Avian Control®

Bird Repellent

To be used on Agricultural Commodities: fruit and tuber vegetables (Crop Group 1), leaves of root and tuber vegetables (Crop Group 2), brassica vegetables (Crop Group 3-4), leafy vegetables (except Brassica) (Crop Group 4), brassica leafy vegetables (Crop Group 5), leafy vegetables - including legumes (Crop Group 6), forage and legume vegetables (Crop Group 7), forage vegetables (Crop Group 8), legume vegetables (Crop Group 9), oilseed rape (Crop Group 10-13), hard and small fruit crops (Crop Group 13-20), pome fruit (Crop Group 11-13), stone fruit (Crop Group 12), cereals grains (Crop Group 14), tree nuts (Crop Group 14), forage foder and straw of cereal grains (Crop Group 16), grass forage foder and hay (Crop Group 17), non-leafy animal feed Group (fodder, straw and hay), (Crop Group 18), herbs and spices (Crop Group 18), vegetables - including sunflowers (Crop Group 24), edible fungi (Crop Group 21), tropical fruits and miscellaneous crops (Crop Group 24), and Non-Agricultural Sites including turf, horticultural, livestock, non-food bearing bodies of water, buildings and structures.

**ACTIVE INGREDIENT**
Methyl Anthranilate (MA), methyl 2-amino-1-naphthylacetate

**OTHER INGREDIENTS**

**TOTAL**
This product contains 1.65 pounds of Methyl Anthranilate per gallon of product.

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**FIRST AID:** IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Poison Control Center at 800-222-1222 for emergency medical treatment information.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS & DOMESTIC ANIMALS**

CAUTION. Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

**ENVIRONMENTAL HAZARDS**

For terrestrial uses, do not apply directly to water, to areas where surface water is present, or to irrigation areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or runoff. This pesticide is slightly toxic to fish and aquatic invertebrates.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Applicators and other handlers must wear:
- Long-sleeved shirt and long pants
- Waterproof gloves
- Shoes plus socks (in California, pesticide handlers (mixers, loaders, applicators) must also wear covenalls over normal work clothes and must not prepare spray solutions using more than 50 gallons of Avian Control® per day. Handlers must wear gloves and long-sleeved shirts.

Persons occupying an enclosed cockpit may substitute work clothing (i.e., long-sleeved shirt, long pants, shoes and socks) for label-specified personal protective equipment. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

**USER SAFETY RECOMMENDATIONS**

Users should:
- Remove clothing immediately if pesticide gets inside, if pesticide gets inside, then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Avian Control®

Bird Repellent

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 4 hours.

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard, 40 CFR Part 170. The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

Keep unprotected persons out of treated areas until sprays have dried.

SPRAY APPLICATIONS

LANDFILLS, TURF (Golf Courses, Lawns, Sport Fields & Parks), BUILDINGS & STRUCTURES, CROPS AND NON-FISH BEARING BODIES OF WATER

USE RESTRICTIONS: Use this product in areas to repel birds that congregate in large numbers, including these passerine birds: starlings (Sturnus vulgaris), gulls (subfamily Larinae), blackbirds including grackles (Family Icteridae), and rock dove and domestic pigeons (Columba livia), cliff swallow (Hirundo rustica), house (English) sparrow (Passer domesticus), house finch (Carpodacus mexicanus), American crow (Corvus brachyrhynchos, Corvus corone) as well as these wild migratory waterfowl: grebe (Podiceps), mute swan (Cygnus olor), and Cot (Fulica Americana). These listed birds are reservoirs or vectors for human disease causing agents, bacterial, parasitic, fungal, and ectoparasitic pathogens that can be transmitted to humans and may present a health risk to humans and domestic poultry.

Areas where the above types of wild birds or their drops and humans or domestic birds come in close contact pose a risk to human health and in these settings, birds are considered pests.

Use this product to repel birds from landfills; non-fish bearing bodies of water (fallowed ponds, commercial or industrial water impoundments); and temporary pools of standing water located at or near airports. This product can also be used in non-crop areas that contain temporary surface water caused by the management activities, such as water collected in equipment runs. Avian Control® can also be applied near intermittently flooded low-lying areas, transitional areas between upland and lowland sites, marshes, swamps, bogs, and seasonally dry flood plains and/or deltas provided no water is present or water has receded where birds are a hazard or nuisance. This product can be applied to limit damage caused by birds to ripening crops. However, this product cannot be applied in these areas when non-target birds (i.e., those birds not listed above) or Threatened or Endangered Birds may be present. Do not apply directly to water, such as lakes, reservoirs, ponds, streams and canals; however, overspray to water bodies can be expected with proper use of this product.
SPRAY APPLICATION DIRECTIONS:

Non-feather-bearing bodies of water (failing ponds, commercial or industrial water impoundments, and decorative fountains):

- **Avian Control**: Ineffective at a rate of 12 oz. to 42 oz. per acre (0.16 to 0.54 lbs a.i.) per acre. Adjust timing of subsequent applications as required by bird activity and anticipated seasonal migrations. Product is best applied with a surfactant approved for use in water applications to ensure water surface coverage. California only – Apply at a rate of 1.4 to 2.75 parts of concentrate to 5.5 parts of water. 2.75 to 5.5 gallons concentrate per 1100 gallons of water (0.25% to 0.5%). Mix concentrate with water before adding to non-feather-bearing bodies of water. Reseal at 3-4 week intervals if necessary to maintain reactivity.

- **Lawn & Turf (Course Seaweed, Lawns, Sport Fields & Parks):**
  - **Avian Control**: Ineffective at a rate of 12 oz. to 42 oz. per acre (0.16 to 0.54 lbs a.i.) per acre. But can be used at up to a maximum of 5 gallons per acre (8 lbs a.i.) per acre. Apply directly to the active site face as soon as the birds start to arrive. Repeat applications as long as birds persist. Make applications with conventional spray equipment, humidifiers and other liquid application equipment. Product is best applied diluted while continuously agitated or with a surfactant to ensure uniform coverage. California only – Apply to turf by ground or air at 1 to 14 day intervals, or after each rainfall, using 1.36-2.48 gals product per acre (177-255 lbs a.i.) per 2.5 to 4.5 acres.

- **Buildings and Structures:**
  - Apply the product to immediately repel birds from in or on structures including agricultural buildings. Product is best applied diluted while continuously agitated, or with a surfactant to ensure uniform coverage. Mix **Avian Control** with water at a ratio of 10-50% v/v with water. To make a 20% v/v mixture, mix 1 pint of product with 4 pints of water. To make a 50% v/v mixture, mix 1 pint of product with 1 pint of water.

New York only – Use this product only on lawns, non-feather-bearing bodies of water and temporary pools of standing water on paved areas or construction sites at or near airports.

FEEDSTUFFS:

- Not approved for use in California or New York.

Use Restrictions and Precautions:
- This product is an avian repellent. Do not apply to any avian feedstuffs.
- Do not apply this product in areas where threatened or endangered birds may be present.

Application Directions:
- Add to non-avian feedstuff including grain and rations for consumption by livestock to repel birds from consuming and leaving droppings. Apply **Avian Control** at a rate of up to 50% product to feedstuffs (up to 0.8 lbs oz. product up to 0.16 oz. a.i.) per pound of feedstuffs, or up to 6 lbs oz. product (up to 1.6 lbs a.i.) per 10 lbs feedstuffs) and mix well for even dispersion. Mix product into feedstuffs directly before consumption (Note – if feedstuffs are kept frozen, **Avian Control** can be applied up to 2 weeks prior to consumption). Add to aquatic feedstuff for consumption by farmed fish to repel birds from consuming fish food and leaving droppings. Apply **Avian Control** at a rate of up to 50% product to feedstuffs (up to 0.8 lbs oz. product up to 0.16 oz. a.i.) per pound of feedstuffs, or up to 6 lbs oz. product) and mix well for even dispersion. Mix product into feedstuffs directly before consumption (Note – if feedstuffs are kept frozen, **Avian Control** can be applied up to 2 weeks prior to consumption).

SPRAY APPLICATION DIRECTIONS (CONT):

Avian Control per acre (0.16-0.54 lbs a.i.) with water at a rate of 1 part product to 10-20 parts water or in sufficient water for the application equipment to be used. Apply at rates between 250 to 1000 gallons of spray mixture per acre depending on application equipment and vegetation density. Apply the spray mixture so that the crop moves through coverage. This product may be applied up to the day of harvest (7-9 days after last application) if significant bird damage begins to occur. Do not apply more than 0.375 gallons per acre per application (0.2 lbs a.i. per acre). Refer to "Application Methods and Rates in California Only." Spray at rates between 250 to 1000 gallons of spray mixture per acre. This product may be applied up to the day of harvest (7-9 days after last application) if significant bird damage begins to occur. Do not apply to crops that are susceptible to bird damage. Do not apply when crop is wet or rain is expected. Do not apply through any type of irrigation system. Product is best applied diluted while continuously agitated, or with a surfactant to ensure uniform coverage. For ground applications, dilute 12 oz. to 42 oz.

- **Air Applications (fixed wing and rotary aircraft):** Spray the spray mixture so that the crop moves through coverage. This product is best applied diluted while continuously agitated, or with a surfactant to ensure uniform coverage. Apply 12 oz. to 42 oz. **Avian Control** (0.16-0.54 lbs a.i., per acre). Dilute with water and apply at rates between 2.5 to 10 gallons of spray mixture per acre. This product may be applied up to the day of harvest (7-9 days after last application) if significant bird damage begins to occur. Refer to "Application Methods and Rates in California Only." This product is not to be used on grapes within Suffolk County. Do not apply this product by air.
### Application Methods and Rates in California Only:

**Apples:** 90 oz, product (1.15 lb a.i.) per acre. Apply by air or ground.

**Apricots, Peaches, Plums:** 1.88-3.75 gal (241-480 fl. oz.) product (3.1-6.2 lb a.i.) per acre. Apply by ground only.

**Cherries:** 90 oz to no more than 1.30 gal (179 fl. oz.) product (1.15-2.29 lb a.i.) per acre. Apply by air or ground.

**Millet, Oats, Sorghum:** 1.88-3.75 gal (241-480 fl. oz.) product (3.1-6.2 lb a.i.) per acre. Apply by air or ground.

**Wheat (mechanically harvested only):** 22 oz, product (0.28 lb a.i.) per acre by air application only. Do not exceed 5 lb ac wdr product (0.15 lb a.i.) per acre per year.

**Corn (sweet and pepping):** 22 oz, product (0.28 lb a.i.) per acre. Apply by air or ground.

**Sunflowers:** 22 oz, product (0.28 lb a.i.) per acre. Apply by air or ground.

**Blueberries:** 90 oz to no more than 1.30 gal product (1.15-2.29 lb a.i.) per acre. Apply by air or ground.

**Grapes:** 60 oz, product (1 lb a.i.) per acre. Apply by air or ground.

---

### Crop Group Commodities in Crop Group Approved for AVIAN CONTROL®

#### Root and Tuber Vegetables

**Crop Group 1**
- California only: Not approved for this use in California.
- All other states: Arizona; Arkansas; Colorado; Connecticut; Delaware; Florida; Georgia; Hawaii; Idaho; Illinois; Indiana; Iowa; Kansas; Kentucky; Louisiana; Maine; Maryland; Massachusetts; Michigan; Minnesota; Mississippi; Missouri; Montana; Nebraska; New Hampshire; New Jersey; New Mexico; New York; North Carolina; North Dakota; Ohio; Oklahoma; Oregon; Pennsylvania; Rhode Island; South Carolina; South Dakota; Tennessee; Texas; Utah; Virginia; Washington; West Virginia; Wisconsin; Wyoming

**Crop Group 2**
- California only: Not approved for this use in California.
- All other states: Arizona; Arkansas; Colorado; Connecticut; Delaware; Florida; Georgia; Hawaii; Idaho; Illinois; Indiana; Iowa; Kansas; Kentucky; Louisiana; Maine; Maryland; Massachusetts; Michigan; Minnesota; Mississippi; Missouri; Montana; Nebraska; New Hampshire; New Jersey; New Mexico; New York; North Carolina; North Dakota; Ohio; Oklahoma; Oregon; Pennsylvania; Rhode Island; South Carolina; South Dakota; Tennessee; Texas; Utah; Virginia; Washington; West Virginia; Wisconsin; Wyoming

#### Bulb Vegetables

**Crop Group 3-07**
- California only: Not approved for this use in California.
- All other states: California; Connecticut; Delaware; Florida; Georgia; Hawaii; Idaho; Illinois; Indiana; Iowa; Kansas; Kentucky; Louisiana; Maine; Maryland; Massachusetts; Michigan; Minnesota; Mississippi; Missouri; Montana; Nebraska; New Hampshire; New Jersey; New Mexico; New York; North Carolina; North Dakota; Ohio; Oklahoma; Oregon; Pennsylvania; Rhode Island; South Carolina; South Dakota; Tennessee; Texas; Utah; Virginia; Washington; West Virginia; Wisconsin; Wyoming

#### Leafy Vegetables (except broccoli)

**Crop Group 4**
- California only: Not approved for this use in California.
- All other states: Arizona; Arkansas; Colorado; Connecticut; Delaware; Florida; Georgia; Hawaii; Idaho; Illinois; Indiana; Iowa; Kansas; Kentucky; Louisiana; Maine; Maryland; Massachusetts; Michigan; Minnesota; Mississippi; Missouri; Montana; Nebraska; New Hampshire; New Jersey; New Mexico; New York; North Carolina; North Dakota; Ohio; Oklahoma; Oregon; Pennsylvania; Rhode Island; South Carolina; South Dakota; Tennessee; Texas; Utah; Virginia; Washington; West Virginia; Wisconsin; Wyoming

#### Brassica Leafy Vegetables

**Crop Group 5**
- California only: Not approved for this use in California.
- All other states: Arizona; Arkansas; Colorado; Connecticut; Delaware; Florida; Georgia; Hawaii; Idaho; Illinois; Indiana; Iowa; Kansas; Kentucky; Louisiana; Maine; Maryland; Massachusetts; Michigan; Minnesota; Mississippi; Missouri; Montana; Nebraska; New Hampshire; New Jersey; New Mexico; New York; North Carolina; North Dakota; Ohio; Oklahoma; Oregon; Pennsylvania; Rhode Island; South Carolina; South Dakota; Tennessee; Texas; Utah; Virginia; Washington; West Virginia; Wisconsin; Wyoming

#### Lupine Vegetables

**Crop Group 6**
- California only: Not approved for this use in California.
- All other states: New Hampshire; New Jersey; New Mexico; New York; North Carolina; North Dakota; Ohio; Oklahoma; Oregon; Pennsylvania; Rhode Island; South Carolina; South Dakota; Tennessee; Texas; Utah; Virginia; Washington; West Virginia; Wisconsin; Wyoming

#### Foliage Vegetables

**Crop Group 7**
- California only: Not approved for this use in California.
- All other states: Arizona; Arkansas; Colorado; Connecticut; Delaware; Florida; Georgia; Hawaii; Idaho; Illinois; Indiana; Iowa; Kansas; Kentucky; Louisiana; Maine; Maryland; Massachusetts; Michigan; Minnesota; Mississippi; Missouri; Montana; Nebraska; New Hampshire; New Jersey; New Mexico; New York; North Carolina; North Dakota; Ohio; Oklahoma; Oregon; Pennsylvania; Rhode Island; South Carolina; South Dakota; Tennessee; Texas; Utah; Virginia; Washington; West Virginia; Wisconsin; Wyoming

#### Floating Vegetables

**Crop Group 8-10**
- California only: Not approved for this use in California.
- All other states: Alaska; Arkansas; Colorado; Connecticut; Delaware; Florida; Georgia; Hawaii; Idaho; Illinois; Indiana; Iowa; Kansas; Kentucky; Louisiana; Maine; Maryland; Massachusetts; Michigan; Minnesota; Mississippi; Missouri; Montana; Nebraska; New Hampshire; New Jersey; New Mexico; New York; North Carolina; North Dakota; Ohio; Oklahoma; Oregon; Pennsylvania; Rhode Island; South Carolina; South Dakota; Tennessee; Texas; Utah; Virginia; Washington; West Virginia; Wisconsin; Wyoming

#### Cucumber Vegetables

**Crop Group 9**
- California only: Not approved for this use in California.
- All other states: Arizona; Arkansas; Colorado; Connecticut; Delaware; Florida; Georgia; Hawaii; Idaho; Illinois; Indiana; Iowa; Kansas; Kentucky; Louisiana; Maine; Maryland; Massachusetts; Michigan; Minnesota; Mississippi; Missouri; Montana; Nebraska; New Hampshire; New Jersey; New Mexico; New York; North Carolina; North Dakota; Ohio; Oklahoma; Oregon; Pennsylvania; Rhode Island; South Carolina; South Dakota; Tennessee; Texas; Utah; Virginia; Washington; West Virginia; Wisconsin; Wyoming

FOGGING APPLICATIONS

New York: Foggng applications are prohibited in the State of New York.

Use RESTRICTIONS: Use this product in areas to repel birds that congregate in large numbers, including these passerine bird species:
- starlings (Sturnus vulgaris)
- gulls (family Laridae)
- blackbirds

Indoors, apply Avian Control® undiluted at a rate of 1 oz per 1,000 cubic feet of space to be treated. Point the fog generator in the general direction of the nuisance birds, keeping the fog generator at least 5 feet away from any structure or object to allow for complete dissipation of the fog. A distance of at least 5 feet from any structure or object prevents any damage to desired materials. Expose as many birds as possible to the fog for fast and lasting results. Best product performance is achieved with a dry fog. Consult the fog generator owner’s manual for proper setting.

OUTDOOR FOGGING APPLICATIONS:

General Application Directions: Apply Avian Control® undiluted at a rate of 1 oz per 1,000 cubic feet of space to be treated. Point the fog generator in the general direction of the nuisance birds, keeping the fog generator at least 5 feet away from any structure or object to allow for complete dissipation of the fog. A distance of at least 5 feet from any structure or object prevents any damage to desired materials. Best product performance is achieved with a dry fog. Consult the fog generator owner’s manual for proper setting.

Apply Avian Control® to all structures, buildings, and other Open Areas with a dry fog. Several treatments, 1 to 4 days apart may be required for removal of all nuisance birds. For automated fogging applications, point the fog generator in the direction of the birds or their expected approach.
Tree and Shrub
Apply Avian Control® undiluted using a thermal or mechanical fog generator that will deliver a dry fog with droplet size within the aerosol size range (below 30 microns) that will penetrate the foliage without wetting it. Expose as many birds as possible to the fog for best and lasting results. Apply Avian Control® when birds have settled down. Without treatment until conditions favoring successful use arise (temperature, direction, and speed of wind). For best results, make applications in the evening, when most of the birds have arrived, but before it gets too dark for the birds to leave once exposed to the fog. To prevent damage to foliage, do not allow Avian Control® to accumulate to the point of runoff.

Turf (Golf Courses, Lawns, Sports Fields, Parks, etc.)
Apply Avian Control® undiluted using a thermal or mechanical fog generator that will deliver a dry fog with a droplet size within the aerosol size range (below 30 microns) that will stay suspended and do not settle to the ground. Set fogger upwind so that the wind will carry the fog in the general direction of the birds. Apply at any time of the day when birds are present. To avoid Canán cyme, apply at any time when they are feeding or roosting, except when they sit on or feed during breeding season.

Lakes and Ponds, Harbors and Boat Docks, Aquatic Production Sites (non-fish bearing sites such as hatchery buildings and around culture ponds)
Do not apply directly to water. However, it is expected that overspray may occur. Apply when wind and drift conditions are minimal. Apply Avian Control® undiluted using a thermal or mechanical fog generator that will deliver a dry fog with a droplet size below 30 microns that will stay suspended and does not settle on the water surface. Set fogger upwind so that the wind will carry the fog in the general direction of the birds. Apply as soon as birds arrive. For roosting birds, the product is best applied in the evening when most of the birds have arrived but before it gets too dark for the birds to leave.

Crop Applications (Agricultural Uses — for list of crops in Crop Groups see tables. For application to root and tuber vegetables (Crop Group 1), leaves of root and tuber vegetables (Crop Group 2), bulb vegetables (Crop Group 3-07), leafy vegetables (except brassicas) (Crop Group 4), brassica leafy vegetables (Crop Group 5), legume vegetables — including soybeans (Crop Group 6), foliage of legume vegetables (Crop Group 7), fruiting vegetables (Crop Group 8-13), cucurbit vegetables (Crop Group 9), citrus fruits (Crop Group 10-15), berry and small fruit crops (Crop Group 13-07), pome fruit (Crop Group 11-10), stone fruit (Crop Group 12), cereals (Crop Group 15), tree nuts (Crop Group 14), forage fodder and straw of cereal grains (Crop Group 16), grass forage fodder and hay (Crop Group 17), non-grass animal feed (forage, fodder, straw and hay) (Crop Group 18), herbs and spices (Crop Group 19), alfalfa — including sunflowers (Crop Group 20), edible fungi (Crop Group 21), tropical fruits and miscellaneous crops. Use this product to limit damage caused by birds on ripening crops. Without treatment until crop is susceptible to bird damage, apply Avian Control® undiluted using a thermal or mechanical fog generator that will deliver a dry fog with a droplet size within the aerosol size range (below 30 microns). Direct fog into crop areas. Do not apply when crop is wet or in rain is expected. This product may be applied up to the day of harvest (Pre-Harvest Interval = 0 days). Repeat treatment if significant bird damage begins to occur. Refer to the tables "Commodities in Crop Group Approved for Avian Control®" for the crops approved for use of Avian Control® in California.

Storage & Disposal
Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage:
Store only in original container, in a dry, safe, and inaccessible to children, pets and domestic animals. Store away from pesticides, fertilizers, food, or feed that may cause cross-contamination of odor. Keep container closed when not in use.

Pesticide Disposal:
Product or rinse water that cannot be used according to label instructions must be disposed of according to Federal or approved State procedures. Waste resulting from the use of this product may be disposed of on or at an approved waste disposal facility.

Container Handling:
Nonrefillable Container (five gallons or less): Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank or store rinse water in another container for later use or disposal. Drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure twice more times.

Nonrefillable Container (greater than five gallons): Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll and turn back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

Warranty:
