FUNGITROL® 940CR FUNGICIDE
FOR INDUSTRIAL USE ONLY

ACTIVE INGREDIENT:
3-hydroxy-2-propynyl butyl carbamate...........40.00%
OTHER INGREDIENTS:........................................60.00%
TOTAL ..................................................100.00%

KEEP OUT OF REACH OF CHILDREN

WARNING

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
WARNING

Causés substantial but temporary eye injury. Harmful if inhaled or swallowed.
Do not get in eyes or on clothing. Prolonged or frequently repeated skin
contact may cause allergic reactions in some individuals. Avoid breathing
spray mist.

Personal Protective Equipment (PPE)
- Applicators and other handlers must wear:
  - long-sleeve shirt and long pants;
  - goggles, face-shield or safety glasses;
  - chemical resistant gloves (such as Butyl, Neoprene Rubber or Nitrile Rubber);
  - Closed-toe shoes.

User Safety Requirements
- Users must wash hands before eating, drinking, chewing gum, using tobacco
  or using the toilet.
- Users must remove clothing immediately if pesticide gets inside. Then wash
  thoroughly and put on clean clothing.
- Users must remove personal protection equipment immediately after handling
  this product. Wash the outside of gloves before removing. As soon as possible,
  wash thoroughly.
- Follow manufacturer's instructions for cleaning/maintaining PPE. If no such
  instructions exist for washables, use detergent and hot water. Keep and wash
  PPE separately from other laundry.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
The following are suggested use options for Fungitrol® 940CR Fungicide. The suggested use levels are for.
Fungitrol® 940CR Fungicide are given in percentage
by weight.
For use as a preservative in manufacturing dry film paints, stains and
laminations: Add the product at the end of the manufacturing process
and allow to mix thoroughly to be adequately dispersed in the paint. Use levels
for protection on wood surfaces is 0.1-0.2% in wet paint.
For use in aqueous metal working, coating, cooling and lubricating fluids
and concentrates: Add the product directly to the fluid or to the
container from which it is to be used. Cool the fluid to 30°F below the boiling point.
Under these conditions, 0.01-0.05% may be added to the end of the
product cycle with good agitation to insure uniform distribution.

Add the product at the end of the production cycle with good agitation to
ensure uniform distribution.

For household, consumer, industrial, institutional, and janitorial products
(such as liquid and solid air fresheners, dish detergents, laundry
products, cleansers, washing powders, shampoos and medicinals, non-food contact surface cleaners, fabric
care products, bathroom cleaners, window cleaners, fabric care
products, automotive care products, and furniture care products). Add the product at the end of the
product cycle with good agitation to insure uniform distribution.

For wood preservation: This product is to be used in above-ground applications only. Typical use levels range from 0.5-3.0L. Dilute the product in an
appropriate solvent to make a good dispersion and then apply to new
lumber, particle board, millwork, etc. The amount of product use will depend on
the severity of the conditions for use and the extent of time that protection
is required.

Excel levels of use must be determined by field trials because of great
variation in susceptibility of fresh sawn lumber relating to the type of wood,
and storage techniques, conditions of humidity, method of treatment,
etc.

For best results treat lumber within twenty-four hours after it is sawn. Apply to.
wood by spraying, brushing, spaying or pressure treatment. After treatment,
lumber must be stacked in a properly maintained seasoning yard with good
ventilation such that no water will accumulate in any area. Stain alleys of the
yard must be at least 18” wide, and stack foundations must be sufficiently
levelled to permit ready access of air to the pile and allow water to drain off.

Fungitrol® 940CR Fungicide can be used as a fungicide in non-medical,
non-food contact aqueous, solvent and non solvent-based systems such as
natural and synthetic adhesives, coatings, adhesives, coatings,
sealants, grouts, latexes such as starches used in the manufacture of
foaming adhesives or carpet backings and for use in cement-based
products. Add the product in the ranges of 0.5-0.6L. Add at the end of the
product cycle with good agitation to insure uniform distribution.

For specific recommendations on specific amounts of product to use please consult ISP.

Do not apply this product in a way that will contact workers or others persons.

ENVIRONMENTAL HAZARDS
This product is toxic to fish and aquatic organisms. Do not discharge
containing this product into lakes, streams, ponds, estuaries, oceans or other
waters in accordance with the requirements of the Federal Prevention
Discharge Elimination System (NPDES) permit and the permitting
agency has been notified in writing prior to discharge. Do not discharge
contaminated with this product in sewers or storm drains. Use the Federal
Sewage treatment plant authority. For guidance contact your State Water
Board or Regional Office of the EPA.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE
-Keeper container tightly closed when not in use. Do not
store with strong oxidizing agents or corrosive acids.

PESTICIDE DISPOSAL
- Pesticide wastes are acutely hazardous. Improper
disposal of excess pesticide, spray, or rinse is a violation of Federal
law. If these wastes cannot be disposed of by use according to label
instructions contact your local State Pesticide or Environmental Control
Agency, or your Hazardous Waste representative at the nearest EPA Regional
Office for guidance.

CONTAINER HANDLING
- Non-refillable container. Do not reuse or refill this container. Triple rinse (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and
drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Store for 10 minutes. Pour the rinse into application
equipment or a mix tank or for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer
for recycling or reconditioning, or punctuate and dispose of in a sanitary landfill,
or incineration or, if allowed by state and local authorities, by burning. It
burns out of existence.

NOTE: READ THE MATERIAL SAFETY DATA SHEET BEFORE USING THIS PRODUCT.

KEEP OUT OF REACH OF CHILDREN
WARNING

FIRST AID

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

IF SWALLOWED:
• Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED:
• Move person to fresh air. If person is not breathing, call 911 or other emergency number and do the following:
  • If person is not breathing, give artificial respiration, preferably mouth-to-mouth, if possible.
  • If person is breathing, give oxygen or call doctor for further treatment advice.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.
• Call a poison control center or doctor for further treatment advice.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

WARNING
Cayuse to moderate but temporary eye injury. Harmful if inhaled or swallowed. Do not get in eyes or on clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Avoid breathing toxic spray.

Personal Protective Equipment (PPE)
Applicators and other handlers must wear:
• long-sleeve shirt and long pants;
• splash proof raincoat or other protective clothing;
• chemical resistant gloves (such as Butyl rubber, Neoprene rubber or Nitile Rubber);
• eye protection.

User Safety Requirements
Users must wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

If user must remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions exist for washable, use detergent and hot water. Keep and wash PPE separately from other laundry.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

The suggested use levels for FUNGITROL 940CR are 0.05-0.06%.

Storage:
• Keep container tightly closed when not in use. Do not store with strong oxidizing agents or (concentrated) acids.

Disposal:
• Do not contaminate water, food, or feed by storage or disposal.
• PESTICIDE DISPOSAL - Pesticide containers are not hazardous. Improper disposal of excess pesticides, spray mixtures, or rinsates is a violation of Federal Law. If these wastes cannot be disposed of by usual means, contact your local State, District, or Environmental Protection Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING - Non-refillable container. Do not reuse or refill this container. Triple rinse (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten the container. Stand the container on its end and tip back and forth several times. Empty the rinsates into application equipment or a mix tank or store rinsates for later use or disposal. Repeat this procedure two more times. Then offer for recycling or conditioning, or purchase and dispose of in a sanitary landfill, or incinerator or, if allowed by state and local authorities, by burning. If burned, smoke out of smoke.

NOTE: READ THE MATERIAL SAFETY DATA SHEET BEFORE USING THIS PRODUCT.

Add the product to the end of the production cycle with good agitation to ensure uniform distribution.

For household, consumer, industrial, institutional, and janitorial products such as liquid and solid air fresheners, dish detergents, laundry products, soaps and detergents, non-food contact surface cleaners, floor care products, bathroom cleaners, window cleaners, fabric care products, automotive care products, and furniture care products. Add the product at use levels ranging from 0.01-0.07%. Add at the end of the product cycle with good agitation to ensure uniform distribution.

For wood preservation: This product is to be used in above-ground applications only. Typical use levels range from 0.3-0.5%. Dilute the product in an appropriate solvent to provide a good dispersion and then apply to new lumber, particle board, millwork, etc. The amount of product use will depend on the severity of the conditions for use and end-use and the extent of time that protection is required.

Eucalyptus levels of use must be determined by field trials because of great variation in susceptibility of fresh sawn lumber relative to the type of wood, sawing and storage techniques, conditions of humidity, method of treatment, etc.

For best results, treat lumber within twenty-four hours after it is sawn. Apply to wood by dipping, brushing, spraying or pressure treatment. After treatment, lumber must be stored in a properly maintained seasoning yard with good drainage such that no water will accumulate in any area. Main alloys of the yard must be at least 16 ft. wide, and stack foundations must be sufficiently elevated to permit ready access of air to the pile and allow water to drain off quickly.

FUNGITROL 940CR Fungicide can be used as a fungicide in non-medical, non-food contact aqueous, solvent and non-solvent based systems such as natural and synthetic adhesives, cauls, patching compounds, sealants, grouts, latexes such as silicone or latex used in the manufacture of flooring adhesives or carpet backings. For use in cementitious products. Add the amount of the product in the range of 0.05-0.065%. Add at the end of the product cycle with good agitation to ensure uniform distribution.

For specific recommendations on specific amounts of product to use please contact ISP.

Do not apply this product in a way that will contact workers or other persons.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge and for use in cementitious products. Add the required amount of the product in the range of 0.05-0.065%. Add at the end of the product cycle with good agitation to ensure uniform distribution.

For specific recommendations on specific amounts of product to use please contact ISP.

Do not contaminate water, food, or feed by storage or disposal.
