COVERAGE

32 fl. oz. container treats 1,211 sq. ft.

CONTROLS THESE LISTED INSECTS

- Ants
  - Fire ants
  - Harvester ants
  - Pharaoh ants
  - Carpenter ants
- Aphids
  - Midge
  - Japanese beetles (adults)
  - Soft Scale
- Azalea caterpillars
- Bagworms
- Black vine weevils
  - (adult)
- Elixir gall
- Snout weevils
- Leaf mining beetles
- Leaf miners
- Leaf-eating caterpillars

CONTROLS THESE DISEASES

- Black spot
- Powdery mildew
- Rust
- Scab
- Leaf spot

*For best control of scale insects, spray leaves, stems, and trunks thoroughly.
**Spray directly on the bagworm larvae after they hatch. Control is most effective when the larvae are young.

SPRAYER DIRECTIONS

- Turn nozzle tip to adjust the spray pattern.
- Spray uniformly to wet the top and bottom of leaves, but not to dripping.

HOW IT WORKS

The dual-action of the insecticide and fungicide portion of this product controls many listed insects in two ways: through direct contact and by ingestion. Lambda-cyhalothrin starts working right away controlling listed insects that come in contact with the product. The thiophanate-methyl is absorbed into the plant, moves rapidly throughout, and causes listed insects which ingest plant tissue to stop feeding and die. This product keeps listed insects from reestablishing for up to 30 days. This product contains a broad-spectrum fungicide difenoconazole that works systemically from within the plant, controlling many important plant diseases.

WHERE TO APPLY

- Roses
- Landscape ornamentals such as trees and shrubs, foliage plants and groundcovers.
- Flower beds.

CONTROLS THESE DISEASES

- Black spot
- Powdery mildew
- Rust
- Scab
- Leaf spot
STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in a cool, dry, secure place. Keep container closed and away from food, feeds, and domestic water supplies.

Pesticide Disposal and Container Handling: Non-refillable container. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling if available.
If partly filled: Call your local solid waste agency or 1-800-858-7278 for disposal instructions. Never place unused product down any indoor or outdoor drain.

FIRST AID

If swallowed:
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If in eyes:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.
• Call a poison control center or doctor for treatment advice.

If on skin or clothing:
• Wash skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

If inhaled:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible.
• Call a poison control center or doctor for further treatment advice.

Note to Physician: If ingested induce emesis or lavage stomach. Treat symptomatically.

Have this product container or label with you when calling a poison control center or doctor or going for treatment.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed. Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Harmful if inhaled. Avoid breathing vapor or spray mist. Remove and wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS:
This pesticide is toxic to fish, mammals, and aquatic invertebrates. Drift and runoff may be hazardous to aquatic estuarine/marine organisms in water adjacent to treated area. Do not apply directly to water, areas where surface water is present, or intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment/washwater or rinse water.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.
Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or regional office of the EPA.
