PRECAUTIONARY STATEMENTS

Hazards To Humans & Domestic Animals

CAUTION

Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment (PPE)

Applicators and other handlers, must wear the following:

- Long-sleeved shirt
- Long pants
- Shoes plus socks
- Gloves

USER SAFETY REQUIREMENTS

Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Follow manufacturer’s instructions for cleaning/maintaining PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Physical and Chemical Hazards

Contents under pressure. Do not store or use near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not use on electrical equipment or on surfaces that can be harmed or stained by water.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Use Restrictions

- Except when applying to clothing, do not enter or allow others to enter until vapors, mists and aerosols have dispersed; sprays have dried and the treated area has been thoroughly ventilated.
- Except when applying to clothing, do not apply this product in a way that will contact workers or other persons, either directly or through drift.
- Only protected handlers may be in the area during applications.

- Do not remain in treated area. Exit area immediately and do not return to the treated area until aerosols, vapors, and/or mist have dispersed.
- For articles: Do not wet articles to point of runoff or drip.
- Do not use treated article until spray has dried.
- Dry clean treated clothes before wearing.
- Remove pets, birds and cover any water inhabited by fish (e.g., ponds and ornamental fish ponds) before application. Turn off aquarium filtering systems before spraying and wait approximately 10 minutes after application before turning the filter back on.
- Application is prohibited directly into sewers or drains, or spray thoroughly where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- Not for use on immature bed bugs.
- Remove or cover exposed food and drinking water before application.
- Application as a surface spray, crack and crevice or spot spray. Remove or cover exposed food and water before application. Remove or cover dishes, utensils, food storing equipment and food preparation surfaces or wash them thoroughly before use. Do not apply more than 1 time per week.
- Application as a space spray. Do not apply more than 1 time per year.
- In the home, all dishes, utensils, food processing surfaces, and equipment should be covered during treatment or thoroughly washed before use.
- Do not use in areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in areas where food is exposed to the chemical. Serving areas are areas where prepared foods are served, such as dining rooms, but excluding areas where food is prepared or held.
- May be applied in non-food/feed areas.
- Non-food/feed establishment areas are areas such as garbage rooms, laundries, workshops, entrances and vestibules, offices, locker rooms, machine rooms, boiler rooms, mop closets and storage (after canned or bottled).
- Commercial food/feed areas where the product cannot be used include areas for receiving, serving, storage (Dry, Cold, Frozen, Raw), packaging (Cleaning, Slicing, Cooking, Grinding), edible, waste storage, enclosed processing systems (Mills, Dairies, Edible Oils, Syrups).
- Do not use on aircraft.

SHAKE WELL BEFORE USING

Remove protective cap, hold container upright and spray from a distance of 12 to 15 inches. When treating surface fabrics and where water alone could stain, spray in an inconspicuous area to test for possible staining or discoloration.

INDOORS:

Cockroaches: Spray into hiding places such as cracks and crevices, junctions, along baseboards and floors, around drains and plumbing, insecticidal with spray wherever possible.

Ants: Spray trail and points of entry. Spray on ant paths where possible.

TO KILL Bed Bugs: On Upholstered Furniture — test fabric in an inconspicuous area to ensure dyed fibers will not be bleached. Spray all fabric surfaces until damp paying particular attention to tufts and seams to contact bed bugs directly. Do not use on delicate fabrics. Allow furniture to dry thoroughly before using.

On Carpets — spray over entire carpet surface and spray in a sweeping motion. Use an overlapping pattern to assure total coverage. After application, brush the surface of the carpet with a broom or brush to insure deep penetration to contact as many bed bugs as possible. Allow carpet to dry thoroughly before reentering the treated area. Drying time can be accelerated by using a fan. On Mattresses — spray the top, bottom and sides of mattresses and box springs until damp, paying particular attention to tufts and seams. Allow to dry thoroughly before using. Take beds apart and spray into all joints. Treat baseboards, moldings and floors contacting bed bugs directly. On wool and other proteinaceous fibers — remove infested articles from storage, dry thoroughly, and for air for several hours in sunlight. If possible. Apply spray liberally to empties, closets, bureaus and other storage directing the spray into cracks, joints and crevices where bed bugs may be hiding. After airing, infested articles (such as luggage, stored clothing that cannot be either laundered or cleaned, shoes) may be treated by spraying lightly, keeping nozzle at least three feet from fabric to avoid staining.

TO KILL Dust Mites: This product controls house dust mites that may cause asthma, hay fever, rhinitis, watery eyes and sneezing. On Upholstered Furniture and Drapes — test fabric in an inconspicuous area to ensure dyed fibers will not be bleached. Sprays all fabric surfaces until damp. Do not use on delicate fabrics. Allow fabric to dry thoroughly before using. On Carpets — spray over entire carpet surface and spray in a sweeping motion. Use an overlapping pattern to assure total coverage. After application, brush the surface of the carpet with a broom or brush to insure deep penetration to contact as many bed bugs as possible. Allow carpet to dry thoroughly before reentering the treated area. Drying time can be accelerated by using a fan. On Mattresses — spray the top, bottom and sides of mattresses and box springs until damp, paying particular attention to tufts and seams. Allow to dry thoroughly before using.

ACTIVE INGREDIENTS:

Pyrethrins: 0.15%
Piperonyl butoxide*: 0.75%
Permethrin**: 0.30%
Other Ingredients: 98.80%

TOTAL: 100.00%

NET CONTENTS: 17.5 oz.
