DRIFT RETARDANT AND DEPOSITION AID

For use with most water soluble and wettable powder pesticides, desiccants, and cotton defoliants when applied by aerial or standard ground application.

PRINCIPAL FUNCTIONING AGENTS:
Polyvinyl Polymer (Polyacrylamide) ................................................................. 01.00%
CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANTS ........................................... 99.00%
TOTAL .................................................................................................................. 100.00%

All ingredients in this product are exempt from the requirements of a tolerance as specified under Title 40, Code of Federal Regulations 180.

KEEP OUT OF REACH OF CHILDREN

WARNING
May be harmful if swallowed
Causes eye irritation
Causes mild skin irritation
May be harmful if inhaled
See Inside Panel for Additional Precautionary Statements

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

BEFORE USING THIS PRODUCT, READ ALL PRECAUTIONS, DIRECTIONS FOR USE, CONDITIONS OF SALE—LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES.

May be harmful if swallowed. Causes eye irritation. Causes mild skin irritation. May be harmful if inhaled. Keep product locked up and out of the reach of children. Wash hands, face, and other affected areas thoroughly after handling. Do not eat, drink, chew gum, or smoke while using this product. Remove and wash contaminated clothing before reuse. Do not take internally. Avoid contact with or inhalation of spray application mist if present. Do not apply this product in such a manner as to directly expose workers or other persons. If product is being mixed with pesticides and/or spray adjuvants, follow all precautionary statements on the accompanying product(s) labeling. Not for human or animal consumption.

Personal Protective Equipment (PPE): Wear chemical-resistant gloves, long-sleeved shirt and long pants, and shoes plus socks.

FIRST AID

IF SWALLOWED: Call a POISON CENTER or doctor immediately for treatment advice if you feel unwell. Have the person rinse mouth and sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice.

IF ON SKIN: Call a POISON CENTER or doctor immediately for treatment advice if you feel unwell. Wash with plenty of water. If skin irritation occurs: Get medical advice.

IF ON CLOTHING: Take off contaminated clothing and wash it before reuse.

IF INHALED: Call a POISON CENTER or doctor immediately for treatment advice if you feel unwell. Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible.

GENERAL INFORMATION

CLASP® is an effective, easy-to-use, adjuvant for deposition improvement and drift retardation in spraying operations. CLASP® is compatible with most water soluble and wettable powder pesticides, desiccants, and cotton defoliants when applied by aerial or standard ground application.

NOTE: The degree of drift hazard varies with the type of pesticide, application conditions, and vegetation near the sprayed area. Remember, pesticide drift is no accident. Common sense and sound application technology must be followed when spraying pesticides. CLASP® will retard, but not totally eliminate drift.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters. NOT FOR AQUATIC USE IN CALIFORNIA OR WASHINGTON STATE.

DIRECTIONS FOR USE

REFER TO PESTICIDE LABEL FOR SPECIFIC CROP USE AND APPLICATION RATES. Prior to use, read and follow all directions on this label and on the label of the pesticide being used. The pesticide manufacturer’s label for specific usages and restrictions have precedence over DIRECTIONS FOR USE referred to on this label. Fill the spray tank half to three quarters full, add pesticide components, and provide good agitation. Select proper dosage from Dosage Chart and add CLASP®. If additional surfactants or spray adjuvants are to be used, they should be added after CLASP®. Continue agitation until tank is full.

SHAKE WELL BEFORE USE!

Not for aquatic use.

Step 1: Select correct CLASP® dosage from chart below.

Step 2: Shake CLASP® before using. For optimum results, add wettable powder pesticides before CLASP®. Add liquid pesticides after CLASP®. When using liquid micronutrients, jar tests for compatibility and order of addition are strongly recommended. Wetter-spreaders may be added before or after CLASP®. CLASP® should be added to the agitating tank mix. For tanks with weak agitation, add CLASP® during the tank filling operation.

Step 3: Continue to agitate the mix tank before use.

Spray Pressure  Nozzle Orientation  CLASP® per 100 gallons

AERIAL APPLICATIONS

Below 45 psi  Straight Back  2-4 qt.

45° Angle Back  3-5 qt.

GROUND APPLICATIONS

Low (Below 30 psi)  Flat Fan. Flood  1-3 qt.

Off Center  2-3 qt.

Medium (30-50 psi)  Flat Fan. Flood  2-3 qt.

Off Center  3-4 qt.

Spray Gun  3-5 qt.

High (50-150 psi)  Spray Gun  3-10 qt.

USE PRECAUTIONS

Sound application technology must be followed when spraying pesticides. CLASP® can improve deposition of pesticides in the target swath and can retard, but not totally eliminate drift.

AFTER USE

Spray equipment should be rinsed. Follow all clean-up precautions on label of pesticide used. Follow all recommended governmental procedures for disposal of pesticide spray solutions.

**CONDITIONS OF SALE – LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES**

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded.

The directions on this label are believed to be reliable and must be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Helena Chemical Company (the “Company”) or seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Helena Chemical Company’s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product bought, or
2. Replacement of the product used

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
