KILLS RATS, MICE & MEADOW VOLES*

ACTIVE INGREDIENT: Bromethalin (CAS #63333-35-7): 0.01%
OTHER INGREDIENTS†: 99.99%
TOTAL 100.00%

†Contains Denatonium Benzoate

4.1 lbs (1.8 kg)
22 x 3 oz (85 g) Place Pacs

For Use In and Around Agricultural Buildings and Homes
For Indoor and Outdoor Mouse, Rat & Meadow Vole* Control
Norway Rats, Roof Rats, & House Mice Cease Feeding After Consuming a Toxic Dose

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panels for First Aid and additional precautionary statements.

EPA REG. NO. 12455-143-3240
EPA EST. NO. 12455-WI-1

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat
**TREATMENT FOR PET POISONING**

Contains the nerve poison Bromethalin. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

**FIRST AID**

**IF SWALLOWED:**
- Call a poison control center, doctor, or 1-877-854-3246 immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.

**IMPORTANT: Do not expose children, pets, or nontarget animals to rodenticides. To help prevent exposure:**
- Store unused product out of reach of children and pets.
- Do not sell this product in individual containers holding less than 4 pounds of bait.
- Do not sell this product to retailers or individuals seeking to resell this product in individual containers. Retailers are prohibited from filling individual containers with this product.
- Do not sell this product to individuals who have not been trained in the use of this product.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Keep away from children, domestic animals and pets. All handlers (including applicators) must wear shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wash gloves.

**PRECAUTIONARY STATEMENTS**

Hazard to Humans and Domestic Animals

**CAUTION:** Harmful if swallowed. Keep away from children, domestic animals and pets. All handlers (including applicators) must wear shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wash gloves.

**ENVIRONMENTAL HAZARDS**

This product is extremely toxic to mammals and birds. Dogs and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

**APPLICATION DIRECTIONS:**

- **Rats:** Apply 1 to 2 place pacs per placement (usually at intervals of 15 to 30 feet). Adjust the amount of bait applied to the level of rat feeding expected at each bait placement.
- **Mice and Meadow Voles:** Open place pac and apply 1/4 to 1/2 ounce (1-2 level tablespoons) of bait per placement. Space placements at intervals of 15 to 30 feet in interior areas. Larger placements, up to 2 ounces, may be used at points of extremely high mouse or meadow vole activity.

**Baiting Strategy:** Highest bait consumption is expected to occur on the first day or two after treatment begins. After several days, inspect the placement and replenish bait at sites where there is evidence of heavy feeding or where there is continuous evidence of rodent activity. Normally, the volume of bait consumed will be significantly less with bromethalin baits than with anticoagulant baits. Although one night’s feeding will usually provide a lethal dose, maintain bait for at least one week to provide all rodents a chance to feed on the bait. Continue baiting until all signs of feeding have ceased.

**FOLLOW-UP:** Replace contaminated or spoiled bait immediately. Using gloves, collect and properly dispose of all dead, exposed animals and leftover bait. To discourage reinfection, limit sources of rodent food, water, and harborage as much as possible. If reinfection does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish them as needed.

**DIRECTIONS FOR USE**

- When used in USA inspected facilities, this product must be applied in tamper-resistant bait stations. Do not broadcast bait.
- Do not sell this product in individual containers holding less than 4 pounds of bait.

**STORAGE AND DISPOSAL**

This product is extremely toxic to mammals and birds. Dogs and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

**WARNING:** To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than as indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

**KILLS RATS, MICE & MEADOW VOLES**

Norway rats, Roof rats and House mice cease feeding after consuming a toxic dose.

**ACTIVE INGREDIENT:** Bromethalin (CAS #60330-55-7): 0.01%

**OTHER INGREDIENTS:**
- Other inert ingredients: 99.99%
- Total: 100.00%

**CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.

**CONTAINER DISPOSAL:** Dispose of empty container by placing it in, or at an approved disposal facility or by incineration.

**KEEP OUT OF REACH OF CHILDREN**

See side panels for First Aid and additional precautionary statements.

**FARM & HOME**

Available Exclusively From: 3699 Kinsman Blvd.

MADISON, WISCONSIN 53704 U.S.A.

MADE IN USA

**IF SWALLOWED:**
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not contact wet or led hands.
- Have person sip a glass of water if able to swallow.
- Do not contact wet or led hands.

**IF IN EYES:**
- Rinse with large amount of water for 15 minutes, if necessary, remove contact lenses, if worn.

**IF INHALED:**
- Remove person to fresh air.

**IF SKIN CONTAINTED:**
- Wash skin with soap and water for at least 15 minutes.

**IF CONTACTED WITH CLOTHING:**
- Remove clothing immediately.

**If Not Otherwise Indicated:**
- DO NOT INDUCE VOMITING UNLESS TOLD TO DO SO BY THE POISON CONTROL CENTER OR DOCTOR.
- HAVE PERSON SIP A GLASS OF WATER IF ABLE TO SWALLOW. DO NOT INDUCE VOMITING UNLESS TOLD TO DO SO BY THE POISON CONTROL CENTER OR DOCTOR.

**FOR URGENT MEDICAL ATTENTION CALL 1-877-854-3246**
IT IS ILLEGAL TO SELL THIS PLACE PAC INDIVIDUALLY
