Organic Fruit & Vegetable Wash

100% Natural

Concentrated produce cleaner and very powerful disinfectant controls microorganisms, post-harvest on fruits & vegetables.

Active Ingredients:
- Clove Oil: 6%
- Sesame Oil: 5%
- Rosemary Oil: 3%
- Thyme Oil: 3%
- 25% Pitch Total: 17%

Inert Ingredients:
- Vegetable Oil: 34%
- R.O. Water: 27%
- Gauze Gums: 22%
- Total: 100%

Net Contents:
- 5 Gallons
- 55 Gal Drum
- 250 Gal Tote

Usage Instructions: Dilute 2 Part (F&VW) with 128 parts water (2 oz/1 gallon) Monitor dilution solution to maintain a Target Range pH of 9.0 to 10.0. If pH is lower than 9.0, add quantity of (F&VW) to bring back solution into Target pH Range.

Kills Quickly:
- Salmonella Typhimurium
- Cronobacter malymum
- Listeria monocytogenes
- Escherichia coli
- Campylobacter jejuni

Make Fresh Solutions Daily:
- Low Toxicity
- Broad Spectrum
- Effective pH range 11
- Low corrosion
- Listeria Control
- Fruit & Vegetable Rinse

How It Works: Through Extensive Research:
- We have identified which natural plant oils kill bacteria and pests. All life is made up of protein molecules. The key is to allow the wash to be effective on the cell walls of the proteins that make up bacteria. The molecular complexity of bacteria selectively discriminates the difference between good and bad proteins. The main mode of action of this organic wash is its ability to attach to and dissolve non-salt bonded cell wall proteins.

Avoid Contact with Eyes, Skin, or Clothing.
- In case of contact, immediately flush eyes or skin with water for ten minutes. Seek medical attention if irritation persists. If swallowed, immediately seek medical attention. Personal protective equipment: Applicators and other handlers of this product should wear long sleeve shirt and pants, shoes plus socks, gloves, and protective eyewear.

Keep Out of Reach of Children.

Caution: Do Not Mix with Any Other Chemicals - Use Water Only.
- In Case of Contact, Immediately Flush Eyes or Skin with Water for Ten Minutes. Seek Medical Attention if Irritation Persists. If Swallowed, Immediately Seek Medical Attention.

Material Safety Data Sheet (MSDS) Is Available Upon Request.

Contains No Harsh Chemicals
No Chlorine

These non salt bonded proteins are characteristic of bacteria and insect pests. We only attack these protein cells in bacteria. We leave the salt bonded cells alone and unharmed. This results in complete safety in a broad range of mammals and environments. We break down the "glue" that holds bacteria and insects together, thus killing them quickly with little chance of the bacteria to produce a resistant strain in these oil washes.

For Agriculture Use

Net Contents: 2.5 Gal. 22lbs. / 9.6Kg at 68°F
2 Per Case WT 44lbs. / 18.2Kg @ 68°F
