SHOCK QUICK
5-Step Pool Care System
PART # 116619

FREE POOL CARE ADVICE 1-800-SOS-POOL

SWIMMING POOL WATER DISINFECTANT
TREATS 15,000 GALLONS OF WATER!!

CONTROLS ALGAE & BACTERIA • QUICK CHLORINE BOOST

FIRST AID: If skin contact or eye irritations occur, wash with plenty of water. If vomiting or breathing difficulty occurs, call 911 or get to hospital immediately. If swallowed, call poison control center or doctor for treatment advice. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. IF SKIN OR CLOTHING IS CONTAMINATED, PROPERLY CLEAN OBJECTS OR CLOTHING. GLOVES SHOULD BE WORN WHILE CLEANING.

ACTIVE INGREDIENT: Trichloro-s-triazinetrione 40.0%
OTHER INGREDIENTS 60.0%

NET WT 1 LB (16 OZ) 0.45 kg

SEE BACK PANEL FOR OTHER PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN
Weekly Use:

1. Check the pH of the pool water daily. Adding sodium bi-sulfite (AQUA GUARD® PH DOWN) or chlorinated products as necessary to maintain pH in the 7.2-7.6 range.

2. AQUA GUARD® QUICK is made up of fine particles that dissolve almost instantly when applied to water. Use the entire bag for each application (if applicable). Pour a steady stream of AQUA GUARD® QUICK into the deep end of the pool near the water surface (recommend using a wand if present with or without the wand attachment). Then disperses throughout the pool by the 7.5 mg/hr rate.

3. Operate the pump system for 4 hours (minimum) after applying AQUA GUARD® QUICK to ensure the entire system is treated.

4. Use 1 lb of AQUA GUARD® QUICK to treat 12,000-15,000 gallons of pool water.

Super Chlorination: Whenever the pool water loses its sparkle, turns green or the chlorine level is 2 or below, 3 ppm.

During Super-Chlorination, use the product only when chlorine level is below 3 ppm.

NOTE: 2 ounces of this compound per 5,000 gallons of pool water will increase an existing chlorine level by 1 ppm (1/8 rounded measuring cup = 1 oz).

To maintain 1.0 to 1.5 ppm residual chlorine:

Daily Use: Regularly check chlorine residual with a test kit and chlorinate daily as needed.

If a violation of Federal law is detected, remove this product in a manner consistent with its labelling:

Do not Pre-Dissolve in Container.

Built-up:

residue. It does not increase the pH of the pool water or contain calcium that causes scale.

AQUA GUARD® QUICK dissolves faster than ordinary shock products without leaving
swimming pools. It destroys swimmer wastes and other impurities that cause cloudy water.

AQUA GUARD® QUICK is treated to treat 12,000 to 15,000 gallons of pool water weekly. AQUA GUARD® QUICK

is an aqueous-based shock product. It takes only one pound of AQUA GUARD® QUICK

This product blend of ingredients works fast, allowing swimmers back into the pool in just 15

The AQUA GUARD® QUICK advantages:

The AQUA GUARD® QUICK advantages:

*These products blend of ingredients works fast, allowing swimmers back into the pool in just 15
STORAGE AND DISPOSAL:

Completely empty container. Clean empty container with water. Dispose of container and washings in accordance with local, state, and federal regulations.

PRECAUTIONARY STATEMENTS:

Hazard classification:
- Acute toxicity: Oral - Category IV
- Skin corrosion/irritation:
- Eye irritation:
- Specific target organ system toxicity (reproductive system):
- Carcinogenicity:
- Inhalation hazard:
- Others:

Environmental hazard:
- Mixed infectious waste
- Mixed pathological waste
- Mixed sharps waste
- Mixed radioactive waste

Transport hazard:

CASE OF CONTAMINATION OR DECOMPOSITION: Do not repeat container.

KEEP OUT OF REACH OF CHILDREN.

Physical and chemical hazards:
- Explosive
- Combustible
- Flammable
- Oxidizing
- Corrosive
- Poisonous
- Hazardous to the environment

Environmental considerations:
- Do not contaminate water, food, or feeding areas with this product.

Storage:
- Store in cool, dry area.

Handling:
- Use appropriate PPE.

Disposal:
- Follow local, state, and federal regulations.

Emergency procedures:
- Call your local health or safety agency for hazards and disposal information.

In case of spill:
- Clean up spill with absorbent material.

In case of fire:
- Extinguish fire with water or dry chemical.

NOTICE:
- Federal law prohibits disposal in the USA. This product is toxic and must be disposed of properly.
