A Liquid Acidifier Buffer

For use as a wetter, spreader, acidifier/buffer with pH color indicator in ground and aerial applications to prevent rapid hydrolysis (degradation) of alkaline sensitive systemic and contact pesticides.

*If the desired color change is not observed after adding the selected quantity of the product the optimum pH range has not yet been reached. Continue adding this product in small quantities at a rate of 1 oz/100 gal water (with constant agitation) until the correct shade is obtained.

N.B. Always mix this product thoroughly with water before adding pesticides. A routine check on the pH after addition of the required rate of the product is advisable.

Warranty Statement: Although this buffer has been extensively tested under a large variety of conditions the distributor does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as climatic and storage conditions: Quality of dilution water, compatibility with other substances not indicated on the label and the occurrence of resistance of the pest or diseases against the pesticide used as well as by the method, time and accuracy of application. The distributor furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animal or for lack of performance of the buffer concerned due to failure of the user to follow the label instructions or to the occurrence of conditions that could not have been foreseen. The buyer assumes all risk with use. The seller warrants that the product conforms to its chemical description. Consult the supplier in the event of any uncertainty.

Danger

Causes severe skin burns and eye damage. Contains 28-31% of ingredients of unknown toxicity (inhalation). Do not breathe dusts or mists. Wear protective gloves/protective clothing/eye protection/face protection.

If SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor. Specific treatment (see supplemental first aid instruction on this label). Wash contaminated clothing before reuse. Store locked up. Dispose of contents/container in accordance with local, regional, national and international regulations.

Approximate Amount OF BB5 Natural Concentrate Required to Adjust Waters of Varying Hardness to Obtain an Optimal pH (4.5-5.5)
