Waterline Maintenance Tablets

Dental Unit Waterline Treatment

Inhibits the Growth of Microbial Contamination in Dental Unit Waterlines

Net Contents: 50 tablets (0.26 oz. total)       www.blutab.com 1-888-843-3343

BluTab® Waterline Maintenance Tablets are designed to be continuously present in your dental unit water system.

Storage:
Store the maintenance water, food, or feed by storage or disposal. Store in a cool dry place.

CAUTION:
Tablets may cause moderate eye irritation. Avoid contacting tablet with eyes or clothing. Wash thoroughly with soap and water after handling tablets and before eating, drinking, chewing gum, or using tobacco.

First Aid:
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes and continue rinsing.
Call a poison control center or doctor for treatment advice.

Hotline Number:
In case of emergency call toll free 1-866-290-1830. Have the product container or label with you when calling a poison control center or going for treatment.

BluTab® Waterline Maintenance Tablets are intended for use with potable water (including tap or distilled).

Directions for Use:
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING. READ ENTIRE LABEL BEFORE USING THIS PRODUCT.

Initial Treatment
Before starting a treatment program with BluTab® Waterline Maintenance Tablets, flush lines with a waterline cleaner or another product recommended by the equipment manufacturer to remove line buildup or deposits. When flushing dental unit water lines, always follow a recognized line flushing/cleaning protocol. Repeat flushing to clean lines every 2 months or more frequently when water quality results indicate.

Routine Treatment
1. Place tablet or tablets (see table below) in empty dental unit water bottle every time you refill the water.
2. Fill bottle with desired volume of water and connect to dental unit. Tablet dissolves in a few minutes.
3. BluTab® Waterline Maintenance Tablets may be left in the waterlines overnight and for extended periods of non-use. Use water solution until it is expended or up to 28 days. It is not necessary to purge lines at the end of each day.

Storage and Disposal:
Store in a cool dry place. Do not feed by storage or disposal. Store in a cool dry place.

Disposal:
If empty: Place in trash or offer for recycling if available. If partly filled: Call your solid waste agency (or 1-800-CLEANUP) for disposal instructions.
