A multipurpose, neutral pH, germicidal detergent and deodorant effective in hard water up to 400 ppm calculated as CaCO₃ in the presence of a moderate amount of soil according to the AOAC Use-Dispense Test. Distinctive, clean, and does not discolor in use. This product is effective against Clavine/Penrocine up to 2 ppm, per gallon.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **Disinfectance/Performance in Non-Medical Facilities.** Add 1/2 oz. of the product to 1 gallon of water. Apply to hard non-porous surfaces. Treated surfaces must remain wet for 10 minutes. Allow to air dry. Effective against: Acinetobacter baumannii, Acinetobacter species, Bacillus subtilis spores, Clostridium perfringens, Clostridium difficile, Enterococcus faecalis, Enterococcus faecium, Escherichia coli O157:H7, Klebsiella pneumoniae, Listeria monocytogenes, Micrococcus luteus, Proteus vulgaris, Staphylococcus aureus, Streptococcus pyogenes, Staphylococcus epidermidis, Staphylococcus haemolyticus, Staphylococcus pneumoniae, Staphylococcus viridans, Trichophyton mentagrophytes.* *Against a fungicidal-causing factor of Pinworm.*

**PRECAUTIONARY STATEMENTS: USE SOLUTION DIRECTIONS.** For fully soiled areas, a preliminary cleaning is required. Add 1/3 oz. of this product to 1 gallon of water to debrite hard, non-porous surfaces. Apply solution using a brush, cloth, mop, sponge, auto scrubber, mechanical spray device, or by immersion as to thoroughly wet surfaces. For spray applications, spray 64 inches from surface. Do not breathe spray. Rub with brush cloth or sponge. Change cloth, sponge or towels frequently to avoid redeposition of oil. Treated surfaces must remain wet for 10 minutes. Allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished. Prepare a fresh solution each day or when use solution becomes visibly dirty.

**PRECAUTIONARIES: DETERMINE/DL/PURDL/PURDL/PURDL USE SOLUTION DIRECTIONS.** To control the growth of mold and mildew and their odors on hard, non-porous, non-inanimate surfaces, apply solution 1/2 oz. of the product per 1 gallon of water. Apply by cloth, sponge, mop, brush, or scrubber or mechanical spray device to the wetted area to be treated completely. Allow surface to remain wet for ten minutes. Solution should dry on surface and repeat treatment every seven days or when new growth appears. Change cloth, sponge, or towels frequently to avoid redeposition of oil. Prepare a fresh solution at least daily or when use solution becomes visibly dirty.

**PRECAUTIONARIES CAUSED BY DOGS, CATS AND OTHER DOMESTIC ANIMALS.** Use on rugs, windows, walls, floors, coves, corners, bathtubs, sinks, show-throughs, or any surface soiled by pet. Test small, inconspicuous area first. Bathe pets as usual. Then follow directions for "General Deodorization." **General Deodorization:** To deodorize, add 1/6 oz. of this product to 1 gallon of water. Allow to air dry.

**KEEP OUT OF REACH OF CHILDREN DANGER PELIGRO**

See right panel for additional precautionary statements and first aid statements:

**PREFACUTARIES HAZARDS TO ANIMALS AND DOMESTIC ANIMALS.** Remove and wash off clothing. Cover all open wounds and mucous membranes. Wash hands after handling and before eating, drinking, applying lotions, or using toiletries. Remove contaminated clothing and wash thoroughly under running water.**

**ENVIRONMENTAL HAZARD**

**PHYSICAL OR CHEMICAL HAZARDS**

Do not mix with other products, hazardous substances or solvents. Do not store near heat or open flame.

**FIRST AID**

If you have this product container with you when you call a poison control center or doctor or go for treatment, IF ON SKIN OR CLOTHING: Take off any contaminated clothing. Rinse with plenty of water for 15 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 minutes. Remove contact lenses, if present, immediately. Call a poison control center or doctor for treatment advice. IF INHALED: Get person to fresh air. If breathing is difficult, give oxygen. If breathing has stopped, call a poison control center or doctor for further treatment advice. **NOTE TO PHYSICIAN:** Probably most serious damage may continue for hours after use because of gas emissions.
