Precautionary Statements
Storage, Disposal and Spill
Do not contaminate water, food, or feed by storage and/or disposal of wastewaters.
Storage: Store locked up. Store in a corrosive resistant container with a resistant inner liner. Store in tightly closed containers in a dry well-ventilated area away from excessive heat and incompatible materials.
Disposal: Do not reuse empty container. Triple rinse or equivalent during mixing and loading and add rinsate to spray tank. Recycling decontaminated containers is best option for disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit www.acrecycle.org. Dispose of contents and container in accordance with local/national regulations.
Spill: Absorb spillage to prevent material damage.

McGREGOR
FLASHPOINT™
Water Conditioning Agent
Humectant
Activator

Keep only in original container. Do not breathe mists, vapors or spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves and eye/face protection. IF SWALLOWED: Call a poison center or doctor/physician if you feel unwell. Rinse mouth. Do NOT induce vomiting. IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. Immediately call a poison center or doctor/physician. IF INHALED: Call a poison center or doctor/physician if you feel unwell. Remove victim to fresh air and keep at rest in a position comfortable for breathing. IF ON SKIN, CLOTHING OR HAIR: Rinse skin (or hair) with water/shower. Remove/take-off immediately all contaminated clothing and wash before reuse.

Precautionary Statements
DANGER
Causes severe skin burns and eye damage.
Causes serious eye damage.
Harmful if swallowed.
May be corrosive to metals.

Keep out of reach of children

UN 1760, CORROSIVE LIQUIDS, N.O.S.
(Monocarbamide Dihydrogen Sulfate), 8, PG II

WA Reg. No. 39303-13001

First Aid
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Do not use Flashpoint with sulfonylurea herbicides or other mixtures that cannot tolerate low pH levels.

General Information
Flashpoint is a water conditioner and pH modifying adjuvant specifically used as a tank mix additive for glyphosate and other pesticides that are susceptible to antagonism from hard water minerals such as calcium, iron, manganese and other impurities.

Flashpoint prevents hard water mineral antagonism and improves absorption into plants to enhance efficacy on difficult to control weeds.

Flashpoint should be used with spray mixes that are registered for agricultural, horticultural, turf, ornamental, industrial and non-crop use.

Flashpoint will buffer spray mix and enhance the efficacy and speed of pesticide performance in most instances.

Directions For Use
Applicator is encouraged to conduct a trial using intended tank mix combinations in advance of large scale applications if no prior experience with this adjuvant. Flashpoint may be applied by ground, CDA, or aerial spray equipment. Do not substitute Flashpoint for water required by pesticide label. Not for aquatic use. In the event of a spill or other emergency, call: CHEMTREC at (800) 424-9300.

Use Rate
Always read and follow adjuvant instructions found on pesticide label before using.

General Use: Ground, CDA, Aerial: Use 2 to 4 quarts per 100 gallons of spray solution
Water Conditioning: Use 2 to 3 quarts per 100 gallons of spray solution.
Rates may be adjusted as water hardness varies.

NOTE: Flashpoint is not recommended if accompanying tank mix pesticide label prohibits use of acidifying agents.

Mixing
Unless instructed otherwise by pesticide label, fill spray tank one-half full with water and begin agitation. Add Flashpoint and continue agitation. Add pesticides and or fertilizers as directed by product labels. Continue agitation and complete filling of spray tank. Do not mix Flashpoint with undiluted pesticides.
