### General Information

**McGregor Defoamer** is a water-based, silicone emulsion antifoam agent and defoamer. *McGregor Defoamer* can be used to prevent foam formation or knock down existing foam. Use rates for *McGregor Defoamer* depend directly on temperature, composition, viscosity, agitation and other conditions; therefore, rates may require adjustment for the most effective dosage. Generally, use rates are lower when used as an antifoam to prevent or reduce foam formation.

### Directions for Use

Use *McGregor Defoamer* at 1/2 - 1 oz. per 100 gallons of solution. It may be necessary to adjust the amount used according to individual conditions. In situations where foam develops after the fluid level drops, stop agitation and add the recommended dosage of *McGregor Defoamer*.

When foaming develops in urea water solutions, it may be necessary to use more *McGregor Defoamer*.

### Not for Aquatic Use

### Handling and Storage

*McGregor Defoamer* will become thicker in cold weather and freeze. Freeze and thaw cycles may cause the emulsion to separate. Testing has shown that freezing does not significantly affect performance. Warming and shaking the container will help restore the material to its normal consistency. For optimum storage stability, store at temperatures between 40°F (5°C) and 90°F (32°C). Do not store near oxidizing agents.

### Container Disposal

**Disposal:**
Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal.

The Agricultural Container Recycling Council (ACRC) operates the national recycling program. Contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

### Conditions of Sale

1. Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purposes stated on this label when used in accordance with directions under normal conditions of use. No one other than the officer or seller is authorized to make any warranty, guarantee, or direction concerning this product.

2. Because the time, place, rate of application and other conditions of use are beyond seller’s control, seller’s liability from handling, storage and use of this product is limited to replacement of product or refund of purchase price.

**Defoamer**

**Manufactured for**

**McGregor Company**

Colfax, WA 99111

---

**Principal Functioning Agents:**

- Dimethylopolysiloxane, silicon dioxide ................................................ 10%
- Constituents ineffective as a spray adjuvant................................. 90%
- TOTAL ............................................................................................ 100%

All ingredients are exempt from tolerance requirements under 40 CFR, 180.

---

**Caution**

**Keep Out of Reach of Children**

Causes moderate eye irritation. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse.

**Personal Protective Equipment:**

Wear chemical resistant gloves, long-sleeved shirt and long pants, and shoes plus socks.

**First Aid**

Call a poison control center or doctor immediately for treatment advice.

Have the product container with you when calling a poison control center or doctor, or going for treatment.

**If Swallowed:** Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.
