ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish, aquatic invertebrates, birds and mammals. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment authority. For guidance contact your State water board or Regional Office of the EPA.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

MICROPEL® 5PVC is a formulation of 10,10'-oxybisphenoxarsine specifically designed for compatibility with flexible vinyl systems. It may also be used as a preservative in plastic products, floor and wall coverings, coated fabrics for upholstery, shower curtains, mattress covers.

A level of 0.6% MICROPEL® 5PVC based on total weight of the final treated product will give excellent control against bacteria and mold organisms in treated articles. For certain items which may be subjected to extended outdoor weathering, such as marine upholstery, swimming pool liners, tarps, and shower tops, a level of 1% should be evaluated.

MICROPEL® 5PVC should not be used on items which come into contact with food stuffs nor items of clothing or infant wear.

NOTE: Please refer to instructional bulletins for additional information on the use of this product.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risks of use and/or handling of this material when such use and/or handling is contrary to label.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage.

PESTICIDE STORAGE: Do not store in the presence of food or feed. OSHA that cannot be used according to label instructions must be disposed of according to Federal or approved State procedures under Subtitle C of the Resource Conservation and Recovery Act (RCRA).

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsewater is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA regional office for guidance.

CONTAINER DISPOSAL: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in sanitary landfill or by incineration if allowed by State and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.
