PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wear protective clothing, eyewear (goggles, face shield or safety glasses) and protective gloves (rubber, chemical resistant). Harmful if swallowed. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID
IF IN EYES: Hold open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
NOTE TO PHYSICIAN: Probable mucosal damage may occur from the use of gastric lavage. Measures against aspiration include respiratory depression and cardiorespiratory depression may be needed.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or other waters unless in compliance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit. Permit the permitting authority has been notified. Do not discharge effluent containing this product to sewers systems without properly notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Open dumping is prohibited. Store in original container in areas inaccessible to children and pets.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides, spray mixture or residues is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Container clean promptly after emptying.

(Plastic and Metal Containers:} Triple rinse as follows: Fill container 1/4 full with water and reclose the container. Agitate vigorously, and dispose of rinsate consistent with pesticide disposal instructions. Repeat two more times. Then offer for recycling if available or puncture and dispose in sanitary landfill or by other procedures approved by state and local authorities. Follow pesticide disposal instructions for rinse. If not triple rinsed, these containers are acutely hazardous wastes and must be disposed in accordance with local, state, and federal regulations.

FOR INSTITUTIONAL AND INDUSTRIAL USE
9035 is a multi-purpose no-rinse acid cleaner and food contact surface sanitizer for dairy, dairy barns, cheese factories, breweries, food, meat, poultry, egg, and seafood processing. The container, food, water beverages, food handling and process areas, restaurants, bars or institutional kitchen use. Mix 1 cup and seal to complete. Use this product only indoors. Air sterilization is not available. Do not use this product on water. Sanitize equipment and surfaces with a compatible detergent and rinse with potable water prior to sanitizing. Prepare a cleaning solution of 1:20 oz. of 9035 per 4 gallons of water (150-400 ppm quat). Thoroughly wash equipment and utensils in hot detergent solution. Rinse utensils and equipment thoroughly with clean potable water prior to immersion in a solution of 1:20 oz. of 9035 per 4 gallons of water (150-400 ppm quat) for at least 60 seconds at a temperature of 77°F. For equipment and utensils too large to sanitize by immersion, apply a solution of 1:20 oz. of 9035 per 4 gallons of water (150-400 ppm quat) by spraying, spraying or swabbing until thoroughly wet. Allow sanitized surfaces to drain and air dry. Do not rinse.

KEEP OUT OF REACH OF CHILDREN
DANGER - PELIGRO

See side panel for precautionary statements and first aid.

To Sanitize Dairy Product Dispensing Equipment and Beverage Dispensing Equipment:
Remove gross fill and soil by preflush or pre-clean. Wash equipment with a compatible detergent and rinse with potable water prior to sanitizing. Fill equipment with a solution of 1:20 oz. of 9035 per 4 gallons of water (150-400 ppm quat). Allow solution to remain in equipment for at least 60 seconds. Drain thoroughly before reuse and allow to air dry. Do not rinse. For removable parts, immerse in use solution for at least 60 seconds. Allow to air dry. Do not rinse. For items too large to sanitize by immersion or to use application by rinse quat, apply solution by rinse quat, spraying, spraying or swabbing until thoroughly wet for at least 60 seconds. Drain thoroughly before reuse. Allow to air dry. Do not rinse.
