GENERAL INFORMATION
AD-HERE SP is a deposition aid with non-ionic properties designed to improve the contact, wetting and adhesion of pesticides on the plant surface. AD-HERE SP forms a soft film, which polymerizes protecting spray, deposits from rainfall erosion, volatility and ultraviolet (UV), degradation. Under most conditions, apply sprays containing AD-HERE SP at least one half hour, during daylight, before an anticipated rain. Sunlight, direct or indirect, for this time period is needed for the film to set.
