Crabgrass Preventer with eVade .375% Plus

ACTIVE INGREDIENT: Prodiameine[N3,N3-Di-n-propyl-2,4-dinitro-6-(trifluoromethyl)-m-phenylenediamine] .375%
OTHER INGREDIENTS: .............................................................99.625%
TOTAL: ............................................................................100.000%

For selective preemergence control of grass and broadleaf weeds in:
• Established turf grasses (excluding golf course putting greens) and lawns
• Landscape ornamentals (including established perennials & wildflower plantings)
• Covers up to 16,390 square feet

KEEP OUT OF REACH OF CHILDREN

See the following section, Precautionary Statements, Hazards To Humans and Domestic Animals, for additional information.

CAUTION: Causes moderate eye injury (irritation). Harmful if inhaled or absorbed through the skin.
Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact while handling the material may cause allergic reactions in some individuals.

DIRECTIONS FOR USE

This product is a selective preemergence herbicide that provides residual control of many grass and broadleaf weeds in:
• Established turf grasses (excluding golf course putting greens) and lawns
• Landscape ornamentals
• Established perennials & wildflower plantings

This product controls susceptible weeds by inhibiting weed seeds germination and root development. The product does not kill weeds that have already germinated. Weeds with layer of soil, or leave exposed to sunlight, as deemed appropriate to the situation.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
STORAGE: Store in original container away from other fertilizer, feed, or food stuffs and separated from other pesticides.
PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Complete empty by tying a plastic bag over the top.

APPLICATION DIRECTIONS

Apply uniformly with suitable, calibrated application equipment.

ESTABLISHED TURF

This product is a selective preemergence herbicide that, when properly applied, will control certain grass and broadleaf weeds in established turf grasses and lawns. The maximum amount of this product that may be applied per year is given in each grass species in the Maximum Annual Rates section of this label. Most effective weed control in turf grasses will be obtained when this product is applied at a rate of not less than 0.5 inches of rainfall or irrigation prior to weed seed germination and within 14 days following application.

ENVIRONMENTAL HAZARDS

This product has low solubility in water. At the limits of solubility, this product is not toxic to fish. However, at concentrations above the level of water solubility, it may be toxic to fish. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent sites. Do not contaminate water when disposing of equipment washwaters.

If material is spilled: Contain and sweep up material of spill for disposal or use per label instructions.

For a MEDICAL EMERGENCY INVOLVING THIS PRODUCT CALL: 1-866-944-8555.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Contact your Loveland Products, Inc. Sales Representative or local Agricultural Extension Agent for crassg ademination information for your area.

Use Precautions

The following precautions apply to the use of this product in turf grasses and lawns:

Application of this product may thin emerging annual bluegrass and newly overseeded grasses. Do not apply to overseeded turf within 60 days after seeding or until after the second mowing, whichever is longer. Injury to desirable seedlings is likely if this product is applied before seeding secondary roots are in the second inch of soil, not thatch plus soil. Do not cut (harvest) treated sod before 120 days after application. Do not apply to newly set sod until the following year.

Application of this turf stressed by drought, low fertility, or pest damage may result in turf deterioration in the following year.

Do not apply this product to putting greens or areas where dichondra, colonial bentgrass, velvet bentgrass or annual bluegrass (Poa annua) are desirable species.

Rates of Application

This product may be applied as a single application or in sequential applications to control weeds growing throughout the year. All applications must be made prior to germination of the target weeds. This product will not control established weeds.

Maximum use rate selection should be based on turf species. The length of time of residual weed control provided by this product is related to the rate applied.

Maximum Annual Rates

This product is recommended for use on turf grass species listed in the following table. Do not exceed the maximum yearly rate as given in the following table:

<table>
<thead>
<tr>

### Use Rates

Apply this product at 175 to 400 lbs/A in fall and/or spring. Use higher rates of application for longer control periods. Sequential or single applications are applied no longer than the total amount of product applied does not exceed the maximum annual application rate of 400 lbs/A.

### Application Timing and Information

This product is a preemergence herbicide and will not control emerged weeds. Most effective weed control in ornamentals will be obtained when this product is applied at least 0.5 inches of rainfall or irrigation, or with shallow (1 to 2 inches) mechanical incorporation, prior to weed seed germination and within 24 days following application.

Best weed control is obtained when this product is applied to soil free of clods, weeds, and debris such as leaves. Prior to application of this product, control existing vegetation by hand weeding, cultivation, or the use of an herbicide that will control the weeds.

### Established Landscape Ornamentals

This product may be applied to established ornamentals as a broadcast, over the top or directed application. Irrigation or rainfall soon after application will wash residues of plant foliage and activate this product in the soil.

### Newly Transplanted Landscape Ornamentals

This product may be applied to newly transplanted ornamentals as a broadcast, over the top or directed application. Delay application to allow soil to settle around new transplants and water thoroughly before applying this product. Apply this product after cuttings form roots and become established. Application should occur before budding/grafting or after budgrowth have taken to avoid any inhibition of the tissue union.

### Established Ornamentals

This product will not harm most trees, shrubs, vines and flowers. Best results will be obtained when this product is uniformly applied to the soil surface, avoiding to ornamental shoots which may be damaged in the effort to get uniform distribution on the soil surface. This product may be applied over the top of species. When plants are under stress (such as heat, drought, or frost damage) some cultivars of plants may be sensitive to this product. Do not use on food producing trees, vines, or plants.

### Conditions of Sale and Limitation of Warranty and Liability

**Before Buying or Using this Product,** read the entire Directions for Use and the following Conditions of Sale and Limitation of Warranty and Liability. By buying or using this product, the buyer or user accepts the following Conditions of Sale and Limitation of Warranties and Liability, which no employee or agent of LOVELAND PRODUCTS, INC. or the seller is authorized to vary in any way.

Follow the Directions for Use of this product carefully. It is impossible to eliminate all risks inherently associated with the use of this product. One or more photographs, advertisements, or other unmentioned consequences may result from such risks as weather or crop conditions, mixture with other chemicals not specifically identified in this product label, or use of this product contrary to the label instructions, all of which are beyond the control of LOVELAND PRODUCTS, INC. and the seller. The buyer or user of this product assumes all such inherent risks.

Subject to the foregoing inherent risks, LOVELAND PRODUCTS, INC. warrants that this product conforms to the chemical description on the label and in a manner that is consistent with the representations made in these directions for use when the product is used in strict accordance with such directions for use under normal conditions of use. EXCEPT AS WARRANTED IN THIS LABEL AND TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THIS PRODUCT IS SOLD "AS IS" AND LOVELAND PRODUCTS, INC. MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR EMBRACED IN ANY OF THE CONDITIONS OF SALE, LIMITATION OF LIABILITY OR UNDERTAKEN IN THE LABEL AND TO THE EXTENT CONSTRUCTED WITH APPLICABLE LAW. THE BUYER OR USERS EXCLUDE REMEDY FOR ANY INJURY, LOSS, OR DAMAGE RESULTING FROM THE HANDLING OR USE OF THIS PRODUCT, INCLUDING BUT NOT LIMITED TO CLAIMS OF BREACH OF WARRANTY OR CONTRACT, NEGLIGENCE, STRICT LIABILITY, OR OTHER TORTS, SUCH AS LIQUI DATION OF THE CLAIM OF THE FOLLOWING ADDRESS: LOVELAND PRODUCTS, INC., ATTENTION LAW DEPARTMENT, P.O.
