Precautionary Statements

Hazards to Humans and Domestic Animals

Hazards to humans

Harmful if swallowed or inhaled through the skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, or using the toilet.

Hazards to Domestic Animals

For external use on dogs only.

Do not use on puppies under 8 weeks of age. Individual susceptibilities, while rare, may occur after using any topical product. Dogs may experience some temporary irritation at the site of product application. If signs of sensitivity occur, bathe your pet with mild soap or shampoo and rinse with large amounts of water. If signs of sensitivity occur and persists, contact a veterinarian immediately. If your dog has an unusual reaction to the initial application, consult a veterinarian before replying application. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated, debilitated, aged, pregnant or nursing dogs, or animals known to be sensitive to pesticide products.
