DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

The presence of algae in swimming pools is objectionable and can be difficult to remove. CLOROX Pool & Spa Algaeicide + Clarifier helps prevent the growth of chlorine-resistant algae (such as mucaro and “black” algae). It also acts as an added defense against algae due to low chlorination periods. Once started, algae greatly increases chlorine demand and the associated increased cost.

FRESHLY FILLED AND/OR ALGAE-FREE SWIMMING POOLS: Add 69 to 97 oz. of CLOROX Pool & Spa Algaeicide + Clarifier per 10,000 gallons of pool water. Add 24 to 48 oz. per 10,000 gallons weekly as a maintenance dose to prevent algae growth through the swimming season.

VISIBLE ALGAE GROWTH: Add an initial dose of 97 to 128 oz. of CLOROX Pool & Spa Algaeicide + Clarifier per 10,000 gallons of water to rid the water of algae. Thereafter, add 24 to 48 oz. per 10,000 gallons weekly during the swimming season to prevent re-growth of algae.

POOL MAINTENANCE TIPS: In order to ensure maximum effectiveness of CLOROX Pool & Spa Algaeicide + Clarifier, super chlorinate with sufficient chlorinating product (such as CLOROX Pool & Spa Chlorinating Liquid, CLOROX Pool & Spa ShockQuick / 10 or CLOROX Pool & Spa Super / ShockQuick / 20) to a chlorine level of 5 ppm. Remove all debris from the pool by vacuuming or sweeping and filtering. In order to aid in the removal of the very fine particles resulting from the affected algae, use CLOROX Pool & Spa Water Clarifier. Always maintain pH at 7.2 to 7.6 and a free chlorine residual of 1 to 2 ppm using a reliable test kit.

STORAGE AND DISPOSAL:

STORAGE: Store product in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. CONTAINER HANDLING: IF EMPTY; Non-refillable container. Do not reuse or refill this container. Place in trash collection or offer for recycling if available. IF PARTIALLY FILLED: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION: Harmful if swallowed. Avoid breathing vapor. Avoid contact with skin, eyes or clothing.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish, aquatic invertebrates and clams.

PHYSICAL OR CHEMICAL HAZARD: Mildly corrosive. Do not mix with acids, ammonia, oxycides, bleach or other household chemicals.

FIRST AID: Call a poison control center (1-888-366-5048) or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. IF SWALLOWED: Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth, if possible.
