Net Contents 1 pt (16 fl oz) (473 ml)
ADAMS™ Plus Flea & Tick Spray

- kills adult fleas, flea eggs, flea larvae, and ticks and repels mosquitoes

**IMPORTANT READ ENTIRE LABEL BEFORE EACH USE**

**USE ONLY ON DOGS AND PUPPIES MORE THAN 10 WEEKS OLD & OR CATS AND KITTENS MORE THAN 12 WEEKS OLD**

**DIRECTIONS FOR USE**

- Spray on the skin and coat area only. Do not allow the product to come into contact with the eyes or ears of pets. Do not allow pets to become chilled.
- Apply a thin even layer of spray to the skin and coat area. Be sure to cover the dog’s entire body, including the head, neck, chest, abdomen, legs, and tail. Avoid the eyes and ears.

**RECOMMENDED DOSAGE:**

- Spray 1.25 to 1.5 oz. (35 to 42 mL) of product per square foot of body surface area. For dogs and puppies, apply at 1 lb. of body weight. For cats and kittens, apply at 1 oz. of body weight.

**USE RESTRICTIONS**

- Do not use on puppies less than 10 weeks of age or kittens less than 12 weeks of age.
- Do not use on puppies less than 10 weeks of age or kittens less than 12 weeks of age.
- Do not use on puppies less than 10 weeks of age or kittens less than 12 weeks of age.
- Do not use on puppies less than 10 weeks of age or kittens less than 12 weeks of age.

**FIRST AID**

- If in eyes: Call a poison control center or doctor for treatment advice. Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- If in mouth, do not induce vomiting. Drink a large amount of water. Call a poison control center or doctor for treatment advice.

**HAZARDS TO DOMESTIC ANIMALS – CAUTION:**

- Do not use on puppies less than 10 weeks of age or kittens less than 12 weeks of age. For internal use only. For external use only. For external use only. For external use only. For external use only.

- Do not use on puppies less than 10 weeks of age or kittens less than 12 weeks of age. For internal use only. For external use only. For external use only. For external use only. For external use only.

**FINDING A HEALTH PROFESSIONAL**

- If you have a problem or are concerned about your pet's health, consult a veterinarian.

**PRECAUTIONARY STATEMENTS**

- Housetraining may be delayed by the use of this product. Housetraining may be delayed by the use of this product. Housetraining may be delayed by the use of this product. Housetraining may be delayed by the use of this product.

**STORAGE and DISPOSAL:**

- Keep container closed and out of reach of children and pets. Do not reuse or refill this container. Do not store near heat or open flame.

**ADAMS™ Plus Flea & Tick Spray**

- Adams™ Plus Flea & Tick Spray is most effective when used as part of a total flea and tick management program. For other Adams™ Plus products registered for residential premise control (carpets, upholstery and pet bedding) of these pests in conjunction with this treatment. Monthly premise treatments are required for optimal control and prevention of fleas and ticks.

**WARRANTY AND CONDITIONS OF SALE:**

- Seller warrants that this product conforms to the chemical specifications expressed on the label. To the extent consistent with applicable law, Seller makes no other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.
FOR FLEAS & TICKS:

Adams™ Plus Flea & Tick Spray is most effective when used as part of a total flea and tick management program. For other Adams™ Plus products registered for residential premise control (carpets, upholstery and pet bedding) of these pests in conjunction with this treatment. Monthly premise treatments are required for optimal control and prevention of fleas and ticks.

The success of a flea or tick control program depends on the initial treatment, the consistent treatment of all pets, the cooperation of the pet owner, and the use of a chemical control program. For the best results, use Adams™ Plus Flea & Tick Spray as directed, and wash all bedding and petwear after each treatment of the animal.

RECOMMENDED DOSAGE: Note that the recommended dose is about 4 squirts of the trigger sprayer per pound of body weight. Short-haired pets will need less; more squirts may be needed for long-haired pets. In all cases, apply spray until the coat is damp, not saturated.

FOR MOSQUITOES:

Adams™ Plus Flea & Tick Spray also provides protection against adult mosquitoes. Spraying about 2 ounces of the spray per pound of body weight on your pet will help to control mosquitoes. Adams™ Plus Flea & Tick Spray kills ticks and repels mosquitoes.

STORAGE and DISPOSAL:

Store away from children and animals. Disposal: Nonrefillable container. Do not reuse or refill this container. Empty. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never pour unused product down any indoor or outdoor drain.

HAZARDS TO HUMANS – CAUTION:

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Users shall remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Repeated exposure to pesticides can cause skin irritation.

HAZARDS TO DOMESTIC ANIMALS - CAUTION:

Do not use on puppies less than 10 weeks of age or kittens less than 12 weeks of age. For external use only. For all other products, consult a veterinarian before using this product. Avoid contact with eyes, nose, and mouth. Avoid contact with painted or finished surfaces, including wood, linoleum, Formica, window/door slides, or other surfaces of concern. For best results, refill the container with the product and not the water. Stir well to assure complete mixing of the water, spray against the natural lay of the hair. Cover pet's eyes with hand. With a firm, soothing stroke, spray head, ears, and chest. If you see a tick, spray it directly. With a pet, rub on the neck, mouth, neck, and ears. Then spray the coat, neck, and head quarters, finishing with the legs and tail end. Avoid spraying nostrils and nose. For all pets, spray until damp, not saturated. Do not allow pets to become chilled. Repeat every month for continuous home flea and tick infestation prevention.

ADDITIONAL INFORMATION:

Flea & Tick Spray kills fleas and may reduce the incidence of this condition. It is recommended that the treatment be repeated every month for continuous home flea and tick infestation prevention.

FOR FLEAS & TICKS:

Flea & Tick Spray kills fleas and may reduce the incidence of this condition. Do not allow spray from application or damp pet to come into contact with painted or finished surfaces, including wood Formica, window/door slides, or other surfaces of concern. For best results, refill the container with the product and not the water. Stir well to assure complete mixing of the water. Spray against the natural lay of the hair. Cover pet's eyes with hand. With a firm, soothing stroke, spray head, ears, and chest. If you see a tick, spray it directly. With a pet, rub on the neck, mouth, neck, and ears. Then spray the coat, neck, and head quarters, finishing with the legs and tail end. Avoid spraying nostrils and nose. For all pets, spray until damp, not saturated. Do not allow pets to become chilled. Repeat every month for continuous home flea and tick infestation prevention.

ADAMS™ Plus
Flea & Tick Spray

Kills adult fleas, flea eggs, flea larvae, and ticks and repels mosquitoes

IMPORTANT READ ENTIRE LABEL BEFORE EACH USE

USE ONLY ON DOGS AND PUPPIES MORE THAN 10 WEEKS OLD

ADAMS™ Plus Flea & Tick Spray kills fleas and may reduce the incidence of this condition.

Flea & Tick Spray kills fleas and may reduce the incidence of this condition.

For external use only.

The successive feeding activity of fleas on pets may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of pets with Adams™ Plus Flea & Tick Spray is most effective when used as part of a total flea and tick management program. Use other Adams™ Plus products registered for residential premise control (carpets, upholstery and pet bedding) of these pests in conjunction with this treatment. Monthly premise treatments are required for optimal control and prevention of fleas and ticks.

Recommended dosage: Note that the recommended dose is about 4 squeezes of the trigger sprayer per pound of body weight. Short-haired pets will need less; many sprays may be needed for long-haired pets. In all cases, apply spray until the coat is damp, not saturated.

For Mosquitoes: A light, even coverage of the hair coat (as applied for flea control) will also provide effective repellant of mosquitoes.

Adams™ Plus Flea & Tick Spray is most effective when used as part of a total flea and tick management program. STORAGE and DISPOSAL:

HAZARDS TO HUMANS – CAUTION:

Do not use or store near heat or open flame.

If in eyes:

• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

HAZARDS TO DOMESTIC ANIMALS – CAUTION:

Do not use on puppies less than 10 weeks of age or kittens less than 12 weeks of age. For external use only.

For infants and children:

Children may be observed for a short period of time immediately following product application. Consult a veterinarian before using this product on infants under 2 months of age, aged, pregnant, nursing, or animals on medications. Sensitivity may occur after using ADAMS™ Plus pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and water immediately. In some cases, excessive salivation and ear and paw licking may occur; however, these effects are temporary and not harmful.

RECOMMENDED DOSAGE:

Note that the recommended dose is about 4 squeezes of the trigger sprayer per pound of body weight. Short-haired pets will need less; more spray may be needed for long-haired pets. In all cases, apply spray until the coat is damp, not saturated.

FOR MOSQUITOES:

Apply this product to the animal at your convenience. Do not spray or rub on painted or finished surfaces, including wood floors/furniture, leather/vinyl materials, or other surfaces of concern. For best results, rub the coat while spraying against the natural lay of the hair. Cover the ears with hair. With a firm, fast stroke, spray head, ears, and chest. If your pet has a tick, spray it directly. With cloth, rub on around mouth, nose, and eyes. Then spray the neck, middle and hind quarters, finishing with legs and tail last. Avoid spraying ricinoleic and jambu. For all pets, spray until damp, not saturated. Do not allow pets to be cleaned. Repeat every month for continuous home flea and tick infestation prevention.

 haunted by the thought of fleas or ticks?
