EQUITROL II
Feed-Thru Fly Control

Highly Palatable Feed Additive to Prevent the Development of Stable Flies and House Flies in the Manure of Treated Horses

ACTIVE INGREDIENT:
Dihydrobenzyl (CAS 35367-39-5) ........ 0.24%**
OTHER INGREDIENTS ....................... 99.76%**
TOTAL ........................................ 100.00%

**Contains 1.99 grams dihydrobenzyl per pound.
***Refers only to ingredients which are not inertial.
See FEED INGREDIENTS.

KEEP OUT OF REACH OF CHILDREN CAUTION

Net Weight 3.75 lbs. (1.7 kg)

Rev 99.0010053-R1 • 13-01118 • Art Date: 06/2013
READ ENTIRE LABEL, BEFORE EACH USE
DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DO NOT USE ON HORSES INTENDED FOR SLAUGHTER

Feed the recommended dosage of Farnam® Equitrol® II Feed-Thru Fly Control to each horse as necessary to make certain that the full dose is ingested by the horse. This product should be fed top dressed on grass or mixed with the horse’s stable ration to provide 6 ng of diflubenzuron per 100 lbs. of body weight. For occasional fly ridden horses who do not accept new feeds readily, mix this product with sweet feed or grain ration.

Start feeding Farnam® Equitrol® II Feed-Thru Fly Control early in spring before fly activity and continue feeding throughout the summer and into the fall until cold weather restricts fly activity.

Farnam® Equitrol® II Feed-Thru Fly Control contains diflubenzuron, an insect growth regulator which prevents the development of house flies and stable flies in the manure of treated horses, but is not effective against existing adult flies.

In some cases, supplemental fly control measures may be needed in and around stables and buildings to control adult flies and stable flies which can breed in other decomposing vegetable matter or infest on premises, or that migrate in from other areas.

Farnam® Equitrol® II Feed-Thru Fly Control should be used as part of an integrated pest management program aimed at reducing fly populations in the horse’s environment. Consult your retailer for program recommendations. In order to achieve optimum fly control, Farnam® Equitrol® II Feed-Thru Fly Control should be used in conjunction with other Farnam brand products and pre-animal products as well as good management and sanitation practices.

FEED INGREDIENTS: Wheat Middlings, Dehydrated Alfalfa Meal, Calcium Carbonate, Sodium Chloride, Calcium Propionate (preservative)

<table>

</table>

For larger horses over 1,300 lbs. of body weight, feed an additional ½ oz. for each additional 50 lbs. of body weight.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in original container in a cool dry place inaccessible to children and pets.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or in approved waste disposal facility.

CONTAINER HANDLING: Non-releasable container. Do not reuse or refill this container. Completely empty plastic bucket by shaking and tapping sides and bottoms to loosen clinging particles. Then offer for recycling if available or dispose of in a sanitary landfill or by incineration if allowed by state and local authorities by burning. If burned, stay out of smoke.
