FURSOL ONLY ON DOGS AND Puppies

Do not use on dogs weighing less than 5 lbs.

This product is for external use only. Avoid contact with eyes, nose, and mouth. Wash hands after handling. Shampoo dogs immediately after treatment.

**CAUTION**

**KEEP OUT OF REACH OF CHILDREN**

**NOT FOR HUMAN USE**

**FURSOL**

FURSOL is a broad-spectrum insecticide and acaricide for the control of flea, tick, and louse populations on dogs. It is effective against ticks and biting lice and is approved for use on dogs and puppies.

**INDICATIONS**

FURSOL is indicated for the control of flea, tick, and louse populations on dogs. It is effective against ticks and biting lice and is approved for use on dogs and puppies.

**CONTRAINDICATIONS**

FURSOL is contraindicated for use on kittens or puppies less than 5 lbs.

**USAGE**

Apply FURSOL directly to the top of the dog's head, back, and tail. Avoid contact with eyes, nose, and mouth. Wash hands after handling. Shampoo dogs immediately after treatment.

**PRECAUTIONS**

Do not use on cats or other animals. Avoid contact with eyes, nose, and mouth. Wash hands after handling. Shampoo dogs immediately after treatment.

**ADVERSE REACTIONS**

Adverse reactions are rare. If adverse reactions occur, discontinue use and consult your veterinarian.

**STORAGE AND DISPOSAL**

Store in a cool, dry place. Do not use after the expiration date. Do not contaminate water sources and do not dispose of empty containers into the environment.

**FIRST AID**

If swallowed: Call a poison control center or doctor immediately for treatment advice.

If in eyes: Wash out eyes with large amounts of water for 15-20 minutes. If contact persists, consult a veterinarian.

In case of contact with skin or clothing, wash with soap and water for 15-20 minutes. If no soap or water is available, use a moist cloth to rinse off the product.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in any manner inconsistent with its labeling. Do not allow children to handle product. To PREVENT HARM TO YOU AND YOUR DOG, READ ENTIRE LABEL AND DIRECTIONS BEFORE EACH USE. FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS CAREFULLY. FOR EXTERNAL USE ON DOGS ONLY. DO NOT USE ON CATS OR OTHER ANIMALS.

DO NOT USE ON CATS.

FOR EXTERNAL USE ON DOGS AND PUPS ONLY. Do not use on dogs and puppies under 8 weeks of age. Do not apply between dogs. Do not use multiple tubes on one dog. Vigil your dog for at least 24 hours after the product has been applied. If your dog shows signs of irritability or has been treated for skin problems, talk to your veterinarian before applying any topical flea and tick control product. Do not use more than once a week (every 7 days).

In case of DOGS AND PUPS: If redness or irritation develops on the skin and/or in the ears or on the muzzle, stop application immediately and consult your veterinarian.

APPLICATION DIRECTIONS

1. Remove one applicator’s package and hold applicator upright and remove cap.
2. Insert cap and place over and back on applicator tip. Push way down to break seal.
3. Pit dog’s hair until skin visible. Place applicator tip directly against exposed skin.
4. For small dogs, apply on neck and back at least 2 inches behind the ear and 1 inch from the base of the ears, on the shoulders, on the rump, on the neck and on the head. Use a septic spotter with the applicator to help locate this area.
5. For medium dogs, apply on neck and back at least 2 inches behind the ear and 1 inch from the base of the ears, on the shoulders, on the rump, on the neck and on the head. Use a septic spotter with the applicator to help locate this area.
6. For extra large dogs, apply on neck and back at least 2 inches behind the ear and 1 inch from the base of the ears, on the shoulders, on the rump, on the neck and on the head. Use a septic spotter with the applicator to help locate this area.

FREQUENCY OF APPLICATION

For small and medium dogs, apply at least once a month or every 2 weeks. For extra large dogs, apply at least once a month or every 2 weeks, beginning at least 2 weeks before the start of the season for a period of 12 weeks.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PACKAGING/CONTAINER DISPOSAL: Handwash/Acceptable. Do not reuse or refill this container. Other for recycling, if available. If partially filled, cut the bottle and place in a trash receptacle. Never leave unused product in any indoor or outdoor area.

LIMITED WARRANTY AND DISCLAIMER

FidoPharm warrants this product only if it is used, stored, and handled in accordance with the label instructions. The buyer and owner is solely responsible for all claims or causes of action related to this product. To the extent permitted by applicable law, any damages arising from breach of this warranty shall be limited to direct damages only and shall not include any type of consequential damages.

Topical Solution for Dogs

FOR USE ONLY ON DOGS AND PUPPIES 8 WEEKS OLD OR OLDER

For convenient, quick-acting, long-lasting, effective control of fleas, ticks, mosquitoes, and lice.

- Easy and convenient application
- Stops existing infestations and prevents establishment of new infestations from fleas and ticks
- Prevents re-infestation for one month
- Remains effective even after bathing, sun exposure, or exposure to rain or sunlight
- Kills newly emerged adult fleas prior to laying eggs
- Kills ticks that may transmit: bartonellosis, anaplasmosis, and theileriosis (liver diseases)
- Kills fleas that may cause flea allergy dermatitis (FAD) or flea-bite hypersensitivity
- Kills and repels all stages of Brown dog ticks, American dog ticks, Lone Star ticks, and Deer ticks (ticks that may transmit Lyme disease, Rocky Mountain Spotted Fever, babesiosis, shiliekaiosis, and anaplasmosis)
- Kills and repels mosquitoes
- Repels and prevents blood-feeding by biting lice
- Kills lice and nits in the woolly or cystic mites
- Prevents and controls lice infestations

PetArmor® Pro Advanced Topical Solution for Dogs contains the active ingredients fipronil and permethrin, which control infestations caused by fleas, ticks, and lice; repel against biting lice, and repel and kill mosquitoes.

READ ENTIRE LABEL BEFORE EACH USE

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

Harmful if swallowed or absorbed through the skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

HARMFUL TO DOMESTIC ANIMALS

FOR EXTERNAL USE ONLY ON DOGS ONLY.

Do not use on puppies under 8 weeks of age. Individual sensitivities, while rare, may occur after using.

Always read and follow all directions and precautions on the label and product packaging. Symptoms of allergic reaction to the product may include: swelling of the face, difficulty breathing, rapid breathing, or loss of consciousness. If you suspect an allergic reaction, discontinue use and contact your veterinarian.

FIRST AID

IF SWALLOWED:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything to an unconscious person.

IF IN EYES:
- Hold eyes open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes. Keep rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing.
- Wash skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

Have product container or label with you when calling a poison control center or doctor, or going for treatment.

You may also contact the hotline number 1-866-800-TECK for human or veterinarian health services, emergency medical treatment information or pesticide incidents.
