INDUSTRIAL MICROBIOCIDES FOR USE IN RECIRCULATING WATER COOLING TOWERS, WOOD, MOLD AND MILDEW CONTROL, PULP AND PAPER MILLS, OIL FIELD INJECTION WATER AND AIR WASHER SYSTEMS

ISOCIL™ RW 1.5

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals
DANGER-PELIGRO

CORROSIVE. Causes irreversible eye damage or skin burns. May be fatal if absorbed through skin, ingested if swallowed, or if in eyes, on skin, or on clothing. Prompted or frequently repeated skin contact may cause serious health problems in some individuals. Harmful contaminate clothing and wears before reuse.

ENVIRONMENTAL HAZARDS
This chemical is toxic to terrestrial and aquatic plants, fish and aquatic invertebrates. Do not discharge effluent containing the product into lakes, rivers, streams, ponds, wetlands, swamps or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the procedures of the permit. Do not dispose of this product in sewers or septic systems. Insects and aquatic invertebrates and wildlife may be adversely affected if the chemical is not disposed of via regulated aquatic disposal practices. Use of the chemical in or around streams, rivers, lakes or other aquatic ecosystems may result in harmful health effects in some individuals. For guidance, contact your State Water Board or Regional Office of the EPA.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Wear rubber or gloves rated for use with contaminants that are dangerous to skin, eyes, respiratory system or other areas of the body. Use protective clothing rated for use with contaminants that are dangerous to skin, eyes, respiratory system or other areas of the body. Use safety glasses or goggles rated for use with contaminants that are dangerous to eyes. Use an approved respirator to protect against gases, vapors, fumes or particulate matter. Remove and wash PPE before eating, drinking, smoking or entering any area where the product may be present.

USER SAFETY RECOMMENDATIONS
User must:
Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Wash hands and/or change clothing after handling the product. Wash any exposed skin area with soap and water. Use of this product may result in exposure to chemicals. Wash exposed skin area with soap and water. Use of this product may result in exposure to chemicals. Wash exposed skin area with soap and water. Use of this product may result in exposure to chemicals. Wash exposed skin area with soap and water. Use of this product may result in exposure to chemicals. Wash exposed skin area with soap and water.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with the directions. Do not spray this product in or on food, feed, grains or livestock. Do not apply this product to pasture or forage crops. Do not use this product on crops that are to be handled, stored, used, or harvested for food or fiber. Do not use this product in or on food, feed, grains or livestock. Do not apply this product to pasture or forage crops. Do not use this product on crops that are to be handled, stored, used, or harvested for food or fiber. Do not use this product in or on food, feed, grains or livestock. Do not apply this product to pasture or forage crops. Do not use this product on crops that are to be handled, stored, used, or harvested for food or fiber. Do not use this product in or on food, feed, grains or livestock. Do not apply this product to pasture or forage crops. Do not use this product on crops that are to be handled, stored, used, or harvested for food or fiber. Do not use this product in or on food, feed, grains or livestock. Do not apply this product to pasture or forage crops. Do not use this product on crops that are to be handled, stored, used, or harvested for food or fiber.

WOOD AND WOOD PRODUCTS
This product is used for the preservation of wood and wood products such as timber, lumber, plywood, and paneling. This product is used for the preservation of wood and wood products such as timber, lumber, plywood, and paneling. This product is used for the preservation of wood and wood products such as timber, lumber, plywood, and paneling. This product is used for the preservation of wood and wood products such as timber, lumber, plywood, and paneling. This product is used for the preservation of wood and wood products such as timber, lumber, plywood, and paneling.

INDUSTRIAL RECIRCULATING WATER COOLING TOWERS
To control bacteria, algae and calcium scale, use ISOCIL® 1.5 in the lower tower distribution box or lower tower fill tank and select appropriate mixing. The temperature of the cooling tower system should be at least 5° C (41° F) higher than the temperature at which the product is to be used. A simple flow-through system will provide adequate protection when used alone.

FOR HELP IN A CHEMICAL EMERGENCY CALL CHEMTREC 800-424-9300. BEFORE USING CONSULT MATERIAL SAFETY DATA SHEET
