**SURFACTANT AND WATER CONDITIONING AGENT**

**READ ENTIRE CONTAINER LABEL BEFORE USING THIS PRODUCT**

**PRINCIPAL FUNCTIONING AGENT:**
- Alkyl amine ethoxylate and hydrogen sulfate ............................................................................ 34%
- Constituents Ineffective as Spray Adjuvants .................................................................................. 66%
- Total: ........................................................................................................................................... 100%

All ingredients exempt from the requirement of a tolerance as specified in CFR 40,180. WA Reg. No. 99971-04003

**PRECAUTIONARY STATEMENTS**

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**HAZARD TO HUMANS AND DOMESTIC ANIMALS**

Corrosive. Causes irreversible eye damage and skin burns. Harmful if inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

**PERSONAL PROTECTIVE EQUIPMENT (PPE):** Wear protective eyewear (goggles or face shield), chemical-resistant gloves, coveralls worn over long-sleeved shirt and long pants, and chemical-resistant footwear plus socks. Protective eyewear MUST be worn. **IF IN EYES** – Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **IF ON SKIN** – Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED** – Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person. Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage.

**IF INHALED** - Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

**(PELIGRO! AL USUARIO: Si usted no lee ingles, no usa este producto hasta que la etiqueta le haya sido explicada ampliamente.)**

**ENVIRONMENTAL HAZARDS**

Do not contaminate water by cleaning of equipment or disposal of wastes. Use this product only as specified on label. Not for aquatic use.

**PHYSICAL OR CHEMICAL HAZARDS**

Concentrated LOAD OUT™: Wash spillage off thoroughly. The same precautions should be observed in equipment stored after use. Do not allow LOAD OUT™ to come into contact with undiluted chlorate desiccant as an explosion may result.

Clothing: LOAD OUT™ may be hard on cotton, nylon and leather clothing. If LOAD OUT™ contacts clothing of this type, flush thoroughly with water to minimize damage. Wear non-nylon plastic protective clothing. Weight 8.8 lbs./gallon.

**STORAGE AND DISPOSAL**

**DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL**

**STORAGE:** Do not store at temperatures above 140°F. **DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. CONTAINER DISPOSAL: – Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [http://www.acrecycle.org](http://www.acrecycle.org).

Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

**NET CONTENTS:** ______ 2.5 GALLONS (9.46 LITERS) ______ 30 Gallons ______ Tote. Weight: 8.8 lbs./gallon Lot #______________

Manufactured for: Manufactured for: Westlink Ag., P.O. Box 268 Meridian, ID 83680-0268 – Phone: 208-888-1171 –westlinkag.net Patent Pending
DIRECTIONS FOR USE

USE THIS PRODUCT ONLY AS SPECIFIED ON LABEL. LOAD OUT™ adjuvant should be added to the spray water with adequate agitation prior to the addition of the pesticide, plant growth regulator or desiccant. Fill the tank half full add LOAD OUT™ finish filling then add the pesticide. This should give time for LOAD OUT™ to react with the hard water cations. LOAD OUT™ adjuvant is intended to tie up cations, condition the spray water and enhance the penetration of the cuticle for many anionic (negatively charged), acid or salt formulation of fungicides, herbicides, insecticides, defoliants, desiccants, miticides and plant growth regulators. LOAD OUT™ adjuvant reduces the adverse effects that alkaline waters have on the spray solution and provides additional wetting of the sprayed foliage. LOAD OUT™ contains a surfactant therefore can replace other surfactant only products. Where use rates of LOAD OUT™ adjuvant are below 2 quarts per 100 gallons are used, the addition of 1 pint per 100 gallons of good quality nonionic surfactant may be desirable. The concentration of Load Out in the spray tank cannot exceed 25% of the total amount of formulated herbicides(s) and 10% of the total amount of formulated insecticide(s) and/or fungicide(s). Not for aquatic use.

HERBICIDES

LOAD OUT™ is designed to enhance the performance and consistency of post emergent herbicides, to reduce or eliminate the tie-up of anionic (amine salts) herbicides with divalent and trivalent cat ions, such as Iron, Magnesium and Calcium. These ions are often associated with hard water and high pH water. LOAD OUT™ is designed to enhance the performance and consistency of glyphosate (an anionic herbicide) based herbicides. LOAD OUT™ is designed to enhance and improve the consistency of all anionic herbicide included: the phenoxy’s (2,4-D, MCPA, MCPP), Dicamba (Banvel®, tirclopyr (Garlon™), fluroxpyr (Starane™) clopyralid (Stinger™), quinclorac (Facet®), picloram (Tordon®, diclofop (Hoelon®), fenoxaprop (Puma®) cloidinafop (Discover®) sethoxydim (Poast®), glyphosate (Roundup®, glufosinate (Liberty®), bromoxynil (Butril® Bronate®), haloxyfop (Verdict®), quinclorac (Assure®), imazamethbenz (Assert®), imazapyr (Arsenal), imazaquin (Scepter®), imazethapyr (Pursuit®) and imazamox (Raptor®). LOAD OUT™ will also enhance the contact effect of most post-emergent herbicides. LOAD OUT™ should not be used with Sulfonyle urea or sulfonamide herbicides. Mix LOAD OUT™ at the rate of 1-4 quarts of per 100 gallons of total spray for use with products such as Rodeo®, Roundup®, Touchdown®, Glyphos®, Glyphomax®, Banvel®, Garlon™, Starane™, Stinger™, Tordon®, Facet®, Hoelon®, Puma®, Discover®, Poast®, Liberty®, Butril Bronate®, Verdict® Cacodylic Acid, dalapon, Diquat, Diuron, Goal®, Hyvar® X®, Krovar 1, MSMA. Do not lower the pH of these tank mixtures below 4.0 as precipitates may form. Where use rates of LOAD OUT™ adjuvant are below 2 quarts per 100 gallons are used, the addition of 1 pint of a good nonionic surfactant per 100 gallons 0.25% v/v applications or 1 quart nonionic surfactant for 0.5% v/v application may be desirable.

CONDITIONS OF SALE AND WARRANTY

1. Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. Seller neither makes, nor authorizes any agent or representative to make any other warranty of FITNESS or of MERCHANTABILITY, guarantee or representation, express or implied concerning this material.

2. Critical and unforeseeable factors beyond the Seller control prevent it from eliminating all risks in connection with the use of this material. Such risks include, but are not limited to damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated herein and event though label directions are followed. Buyer and user acknowledge and assume all risks and liability resulting from handling, storage, and use of this material (except those assumed in 1 above). Seller shall not be liable for incidental or consequential damages. Poast® and Banvel® are registered trademarks of BASF. Roundup®, Landmaster® and Rodeo® are registered trademarks of Monsanto Agricultural Co. GOAL™, Garlon™, Starane™ Stinger™ and Tordon™ are trademarks of Dow Agro Sciences. Dicamba (Banvel®, Clarity®), quinclorac (Facet®), diclofop (Hoelon®), fenoxaprop (Puma®), sethoxydim (Poast®) registered trademarks of BASF cloidinafop (Discover®), glyphosate (Roundup®), glufosinate (Liberty®), bromoxynil (Butril® Bronate®), haloxyfop (Verdict®), quinclorac (Assure®), imazamethbenz (Assert®), imazapyr (Arsenal), imazaquin (Scepter®), imazethapyr (Pursuit®) and imazamox (Raptor®).
