Stabilizer Conditioner

- Shields pool chlorine from the destructive effects of sunlight
- UV protection
- Salt system compatible

PRINCIPAL FUNCTIONING AGENT:
Cyanuric Acid.......................... 99.0%
CONSTITUENTS INEFFECTIVE
AS A SPRAY ADJUVANT...........1.0%
TOTAL........................................... 100.0%

KEEP OUT OF REACH OF CHILDREN
CAUTION
EYE IRRITANT:
See back panel for first aid statement and other precautions

STEP 1
4 lbs

NET WT 4 LBS (1.81 KG)
DIRECTIONS FOR USE: HDX STABILIZER CONDITIONER eliminates rapid dissipation of chlorine in pool water. It reduces frequency of application and quantity of chlorine required to maintain sparkling, sanitary pool water. If a stabilized chlorinating product such as HDX ALL-IN-ONE CHLORINATING GRANULES, HDX 1" TABS or HDX 2" TABS is used regularly, only one HDX STABILIZER CONDITIONER treatment is necessary.

Above-Ground Pools—3 ft. to 4 ft. Deep
Pool Diameter / Dimensions (Ft.) 12 15 18 20 24
Approximate Gallons 2,500 4,500 7,000 9,000 13,000

In-Ground Pools—7 ft. to 9 ft. Deep
14x28 ft. 16x32 ft. 17x34 ft. 18x36 ft. 22x44 ft.
15,000 Gal. 20,000 Gal. 25,000 Gal. 30,000 Gal. 40,000 Gal.
Maintain a cyanuric acid level of 50 ppm and an available chlorine residual of 1.0–1.5 ppm using a suitable test kit.

APPLICATION: Pool filter must be clean. With pump running and skimmer operating vigorously, slowly pour HDX STABILIZER CONDITIONER into skimmer. Operate pump 4–5 hours for complete solution. Alternate Method (recommended for vinyl-lined pools): Slurry HDX STABILIZER CONDITIONER with water (1 lb. per gallon, preferably hot water) and pour directly into pool water.
Mix only with water. This product dissolves very slowly.

PRECAUTIONARY MEASURES. CAUTION: This concentrated product can irritate eyes. If product comes in contact with eyes, immediately flush with water and call a physician. Avoid inhalation of dust and contact with skin.

STORAGE AND DISPOSAL: Store in a convenient place out of reach of children. Rinse empty container thoroughly with water, then discard or recycle.

NOTE: Do not allow direct contact of this product on the following surfaces: vinyl, metallic, fiberglass, painted or colored plaster.

To increase cyanuric acid level by .............................................................. 10 ppm
Add this amount of STABILIZER CONDITIONER per 6,000 gallons.................. 1/2 lb. 1 lb. 1-1/2 lb. 2 lb. 2-1/2 lb.
