Fertilizer with Trimec® Broadleaf Herbicide

ACTIVE INGREDIENT:
2,4-dichlorophenoxyacetic acid .......................................................... 0.56%
(+)-(R)-2-(2-methyl-4-chlorophenoxy)propionic acid ......................... 0.12%
Dicamba (3,6-dichloro-o-anisic acid) ............................................... 0.05%
OTHER INGREDIENTS: ....................................................................... 99.28%
TOTAL .................................................................................................. 100.00%

THIS PRODUCT CONTAINS:
11 lb 2,4-Dichlorophenoxyacetic acid equivalent per ton,
2.4 lb (+)-(R)-2-(2-methyl-4-chlorophenoxy)propionic acid equivalent per
ton,
1.0 lb 3,6-Dichloro-o-anisic acid equivalent per ton.

GUARANTEED ANALYSIS 16-0-8
Total Nitrogen (N) ............................................................................. 16.00%
16.03% urea nitrogen*
Soluble Potash (K2O) ....................................................................... 8.00%
Derived from: Urea and Muriate of Potash

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
CAUTION: Harmful if absorbed through skin. Harmful if inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing dust.

Personal Protective Equipment (PPE)
Some materials that are chemical-resistant to this product are natural rubber. If you want more options, follow the instructions for category A on an EPA chemical-resistant category selection chart.
All handlers, applicators, and other handlers must wear:
- Long-sleeved shirt and long pants
- Shoes plus socks
- Chemical-resistant gloves

User Safety Requirements
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions are washable, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product’s concentrates. Do not reuse them.

User Safety Recommendations
Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. If pesticide gets on skin, wash immediately with soap and water.
Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

First Aid
If on skin or on clothing:
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes.
Call a poison control center or doctor for treatment advice.

If inhaled:
Move person to fresh air.
If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

If in eyes:
Hold eye open and rinse slowly and gently with water for 15 - 20 minutes.
Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
Call a poison control center or doctor for treatment advice.

If swallowed:
Call a poison control center or doctor immediately for treatment advice.
Have the product container or label with you when calling.

Environmental Hazards
This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinsates.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in contamination of drinking water or groundwater.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PRECAUTIONS AND RESTRICTIONS:
Do not enter or allow people or pets to enter the treated area until dusts have settled. Do not apply this product in a way that will contact water or soil. Avoid spreading granules onto exposed root systems or adventitious shoots (mimosa) within the drip line of desirable trees and shrubs, since injury may result.
Do not use this product on or near desirable plants, and avoid spreading granules onto exposed root systems or adventitious shoots (mimosa) within the drip line of desirable trees and shrubs, since injury may result.
Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of lakes, ponds, wetlands, streams, reservoirs, marshes, septic systems, and oceans.
Do not apply when windy. Apply this product directly to your lawn, and sweep any product landing on the driveway, sidewalk, gutter, or street back onto the treated area. To prevent product run-off, do not over water the treated area(s) to the point of runoff or apply when raining or when rain is expected that day.
WHERE TO USE:
Ewing Fertilizer with Trimic® is a Trimic® brand herbicide containing fertilizer, 2,4-D, mecoprop-p, and dicamba. This granular weed and feed provides plant nutrients and controls a broad spectrum of broadleaf weeds in turfgrass. Supplemental nitrogen, phosphorus, and potash should be applied according to soil tests or State Extension Service recommendations.
Ewing Fertilizer with Trimic® is intended to be applied by noncommercial users, lawn care operators, and landscape personnel. Cool season and warm season grasses established in institutional, ornamental, and residential sites may be treated.

Institutional sites are defined as turf areas around properties or facilities providing a service to public or private organizations; for example, hospitals, nursing homes, schools, museums, libraries, sport facilities (including golf courses), and office buildings may be treated. Ornamental sites include turfgrass established around residences, parks, streets, retail outlets, cemeteries, and institutional buildings. Finally, residential sites are defined as areas associated with the household or home itself, including, but not limited to, apartment complexes, condominiums, and patient care areas of nursing homes, mental institutions, hospitals, or convalescent homes.

Ewing Fertilizer with Trimic® may be applied to newly seeded cool season turfgrass. Applications are recommended only after the third mowing or after the grass seedlings have thinned and have developed an adequate secondary root system.

Ewing Fertilizer with Trimic® may be applied to newly established warm season turfgrass. Treatments should be delayed until 3 to 4 weeks after the seeding, sprigging, or plugging operations, and low application rates (1/2 of the recommended application rate for established turfgrass) are suggested.

A uniform broadcast distribution of product on the treated area is essential. Do not exceed the specified application rate for any area. Do not use this product on or near desirable plants, and avoid spreading granules onto exposed roof systems or adventitious shoots (Rhizomes) within the drip line of desirable trees and shrubs, since injury may result.

Do not use this product on dichondra, carpetgrass, St. Augustinegrass, closely mowed bentgrass putting greens, or turf containing desirable clovers.

WEEDS CONTROLLED:
Dandelion, chickweed, plantain, and clover are controlled effectively with Ewing Fertilizer with Trimic®. A partial list of susceptible weeds is shown below:

APPLICATION SUGGESTIONS:
1. Spring and fall applications are recommended for the best control. However, Ewing Fertilizer with Trimic® can be applied any time broadleaf weeds are present and actively growing.
2. Mow the turfgrass 2 to 3 days before application.
3. Water the turfgrass thoroughly (>1/2 inch) at least 1 to 2 days before application.
4. Schedule applications in the morning when dew is present. Or sprinkle or irrigate lightly (<1/4 inch) before application to provide maximum control.
5. Rainfall or irrigation within 24 hours after application may reduce the effectiveness. Do not irrigate or water the turfgrass within 24 hours after application.

Information regarding the contents and levels of metals in this product is available on the Internet at http://www.aspco.org/metalst.htm

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in original container and keep any bags containing unused product in a locked storage area inaccessible to children and domestic animals.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Nonrefillable containers. Do not reuse or refill this container. If empty, Place in trash or offer for recycling if available. If partially filled, Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

LIMITED WARRANTY AND DISCLAIMER
FOR USE ONLY AS DIRECTED.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE MANUFACTURER NEITHER MAKES NOR INTENDS ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE HEREBY EXPRESSLY DISCLAIMED. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, IN NO CASE SHALL THE MANUFACTURER BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. If these terms are not acceptable, return this product unopened immediately to the point of purchase, and the purchase price will be refunded in full. The terms of this LIMITED WARRANTY AND DISCLAIMER cannot be varied by any written or verbal statements or agreements at the point of sale or elsewhere.
