free available chlorine due to risk of bodily injury. If chlorine residual goes below 1 ppm, add enough poolife® granular shock to maintain 1-4 ppm of chlorine, and increase skimmer flow rate or daily pump operation time. The number of tablets and frequency of use will vary with bather load, water temperature, rain, and pump operating time.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER:
Corrosive. Causes irreversible eye damage. Causes eye and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and throat. • Open in a well-ventilated area. Avoid breathing dust and fumes. • Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants. • Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. • Remove contaminated clothing and wash clothing before reuse.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to so by a poison control center or doctor. Do not give anything by mouth to an
unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

**PHYSICAL AND CHEMICAL HAZARDS:**
DANGER. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter.
Do not add water to this product. Add only into water.
- Do not mix this product with a small amount of water. Only add this product directly to your pool.
- Do not allow to become wet or damp before use.
Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.
- Keep all foreign matter, including other water treatment products, away from this product.
- Use only clean and dry utensils to dispense this product. Do not allow this product to contact other water treatment products. If used in a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer. Avoid spilling this product.
Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.
- Store in a cool, dry, well-ventilated area away from heat or open flame.
**Strong oxidizing agent. This product can increase fire intensity.**
- Keep away from heat and from flame and burning material (like a lighted cigarette).

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

---

**STORAGE AND DISPOSAL:**

**Pesticide Storage:** Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container.

**Pesticide Disposal:** Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. If not, discard in trash. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.

**EMERGENCY HANDLING:** In case of contamination or decomposition – Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

**EPA REG. NO. 1258-1342**
