DIRECTIONS FOR USE

READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For outdoor use only.

Use Restrictions
Remove or cover exposed food and drinking water before application.
Do not allow adults, children, or pets to enter the treated area until sprays have dried.
Do not use in enclosed enclosures.
Do not apply this product in a way that will contact adults, children or pets, either directly or through drift.
Do not allow people or pets to enter the treated area until vapors, mists and aerosols have dispersed and the treated area has been thoroughly ventilated.
Do not enter the treated area to the point of reentry.
Do not make applications during rain.
All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted areas:
1. Treatment to soil or vegetation around structures
All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice applications only.
Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not apply the product to enter any drain during or after application.

SHAKE WELL BEFORE USING. Peel spray nozzle away from face. Hold container at a slightly downward angle. For best results, spray when air is calm. Allow a few minutes for product to take effect. Spray with wind if slight breeze is blowing (i.e., under 5 mph).

FLYING INSECTS
Flies, mosquitoes, flying moths, gnats and wasps: Spray area infested with these flying insects. Hold container 5 to 10 ft away from shrubs, bushes and grassy areas. Spray these areas with a slow, sweeping motion at the rate of one to three seconds per square yard of space while moving away from the treated area. To reduce annoyance from these pests, treat around entry points and parasites in a similar manner. Allow fog to drift over area. Give special attention to breeding areas such as garbage cans and compost piles. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary, but no more than once per day.

CHARKING INSECTS
Ants (except carpenter, fire, pharaoh and harvester ants), crickets, sowbugs and firebrands: Spray infested surface of patio, campsite, deck or picnic area, hitting as many insects as possible. Also spray legs of tables and chairs to repel ants. Spray and kills for best control. Keep 5 to 10 ft away from ornamental plants while spraying. Repeat as necessary, but no more than once per day.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal. Do Not Mix with Other Pesticides.
For storage: Store in a cool place away from heat, direct sunlight, or open flame.
For disposal: Do Not Puncture or Incinerate.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Causes moderate eye irritation. Avoid contact with eyes. Do not get on skin or on clothing. Harmful if swallowed or inhaled. Do not breathe vapor or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

FIRST AID • In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice. • on Skin: Take off contaminated clothing. Wash skin with plenty of soap and water for at least 15 minutes. If on Hair: Wash hair with plenty of soap and water for at least 15 minutes. If Swallowed: Do not induce vomiting unless told to do so by Poison Control Center or doctor. Do not give any liquid or food by mouth to an unconscious person. • Inhalation: Get fresh air. If person is not breathing, call 911 or do CPR. • Skin: Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice. • If on Clothing: Take off contaminated clothing as soon as possible, and wash before reuse. Wash any bedding, clothing, or other articles used which may have come into contact with treated area.

Environmental Hazards • This product is extremely toxic to aquatic organisms, including fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when cleaning equipment or disposing of equipment waste. Wipe drift and runoff into treated areas. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds where bees are actively visiting the area.

Physical or Chemical Hazards • Contents under pressure. Do not use near heat or open flame. Do not puncture or incinerate. Do not apply this product around electrical equipment due to the possibility of shock hazard. Exposure to temperatures above 130°F may cause bursting. 

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
