CHEMICAL TREATMENT CL-206

CAUTION: Use with caution. Read the entire label and all precautionary statements on the product before use. Use and use only as directed.

GENERAL INFORMATION:
This product is a water treatment system designed to eliminate or control a variety of waterborne pathogens, including viruses, bacteria, and protozoa. It is intended for use in residential, commercial, and industrial applications to ensure safe and healthy water.

INDUSTRIAL USE:
The product is suitable for use in industrial applications, such as food processing, pharmaceutical manufacturing, and pulp and paper industries. It is also effective in controlling Legionella, which can be a significant issue in cooling towers and similar installations.

DOMESTIC USE:
The product can be used in domestic applications, such as in households, small communities, and emergency situations. It is effective in controlling pathogens and ensuring safe water for drinking and other purposes.

SAFE HANDLING:
When handling the product, follow all the precautions and safety instructions provided on the label. Wear appropriate personal protective equipment, and ensure proper ventilation.

SAFETY AND DISPOSAL:
Do not use the waste material for any purpose other than the disposal methods indicated. Follow all local regulations and guidelines for the disposal of waste materials.

ACCOUNTABILITY:
Ensure that all users are trained and qualified to operate the system. Keep records of all operations and maintenance.

If you have any questions or concerns, contact the manufacturer or a qualified water treatment professional.

DIRECTIONS FOR USE:
Follow the instructions provided on the label and any additional guidelines provided by the manufacturer. Ensure that the system is properly installed and maintained.

REPLACEMENT:
Replace the filter or cartridge according to the manufacturer's recommendations to ensure optimal performance.

WARRANTY:
The product is covered by a warranty that covers defects in materials and workmanship. Please refer to the manufacturer's warranty statement for details.

SERVICE:
Contact the manufacturer or an authorized service provider for repairs or technical support.

Keep this manual readily available for future reference. The manufacturer reserves the right to change the product design or specifications at any time without notice.
