PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
CAUTION: Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Keep away from children, domestic animals and pets.

Personal Protective Equipment (PPE):
All handlers (including applicators) must wear long-sleeved shirt, long pants, shoes, socks and water-proof gloves. Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves.

User Safety Requirements
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions are available, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying the bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

ENVIRONMENTAL HAZARDS
This product is extremely toxic to mammals, birds and other wildlife. Dogs, cats and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to Interstitial areas below the mean high water mark. Do not allow bait to be exposed on soil surface. Do not apply where surfacing fish are likely to occur. Do not contaminate water when disposing of equipment wash water or rinse.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for the sites, pests, and application methods described on this label.

IMPORTANT: Do not expose children, pets or other non-target animals to rodenticides. To help prevent accidents:
1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and non-target wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and consuming bait. If bait can be accessed by children when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to food stock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.

3. Dispose of product container, and unused, spoiled, and unconsumed bait as specified on this label.

Note: Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used if children, pets, non-target mammals, or birds may access the bait.

USE RESTRICTIONS:
This product can only be used to control Norway rats, roof rats, and house mice in and within 100 feet of man-made structures constructed in a manner so as to be vulnerable to commercial rodent invasions and/or to harboring or attracting rodent infestations. Examples of such structures include homes and other permanent or temporary residences, food processing facilities, industrial and commercial buildings, trash receptacles, agricultural and public buildings, transport vehicles (trains, airplanes), docks and piers, and ports of entry and related structures around and associated with these sites. Fence and perimeter baiting, beyond 100 feet from any structure as defined above, is prohibited. This product must not be applied directly to food or feed crops. Baiting with Ratodon™ Multi-Feed Bars is prohibited. Do not place near or inside ventilation duct openings. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in KEEPA inspected facilities, this product must be applied in tamper-resistant bait stations. Do not sell this product in individual containers holding less than four (4) pounds of bait.

SELECTION OF TREATMENT AREAS: Determine areas where rats or house mice will most likely find and consume the bait. Generally, these areas are along walls, by ground openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Protect bait from rain or snow. Remove as much alternative food as possible.

APPLICATION DIRECTIONS: Each Rodentex™ Multi-Feed Bar consists of either a 1 oz. block scored so that it can be broken into 12 ounce pieces or a 16 oz. block scored so that it can be broken into 16 one-ounce pieces.

NORWAY AND ROOF RATS: Apply 4 to 16 one-ounce Rodentex™ Multi-Feed Bars per placement. Space placements at intervals of 15 to 30 feet in infested areas. Maintain an uninterrupted supply of fresh bait for at least 10 days or until there no longer are signs of new feeding by rats.

HOUSE MICE: Break Rodentex™ Multi-Feed Bars into dosages 1 ounce, pieces. Apply one 1-ounce piece per placement. Space placements at 8 to 12-foot intervals. Placement of two 1-ounce pieces each may be needed at points of very high house mouse activity. Maintain an uninterrupted supply of fresh bait for at least 15 days or until there no longer are signs of new feeding by house mice.

FOLLOW-UP: Replace contaminated or spoiled bait immediately. Using waterproof gloves collect and dispose of all dead, exposed animals and leftover bait properly. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

Pesticide Disposal: Dispose of wastes resulting from the use of this product in trash or at an approved waste disposal facility. Container Handling: Nonrefillable container. Do not reuse or refill this container.

Plastic Containers: Triple rinse (or equivalent) then offer for recycling or reconditioning; or puncture and dispose of in a sanitary landfill; or incinerate.

Paper Containers: Dispose of empty container by placing in trash at an approved waste disposal facility or by incineration.

DISCLAIMER: To the extent permitted by applicable law, seller makes no warranty or representation, or guarantee or warranty, either express or implied, for results due to misuse, improper handling or improper storage of this material. Nor does seller assume any responsibility for injury to persons, crops, animals, soil or property arising out of misuse, improper handling or improper storage of this material.

For all product related questions, please call 800-234-2269.
User Safety Requirements
Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions are available, use detergent and hot water. Keep washables separate from other laundry. Remove PPE immediately after handling the product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying the bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

ENVIRONMENTAL HAZARDS
This product is extremely toxic to mammals, birds and other wildlife. Dogs, cats and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this. Do not apply directly to water, or to areas where surface water is present or to interstitial areas below the high water mark. Do not allow bait to be exposed on dirt surface. Do not apply where runoff is likely to occur. Do not contaminate soil when disposing of equipment wash water or rinse water.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for the site, pests, and application methods described on this label.

IMPORTANT: Do not expose children, pets or other non-target animals to rodenticides. To help prevent accidents:
1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and non-target wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such destruction from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lined, units must be secured or otherwise immovable. Even stronger bait stations are needed in areas open to booted livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.

3. Dispose of product container, and unused, spoiled, and unconsumed bait as specified on this label.

Note: Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used if children, pets, non-target mammals, or birds may access the bait.

USE RESTRICTIONS:
This product can only be used to control Norway rats, roof rats, and house mice in and within 100 feet of moveable structures constructed in a manner so as to be vulnerable to common rodent invasions and/or harboring or attracting rodent infestations. Examples of such structures include homes and other permanent or temporary residences, food processing facilities, industrial and commercial buildings, trash receptacles, agricultural and workout buildings, transport vehicles, ships, trains, aircraft, docks and port of terminal buildings and related structures around and associated with these structures. Fence and perimeter bathing, beyond 100 feet from any structure as defined above, is prohibited. This product must not be applied directly to food or feed crops.

Baiting with Multi-Feed Bars is prohibited. Do not place near or inside ventilation duct openings. Do not contaminate water, food, feed, fuel, or feed handling equipment, or milk or most handling equipment or surfaces that come in direct contact with food. When used in USDA inspected facilities, this product must be applied in tamper-resistant bait stations.

Do not sell this product in individual containers holding less than four (4) pounds of bait.

SELECTION OF TREATMENT AREAS: Determine areas where rats or house mice will most likely feed and consume the bait. Generally, these areas are along walls, by grazer opinions, in or outside buildings, in corners and concealed spaces, between floor and walls, or in locations where rodents or their signs have been seen. Protect bait from rain or snow. Remove excess alternative food as possible.

APPLICATION DIRECTIONS: Each Rodentex™ Multi-Feed Bar contains 12 oz. of bait. Place up to 16 oz. of bait in 16 oz. of bait pieces or 16 oz. of bait pieces so that it can be broken into 16 oz. of bait pieces.

NORWAY AND ROOF RATS: Apply 4 to 16 one-ounce Rodentex™ Multi-Feed Bars per placement. Space placements at intervals of 15 to 30 feet in infested areas. Maintain an uninterrupted supply of fresh bait for at least 10 days or until there no longer are signs of new feeding by rats.

HOUSE MICE: Break Rodentex™ Multi-Feed Bars into discrete 1-ounce pieces. Apply one 1-ounce piece per placement. Space placements at 8 to 12-foot intervals. Placement of two 1-ounce pieces each may be needed at points of high house mouse activity. Maintain an uninterrupted supply of fresh bait for at least 15 days or until there no longer are signs of new feeding by house mice.

FOLLOW-UP: Replace contaminated or spoiled bait immediately. Using waterproof gloves, collect and dispose of all dead, exposed animals and leftover bait property. To discourage reinfection, limit sources of rotent food, water and harborage as much as possible. If reinfection does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

STORAGE AND DISPOSAL
Do not contaminate water, food, fuel, or feed storage or disposal.

Pesticide Storage: Store in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

Pesticide Disposal: Dispose of wastes resulting from the use of this product in trash or at an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container.

Plastic Containers: Triple rinse (or equivalent) then offer for recycling or recondition; or puncture and dispose of in a sanitary landfill, or incineration.

Paper Containers: Dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration.

DISCLAIMER: To the extent permitted by applicable law, seller makes no representation or warranty, either express or implied, for results due to misuse, improper handling or improper storage of this material. Nor does seller assume any responsibility for injury to persons, crops, animals, soil or property arising out of misuse, improper handling or improper storage of this material.

For all product-related questions, please call 800-234-2259.

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID

HAVE LABEL WHEN OBTAINING TREATMENT ADVICE

IF SWALLOWED
• Call a poison control center or doctor, or 1-800-468-5743 immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.

IF ON SKIN OR CLOTHING
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center, or doctor, or 1-800-468-5743 immediately for treatment advice.

IF IN EYES
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center, or doctor, or 1-800-468-5743 immediately for treatment advice.

NOTE TO PHYSICIAN
If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K, intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

TREATMENT FOR PET POISONING
If animal eats bait, call veterinarian or 1-800-468-5743 at once.

Anticoagulant Diphacinone: For animals ingesting bait and showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K.

For 24-hour emergency information on this product, call 1-800-468-5743 (US & Canada) or 1-551-523-0318 (all other areas).

NET WEIGHT: 16 oz
