Cense™ combines the strength of MPS, a powerful oxidizer, with the pleasures of aromatherapy – the natural antidote to everyday stress

MPS + AROMATHERAPY

**MPS (potassium peroxymonosulfate)**
**Non-Chlorine Oxidizer**

**PRINCIPAL FUNCTIONING AGENT:** Potassium Peroxymonosulfate*.

**CONSTITUENT’S INEFFECTIVE AS**

**SPRAY ADJUVANTS:**

- Total: 100%
- "Active Oxygen" 3.8%, typical

**KEEP OUT OF REACH OF CHILDREN:** DANGEROUS: CORROSIVE TO EYES, IRRITATING TO SKIN

See first aid treatment and additional precautions on back panel

Net Wt. 2 lbs (907 grams)  CA Reg. No. 67712-50003

**DIRECTIONS FOR USE**

Read all directions and precautions before use.

**WARNING:** Always apply other spa chemicals separately and never combine products prior to addition to the spa. Cense™ is not a sanitizer. For routine dechlorination use an EPA registered product such as Nature2 Spa, according to the label’s directions. Where properly used, Cense™ will help your sanitizer work more efficiently in keeping the spa balanced. Use only clean utensils to dispense product. Never add water to the product bottle. For spa start-up refer to Nature2 Owners Manual. For regular use add 1 tablespoon per 250 gallons (1000 liters) of water before each spa use. Cast Cense™ into the spa while the spa is under continuous circulation with the cover off and the product fully dissolved. Test for MPS with Nature2 Spa Test Strips (or equivalent) after allowing enough time for the product to be properly dissolved. If the Nature2 test strips fail to indicate MPS levels in the 9-12 ppm range with another dose of 1 tablespoon per 250 gallons, and re-test before entering the spa. When each spa use add 1 tablespoon of Cense™ to 250 gallons of water. Allow time for the product to dissolve before turning off the spa jets, net for 30 minutes and then adjust and balance the water chemistry using Nature2 Spa Test Strips once a week. Shock, as needed when unplanned color or eye irritation occurs, after heavy wind or rainstorms, if your spa was not covered, or if a bloom develops. Mix 1 tablespoons of dichlor per 250 gallons to remedy problems which may occur when bather loads are high or when water appears hazy or cloudy.

**USE OF CENSE™ WITH SPA MACHINES:**

Cense™ combines the strength of MPS, a powerful oxidizer, with the pleasures of aromatherapy – the natural antidote to everyday stress.

**PRECAUTIONARY STATEMENTS**

**DANGER:** Corrosive. Strong Oxidizer. May cause irreversible eye damage if not immediately treated. Causes skin burns. Skin contact with the powder may cause allergic skin reactions in sensitive individuals. Do not get in eyes, on skin, or on clothing.

**FIRST AID**

If swallowed:

- Call a poison control center or doctor immediately. Have product/waste container available. Do not induce vomiting. Call a poison control center or doctor for treatment advice.

If on skin:

- Rinse skin thoroughly with soap and water. If skin irritation occurs or persists, call a poison control center or doctor. Avoid breathing dust. Wear goggles or face shield and rubber gloves when handling.
