**CAUTION**

See back panel for precautionary and first aid statements for Freshwater Aquariums

**TREAT 1,200 gallons**

4,635 liters

3.33 FL OZ (100 ml)

**NET WT.**

**PRODUCT USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

To be used only in established aquariums. Before applying, it is recommended you first remove as much algae as possible by cleaning the glass and decor. This allows Tetra AlgaeControl to be the most effective at reducing the remaining algae and inhibiting new algae growth. Remove activated carbon filters for 6-8 hours after using.

Add 1 tsp of Tetra AlgaeControl for every 12 gallons (45L) of aquarium water. For smaller aquariums use the dropper applicator at a rate of one drop/gallon (3.8L). Do not overdose. Adding Tetra AlgaeControl in areas of high water agitation or by pre-diluting Tetra AlgaeControl in a cup of aquarium water will help to distribute the active ingredient. Ensure the aquarium is well aerated.

Dosage may be repeated if needed every three days for up to three total doses, then clean the aquarium of all algae. For regular maintenance, use as algae starts to reappear.

**ATTENTION:** Do not use in newly established aquariums less than three months old. Do not use in aquariums with invertebrates or crustaceans e.g. crabs, shrimps, or crustacean.

**NOTICE:** This product contains chemicals known to the State of California to cause cancer.

**PRECAUTIONARY STATEMENTS:**

**HAZARDS TO HUMANS & DOMESTIC ANIMALS.**

**CAUTION**

Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

**ENVIRONMENTAL HAZARDS**

To protect the environment, do not allow pesticide to enter or run off into storm drains, ditches, ditches, ponds or surface waters.

**IF IN EYES:**

- **Hold eye open and rinse slowly and gently with water for 15-20 minutes.**

**IF ON SKIN:**

- **Take off contaminated clothing. Rinse skin immediately with plenty of soap and water for 15-20 minutes.**

**IF SWALLOWED:**

- **Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.**

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage and disposal. Store bottle out of the reach of children. Nonrefillable container. Do not reuse or refill this container. Wrap and place in trash or offer for recycling if available.
