TRANSPORT™ PLUS

Water Conditioning Agent, Drift Retardant & Antifoam

PRINCIPAL FUNCTIONING AGENTS
Ammonium Sulfate, Glycerin, Phosphoric Acid,
Polyacrylamide and Silicone Emulsion .................. 32.15%
Inert Ingredients .............................................. 67.85%
TOTAL .......................................................... 100.00%

All ingredients are approved for use under 40 CFR 180
WA Reg. No. 9349-13014

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS
Before using this product, read the entire label, including the conditions of sale. May cause mild irritation to skin and eyes. May cause respiratory or mucosal irritation. Ingestion of large amounts may cause nausea, vomiting or diarrhea.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators or other handlers of this product should wear: long-sleeved shirt; long pants; socks; shoes; protective eyewear; and barrier laminate, neoprene rubber, nitrile rubber or Viton® gloves. Consult the MSDS for further information.

FIRST AID
If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person unless told to by a poison control center.
If In Eyes: Hold eyes open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.
If On Skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice.
If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

GENERAL INFORMATION
TRANSPORT PLUS is a convenient, low-use-rate, activator adjuvant premix that combines water conditioning agents, drift retardants and ammonium ions in an easy-to-use formulation. TRANSPORT PLUS sequesters antagonistic hard water ions, provides additional ammonium ions for improved herbicide uptake and reduces drift risk to ensure optimum performance of glyphosate-based herbicides.

DIRECTIONS FOR USE
Always mix and apply this product in accordance with the instructions found on the pesticide label regarding adjuvants. In the absence of specific instructions follow the application and mixing guidelines below.

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL,

NON-CROPLAND, RIGHTS-OF-WAY, AND OTHER APPROPRIATE USES. NOT FOR AQUATIC USE.

USE RATES
Using the guidelines below, apply TRANSPORT PLUS at 1–4 quarts per 100 gallons or 1–4 liters per 400 liters of spray solution (0.25–1.0% v/v).

Use the higher use rates when any of the following conditions exist:
—Nitrogen responsive weed species, such as velvetleaf, are present or weeds are under weather stress conditions.
—Additional drift control is desired due to weather conditions, nozzle selection or application technique.

Use the lower use rates when visual inspection indicates excessive reduction in the appropriate overlap of the spray pattern.

MIXING
In the absence of specific mixing instructions found on the pesticide label, fill the spray tank with at least 50% of the desired finished carrier volume. When premixing in a mixing vessel or inductor, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:
1. Compatibility agent and/or antifoam, if needed.
2. AMS, dry formulations (WP, DF, WDG, SP), and dry drift retardants.
3. Dry soluble and suspension fertilizers / micronutrients.
4. Liquid drift retardants and flowable formulations (F & FL).
5. Liquid concentrates, suspension and microencapsulated (LC, SC, ME).
6. Emulsifiable concentrates (E, EL or EC).
7. Solutions and soluble liquids (S or SL).
8. Liquid micronutrients and fertilizers.
9. Water conditioners and other adjuvants (COC, HSOC, MSO, NIS).
10. Finish filling to desired spray volume level and continue agitation.

STORAGE AND DISPOSAL
Do not use, spill or store near heat or open flame. Protect product from freezing. If product freezes, warm to room temperature before use. Keep containers sealed when not in use. Store in original container only. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

CONDITIONS OF SALE
Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this product be used and mixed or used as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and handling. Precision Laboratories, LLC warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision’s control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully.
Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
