ACTIVE INGREDIENTS:
2,4-Decadienoic Acid, Ethyl Ester, (E, Z) 5.00 %
OTHER INGREDIENTS: 95.00 %
TOTAL: 100.00 %
EPA Registration No. 51934-12
EPA Establishment No. 51934-OK-002
NET CONTENTS: 480 mL

CAUTION
KEEP OUT OF THE REACH OF CHILDREN

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION.
Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear the appropriate PPE.
Remove and wash contaminated clothing before reuse. As soon as possible, wash thoroughly and change into clean clothing.

USER SAFETY RECOMMENDATIONS
Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.
Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handers may be in the area during application. For any requirement specific to your State and Tribe, consult the State/Tribal agency responsible for pesticide regulation.

First Aid Statement
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call poison control center or doctor for treatment advice.

Environmental Hazards

INSECT PHEROMONE & KAIROMONE SYSTEMS
INCORPORATED®

www.trece.com

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applicators and other handlers must wear:
• Long-sleeved shirt and long pants
• Chemical-resistant gloves made of any waterproof material such as nitrile rubber, butyl rubber, neoprene rubber, barrier laminate, polyethylene, polyvinyl chloride (PVC), or Viton.
• Shoes plus socks
• Protective eyewear

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Precautionary Statements
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear the appropriate PPE. Remove and wash contaminated clothing before reuse.
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE USING

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protection equipment (PPE), notification to workers, and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 4 hours. Do not enter or allow worker entry into treated areas during the restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard, 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protection equipment (PPE), notification to workers, and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:

- Long-sleeved shirt and long pants
- Protective eyewear
- Chemical-resistant gloves made of any waterproof material such as nitrile rubber, butyl rubber, neoprene rubber, barrier laminate, polyethylene, polyvinyl chloride (PVC), or Viton.
- Rubber, butyl rubber, neoprene rubber, barrier laminate, polyethylene, polyvinyl chloride (PVC), or Viton.
- Shoes plus socks
- Protective eyewear

Mix CIDETRAK® DA MEC™ with prescribed and/or lower label rates of a suitable insecticide or CM pheromone for control of codling moth, (Cydia pomonella), only if such reduced rates of the insecticide or CM pheromone have been shown effective by industry, government and/or university scientists.

Use CIDETRAK® DA MEC™ in at least 270 lbs/mc (0.63-5.5 gms a.i.) or 30 to 175 lbs/ha (1.5-3.75 gms/ha). Apply CIDETRAK® DA MEC™ usually at a rate of 12 lbs (5.46 gms) per acre or 30 lbs (13.6 gms) per hectare in a mixture only, with a suitable, registered insecticide or CM pheromone and water.

Do not mix applications of CIDETRAK® DA MEC™ at 12 lbs (5.46 gms) a.i. per acre or 30 lbs (13.6 gms) a.i. per hectare per application on a total seasonal amount of 96 lbs (42 gms a.i.) per acre or 240 lbs (12 gms a.i.) per hectare.

Pesticide Compatibility: Check physical compatibility of CIDETRAK® DA MEC™ + insecticide or CM pheromone mixtures before mixing in sprayer tanks. No plant phytotoxicity has been observed with mixtures of CIDETRAK® DA MEC™. But one may check phytotoxic responses to mixtures of CIDETRAK® DA MEC™ + insecticide or CM pheromone formulations by treating 6-8 plants in small area of foliar surface of plantings with chosen mixtures. Observe the effect over 2 days, or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ⅛ full with water and recapture. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling, if available or reconditioning, or puncture and dispose of in a sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

Pesticide Storage: Store in a cool, dry place, out of direct sunlight, and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container (equal or to less than 5 gallons): Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ⅛ full with water and recapture. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling, if available or reconditioning, or puncture and dispose of in a sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

Storage and Disposal: Do not contaminate water, food, or feed by storage and disposal.
