**EX-ICUTE / RAPID-O™**

**RID-BUGS™**

Organic pestcide and Bio Fungicide

---

**PRODUCT INFORMATION**

Controls sucking and chewing insects and fungal diseases like powdery mildew, rust, and Sigatoka.

**Vegetables**

Insect controlled includes but is not limited to the following: Army Worms, Aphids, Thrips, Fruit Flies, Leaf Hoppers, Leafminers, Mealie Bugs, Scale (Red and Brown, Citrus Scale), Snails, Mites, Pepper Weed, Potato Beetles, Stable and Deer Flies, Whiteflies, Mosquitoes, Flies, Gnats, NoSee-Us, Flies, Ticks, Silverfish, Crickets, Moths, Cinch Bugs, Ants, Palmato Bugs, Caterpillars, and more.

**Bananas**

Sigatoka Negra (Black Sigatoka), Bacterial Acanthosperma Negros, Monos Blanca (White Black)

**Rice**

Segata (Flying bug on rice) Acanthosperma Negros, Caracol (Snail) Pyricularia oryzae, Rhizoctonia solani

**Coffee**

Insects, Rust, and Fries

Applying EX-ICUTE to Raw Vegetables in Storage: by thermo-fogging to control insects, fungi, bacteria and sprouts.

EX-ICUTE at a rate of one gallon per 10,000 cwt for thermal fogging from 800°F to 100°F for 8 to 10 hrs vaporizing.

HOW EX-ICUTE/RAPID-O/RID-BUGS WORKS:

To rid plants of all stages of chewing and sucking insects PLUS some fungal diseases. There are both good and bad cell wall proteins. The fundamental elements that allow the EX-ICUTE/Rapid-O/Rid-Bugs to be effective is the molecular complex's ability to selectively discern the difference between the good and bad proteins. The main mode of action of this organic product is its ability to attach to and dissolve non-sub-hooded cell wall proteins in non-characteristic of a broad range of pests, while leaving the salt bonded-proteins unharmed for complete pest safety across a broad range of environments.

EX-ICUTE/Rapid-O/Rid-Bugs basically breaks down the glue that holds insects and fungi together, resulting in exceptional, broad-spectrum pest control with little to no chance of product resistance development by insects.

**Precaution Statements**

Always check compatibility by spraying a small number of plants before initial application.

**CAUTION**

*AVOID CONTACT WITH EYES, SKIN, OR CLOTHING.*

In case of contact, immediately flush eyes or skin with water for ten minutes. Seek medical attention if irritation persists. If swallowed, immediately seek medical attention.

**Personal protective equipment:** Applicators and other handlers of this product should wear long sleeve shirt and pants, shoes or socks, gloves, and protective eyewear.

**KEEP OUT OF REACH OF CHILDREN**

**FIRST AID MEASURES**

Eye Contact Aid: Flush immediately with cold water for at least 15 minutes, contact physician immediately.

Skin Contact Aid: Thoroughly wash the affected area with soap and warm water. Flush with large quantities of water. If irritation persists call a physician.

Inhalation Aid: Remove individual to fresh air.

**For agricultural use only.**

**CONTROL**

Bagrada Bug (bagrada hilaris) - stink bug 7 days
At rates of 7 oz of concentrate or 1 oz in 30 gallons of water.

**Mites on Strawberries**

Apply at rate of 1 oz of water gold in 30 gallons of water

**Whitely - Strawberries**

Apply at rate of 1 oz of water or 1 oz in 30 gallons of water

**Thrips on Peppers**

Apply at rate of 1 oz of water gold in 30 gallons of water

**Aphids**

Apply at rate of 1 oz of water or 1 oz in 30 gallons of water

**NET CONTENTS**

2.5 Gal. 31lbs. / 9.6kg at 68°F

**SHAKE WELL BEFORE USING**

FOR AGRICULTURAL USE ONLY.
