**DIRECTIONS FOR USE**

Read all directions and precautions before use.

IMPORTANT: Always apply other spa chemicals separately and never combine products prior to addition to the spa. Cense™ is a powerful oxidizer, use only as directed. When properly used, Cense™ will help your sanitizer work more efficiently. Keep this product dry. Never add water to the product bottle. For spa start-up refer to Nature2 Owners Manual. For regular use add 1 tablespoon of Cense™ to 250 gallons (1000 liters) of water before each spa use. East Cense™ into the spa while the spa is under continuous circulation with the cover off until the product is fully dissolved. Test for MPS with Nature2 Spa Test Strips. Allow enough time for the product to be properly dissolved. If the Nature2 test strip results are not enough to indicate MPS levels in the 5-12 ppm range add another dose (1 tablespoon per 250 gallons) and re-test before entering the spa. After each spa use add 1 tablespoon of Cense™ to 250 gallons of water. Allow time for the product to dissolve before turning off the spa jets. Test for pH, total alkalinity and total hardness using Nature2 Spa Test Strips once a week. Adjust accordingly.

**PRECAUTIONARY STATEMENTS**

DANGER: Corrosive. Strong Oxidizer. May cause irreparable eye damage if not immediately treated. Causes skin burns. Skin contact with the powder may cause allergic skin reactions in sensitive individuals. Do not get in eyes, on skin, or in clothing. Remove and wash contaminated clothing before reuse. Harmful if swallowed or inhaled. Avoid breathing dust. Wear goggles or face shield and rubber gloves when handling.

**PHYSICAL AND CHEMICAL HAZARDS**

Strong oxidizing agent. Mix only into water, using clean, dry utensils. Never add water to product. Always add product to large quantities of water. Do not mix with other chemicals or any other substance. Do not pre-dissolve or add water to this product. Always apply product directly into the spa. Contamination of this product with moisture or small amounts of water, other chemicals or other substances, can lead to product decomposition with generation of heat, release of hazardous gases, and potential fire and explosion. In case of contamination, do not re- seal container, instead isolate container outdoors in open air, avoid contamination, do not re-seal container, instead isolate container outdoors in open air, or call 1-800-822-7933. **FIRST AID**

If in eyes

Flush eyes open slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

If on skin or clothing

Take off contaminated clothing. After skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed

Call a poison control center or doctor immediately for treatment advice. Have person sip 1-2 glasses of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

If inhaled

Get person to fresh air. If person is not breathing, call 911 or an ambulance, then give mouth-to-mouth breathing, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**STORAGE AND DISPOSAL**

Store container in a cool, well-ventilated, dry area away from direct sunlight or heat to produce product life. Keep product in a tightly closed container when not in use. If spilled, flood area with large amounts of water. Product or residue that can’t be used should be diluted with water before disposal in a sanitary sewer. Place empty container in trash collection, or recycle — do not re-use. To avoid contamination: do not store product near food or animal feed.
